The TUS-CPS is a key source of national and state level data on smoking and other tobacco use in the US household population because it uses a large, nationally representative sample that contains information on about 240,000 individuals within a given survey period. The TUS-CPS generally contains items covering:

cigarette smoking prevalence and history,
current and past cigarette consumption,
cigarette smoking quit attempts and intentions to quit,
medical and dental advice to quit smoking,
cigar, pipe, chewing tobacco, and snuff use,
workplace smoking policies,
smoking rules in the home,
attitudes toward smoking in public places,
opinions about the degree of youth access to tobacco in the community (1992 - 2002),
attitudes toward advertising and promotion of tobacco (1992 - 2002),
cost and purchase of cigarettes (2003-),
treatments and methods used to try to quit/quit smoking cigarettes (2003, 2010-2011),
use of harm reduction products (2003, 2006-07).

31. Please describe in detail any processes in place to: (1) notify and obtain consent from the individuals whose PII is in the system when major changes occur to the system (e.g., disclosure and/or data uses have changed since the notice at the time of the original collection); (2) notify and obtain consent from individuals regarding what PII is being collected from them; and (3) how the information will be used or shared.

(Note: Please describe in what format individuals will be given notice of consent [e.g., written notice, electronic notice, etc.]) No PII in the system.

32. Does the system host a website? (Note: If the system hosts a website, the Website Hosting Practices section is required to be completed regardless of the presence of PII):
