Dear Mourning Dove Hunter:

We need your help. To better understand the population status and reproductive success of mourning doves, we need to know the percentages of these species that are young-of-the-year birds. Immature birds have distinct wing feathers and can be distinguished from adults by examining the wings. You can help by donating **ONE** wing from each mourning dove that you bag during your first two hunts this season. **We only need wings from birds that YOU PERSONALLY SHOOT during the first week of the season.**

Enclosed are two postage paid envelopes to be used to mail us wings. Use an inner envelope and a single pre-addressed mailing envelope for up to 15 wings from a single day's hunt. Before you mail your wings, fill in the entire lower right portion of the mailing envelope.

### **PLEASE HELP US KEEP THE MAIL CLEAN**

Wet, bloody, or fly larvae-infested wings will damage other mail and create offensive odors. Postal workers might refuse to handle your envelopes if they are stained, greasy, or smelly. This can be prevented if you:

- Remove the wings as indicated on the pre-addressed envelope.
- Allow excess moisture or blood on wings to dry.
- Keep flies away from the wings.
- **DO NOT** wrap wings in plastic, as this speeds decay.
- Use two envelopes for each group of wings per day. Insert the wings in the inner envelope and seal the flap tightly; then place the inner envelope in the larger pre-addressed (mailing envelope).
- Do not put more than 15 wings in an envelope.
- Mail envelopes promptly.

If you have any questions, please email us at [MigratoryBirdHarvestSurveys@fws.gov](mailto:MigratoryBirdHarvestSurveys@fws.gov) or call us at 1-800-419-2965 between 7:00 am and 4:00 pm Eastern Time. Again, thank you for helping us better manage our shared migratory bird resource.

Sincerely,

Khristi Wilkins  
Chief, Branch of Harvest Surveys
