Instructions

**APPLICATION FOR
FEDERAL PROCESSOR PERMIT (FPP)**

NOTE: For the Federal Processor Permit application to be considered complete, all fees due to NMFS per § 679.55 must be paid.

A **Federal Processor Permit (FPP)** is required before the manager of a shoreside processor, stationary floating processor (SFP), or a community quota entity (CQE) floating processor may receive or process groundfish harvested in the Gulf of Alaska (GOA) or Bering Sea and Aleutian Islands Management Area (BSAI) (see 50 CFR 679.4(f)).

Observer fee liability.

Persons holding a Federal Processor Permit may be required to pay an ex-vessel value-based fee to NMFS to support the funding and development of observers on vessels and in plants in the new “partial observer coverage category.” This fee is intended to be split evenly between the vessel owner/operator and the processor. However, owner of a shoreside processor or stationary floating processor named on an FPP are responsible for collecting the fee, including the vessel’s portion, at the time of landing and remitting the full fee amount to NMFS.

An FPP permit holder who has incurred a fee liability must pay the fee to NMFS by **February 15** of the year following the calendar year in which the landing was made. Full payment of the observer fee liability is required before NMFS will issue a new or renewed FPP.

For additional information on the observer fee liability please refer to the NOAA Fisheries website at: <http://alaskafisheries.noaa.gov/sustainablefisheries/observers/default.htm>.

An FPP is in effect for one year, running from March 1 through the last day of February.

Processing or to process means the preparation of, or to prepare, fish or crab to render it suitable for human consumption, industrial uses, or long-term storage, including but not limited to cooking, canning, smoking, salting, drying, freezing, or rendering into meal or oil, but does not mean icing, bleeding, heading, or gutting (see 50 CFR 679.2).
