

IFLE PROGRAMS CURRENT REPORTING SCHEDULE

The following spreadsheet outlines current IEPS program report due dates. The reports covered are the non-competitive continuation (NCC) reports, interim reports, and final reports. For the purposes of this spreadsheet, NCC reports are those submitted in the spring, which are then used to make NCC awards. Interim reports are those submitted in the fall or winter throughout the duration of the grant. Final reports are due within 90 days of the grant end date. The one program that does not follow this framework is FLAS, which has Academic Year interim (AY I) and final reports (AY F), and Summer interim (S I) and final (S F) reports.

Some projects have variance in the grant begin and end dates, and thus, the scheduled report due dates. Those used most frequently are listed separately in the event that future grants will follow approximately the same variations in begin, end, and report due dates.
