BILLING CODE 4191-02-P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Notice to Rescind a Notice of Intent To Prepare an Environmental Impact Statement (EIS): Dickson Southwest Bypass From US-70 to State Route 46 and/or Interstate 40, Dickson County, Tennessee

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice to Rescind a Notice of Intent to prepare an Environmental Impact Statement (EIS).

SUMMARY: The Federal Highway Administration (FHWA) is issuing this notice to advise the public that the Notice of Intent published on September 24, 2007 to prepare an Environmental Impact Statement (EIS) for a proposed transportation project in Dickson County, Tennessee, is being rescinded.

FOR FURTHER INFORMATION CONTACT: Ms. Theresa Claxton, Planning and Program Management Team Leader, Federal Highway Administration—Tennessee Division Office, 404 BNA Drive, Suite 508, Nashville, TN 37217. 615-781-5770.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Tennessee Department of Transportation (TDOT), is rescinding the notice of intent to prepare an EIS for the proposed Southwest Dickson Bypass from US-70 to State Route (SR) 46 and/or Interstate 40, in Dickson County, Tennessee. The proposed project was approximately 9.7 miles in length.

The FHWA approved the Draft EIS (DEIS) on August 8, 2011. The project as described in the DEIS proposed improvements to the SR 46 corridor from the Interstate 40 interchange to US 70. The purpose of the project was to

improve mobility through the City of Dickson. During the DEIS process TDOT conducted public involvement and agency coordination, developed a purpose and need for the project, and developed preliminary alternatives. The preliminary alternatives included a No-Build alternative, a Transportation System Management (TSM) alternative, and build alternatives that would involve constructing a roadway on new location to the west of the City of Dickson and SR 46.

Based on the findings of the DEIS and public and agency input, FHWA and TDOT determined that the TSM alternative, which includes various improvements primarily along existing SR 46, would meet the purpose and need of the project and could be accomplished without significant adverse impacts to the environment. Proposed improvements may include the addition of turn lanes at intersections, synchronization of traffic signals, and installation of new traffic signals, if warranted. As such, FHWA and TDOT are rescinding the Notice of Intent to prepare an EIS and will evaluate the proposed TSM improvements as a Categorical Exclusion.

Comments and questions concerning the proposed action should be directed to FHWA at the address provided above.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulating implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this proposed program.)

SUPPLEMENTARY INFORMATION:

Background

Due to several recent fatal motorcoach crashes, the Congress, the Department of Transportation (DOT), specifically the Federal Motor Carrier Safety Administration (FMCSA), and other Federal oversight agencies, including NTSB, have increased their scrutiny over the motorcoach industry and the enforcement and compliance of the Federal Motor Carrier Safety Regulations (FMCSRs). On February 26, 1999, NTSB issued safety recommendation H-99-8 to DOT, requiring motorcoach operators to provide passengers with pre-trip safety awareness information. This recommendation resulted from NTSB's investigation of two motorcoach crashes from the late 1990s which revealed that passengers felt a general sense of panic not knowing what to do on a motorcoach in the case of an emergency. The intent of the recommendation is to empower passengers to take their personal safety into their own hands in the event of an imminent hazardous or emergency situation. The FMCSA

decided to implement the recommendation through voluntary adoption and compliance of pre-trip safety briefings in the motorcoach industry.

The goals and objectives of this survey are to assess the current levels of voluntary compliance by motorcoach operators and to obtain passenger opinions of the implementation of the pre-trip safety awareness and emergency preparedness information. The Form MCSA-5868 will be used to survey motorcoach passengers. This information, along with its conclusions, will be used to inform future initiatives, policies, and rules as appropriate; will be presented to NTSB and Congress; and will contribute to the general literature regarding practices for improving motorcoach safety in the United States.

Estimated Total Burden: 333 hours [2,000 respondents × 10 minutes/60 minutes = 333 hours].
