FRN 0016114100 Test 011 Corporation Domestic Business

To start a new Form 477 submission, first use the drop-down lists to specify "Data as of" and "State". Next, use the "Operations" option buttons that will appear to specify "ILEC" (Incumbent Local Exchange Carrier) or "Non-ILEC", and then click "Create New." Filers must report data for different states in separate submissions. Filers must report data for ILEC and non-ILEC operations in separate submissions.

OMB NO: xxxx-xxxx

Form 477 Submission for FRN: 16114100, Company: Test 011 Corporation Domestic Business, State: KY, Operations: ILEC

All filers must complete Items 1 through 11 below

Data Description	Value
Data as of	Dec 31, 2008
1. FRN	16114100
2. Company	
3. Type of Operations	ILEC
4. Use this drop-down list to select a single name, such as the holding company, to identify all commonly-owned or commonly-controlled filers. Commonly-controlled filers with no holding company should decide on a single name to use for this question. If not affiliated with any other filer, select "same as company name". Select "not shown" if no appropriate name appears in the list.	
If you selected "not shown" above, provide the appropriate name.	
5. State	KY
6. Contact person (person who prepared the submitted data)	
7. Contact person telephone number and email address	Phone. Email.
8. Status of submission	Original - In Progress

9. Indicate whether you request non-disclosure of some or all of the information in this submission because you believe that this information is privileged and confidential and public disclosure of such information would likely cause substantial harm to the competitive position of the filer.	No Yes
10. Official (corporate officer, managing partner, or sole proprietor) whose signature certifies that he/she has examined the information contained in this Form 477 and that, to the best of his/her knowledge, information and belief, all statements of fact contained in this Form 477 are true and correct. For purposes of this Form 477, the entry of the official's name on this line shall constitute that official's electronic signature to this certification. Persons making willful false statements in a Form 477 can be punished by fine or imprisonment under the Communications Act, 47 U.S.C. 220(e).	
11. Certifying official telephone number and email address	Phone. Email.

Form 477 Submission for FRN: 16114100, Company: Test 011 Corporation Domestic Business, State: AL, Operations: ILEC , Data As of: Dec 31, 2008

Part I.A: Broadband - Asymmetric xDSL

In Part I.A, report connections (wired "lines") to end users that you (including affiliates) equipped to enable the end user to receive information from and/or send information to the Internet at information transfer rates exceeding 200 kbps in at least one direction. Report only in-service connections. The end user's Internet access service may be provided by you (including affiliates) or by an unaffiliated entity. For purposes of Part I.A, Internet Service Providers (ISPs) are not end users. Categorize the connection based on the technology employed by the part of the connection that terminates at the end user location. (Do not report anywhere in Form 477 any high-capacity connections between two locations of the same end user customer, ISP or communications carrier.)

(1)	(2)	(3)	(4)	(5)
Total connections to end users that you (including affiliates) equipped as broadband over your own local loop facilities or				
the equivalent, or over UNE loops or other facilities you obtained from an unaffiliated entity. Form 477 Submission for FRN: 16114100, Company: Test 011 Corporation Domestic Business, State: AL, Operations: ILEC , Data As of: Dec 31, 2008

Part I.A: Broadband - Satellite

In Part I.A, report connections (wireless "channels") to end users that you (including affiliates) equipped to enable the end user to receive information from and/or send information to the Internet at information transfer rates exceeding 200 kbps in at least one direction. Report only in-service connections. The end user's Internet access service may be provided by you (including affiliates) or by an unaffiliated entity. For purposes of Part I.A, Internet Service Providers (ISPs) are not end users. Categorize the connection based on the technology employed by the part of the connection that terminates at the end user location. (Do not report anywhere in Form 477 any high-capacity connections between two locations of the same end user customer, ISP or communications carrier.)

Note specific to Satellite: For purposes of question (2), transponder capacity that you own or that you lease and use as part of your own system is "your own local loop facilities or the equivalent."

(1)	(2)	(3)	(4)	(5)
Total connections to end users that you (including affiliates) equipped as broadband over your own local loop facilities or the equivalent, or over UNE				Percentage of (1) that
loops or other facilities you obtained from an unaffiliated entity. Do not convert lines into a voice-grade-equivalent measure.	Percentage of (1) that you (including affiliates) equipped over your own local loop facilities or the equivalent	Percentage of (1) that are billed (or incorporated in a service billed) to end users by you, or your affiliates or agents	Percentage of (1) that connect to residential end users	connect to residential end users and have information transfer rates exceeding 200 kbps in both directions

Break down the total connections reported in (1) to show the number in each of the following speed tiers.

Connections reported in **EACH** data cell below must equal the sum of Satellite connections reported in Part VI by Census Tract, for that download/upload combination, and the sum of **ALL** data cells below must equal the total connections reported in (1).

Download information transfer rate to the end user (8 categories):

Form 477 Submission for FRN: 16114100, Company: Test 011 Corporation Domestic Business, State: AL, Operations: ILEC , Data As of: Dec 31, 2008

Part I.A: Broadband - Terrestrial Fixed Wireless

In Part I.A, report connections (wireless "channels") to end users that you (including affiliates) equipped to enable the end user to receive information from and/or send information to the Internet at information transfer rates exceeding 200 kbps in at least one direction. Report only in-service connections. The end user's Internet access service may be provided by you (including affiliates) or by an unaffiliated entity. For purposes of Part I.A, Internet Service Providers (ISPs) are not end users. Categorize the connection based on the technology employed by the part of the connection that terminates at the end user location. (Do not report anywhere in Form 477 any high-capacity connections between two locations of the same end user customer, ISP or communications carrier.)

Notes specific to Terrestrial Fixed Wireless: (1) Those entities that use unlicensed devices to provide broadband Internet access connections to dispersed, fixed end user premises locations must report those subscribers in this category. By contrast, entities that use unlicensed devices to provide a commercial broadband Internet access service that can be received at any location within a service footprint must report those subscribers in the Terrestrial Mobile Wireless category. (2) For purposes of question (2), connections provided by unlicensed devices are "equipped over your own local loop facilities or the equivalent." (3) Do not report "Wi-Fi" and other wireless Ethernet, or wireless local area network, applications that only enable local distribution and sharing of a premises broadband facility.

(1)	(2)	(3)	(4)	(5)

AL, Operations. Theo, Data AS OF. Dec 31, 2000

Part I.A: Broadband - Terrestrial Mobile Wireless

In Part I.A, report the number of subscribers whose device and subscription permit them to access the lawful Internet content of their choice at information transfer rates exceeding 200 kbps in at least one direction. For purposes of Part I.A, providers must exclude subscribers whose choice of content is restricted to only customized-for-mobile content, and exclude subscribers whose subscription does not include, either in a bundle or as a feature added to a voice subscription, a data plan providing the ability to transfer, on a monthly basis, either a specified or an unlimited amount of data to and from Internet sites of the subscriber's choice.

Notes specific to Terrestrial Mobile Wireless: (1) Entities that use unlicensed devices to provide commercial broadband Internet access service that can be received at any location within a service footprint must report their subscribers in this category. By contrast, entities that use unlicensed devices to provide broadband Internet access connections to dispersed, fixed end user premises locations must report those subscribers in the Terrestrial Fixed Wireless category. (2) Do not report "Wi-Fi" and other wireless Ethernet, or wireless local area network, applications that only enable local distribution and sharing of a premises broadband facility.

(1)	(2)	(3)	(4)	(5)
Subscribers whose billing address is in this state and whose device and subscription permit the subscriber to access the lawful Internet content of the subscriber's choice at information transfer rates exceeding 200 kbps in at least one direction	Percentage of (1) that you (including affiliates) equipped over your own local loop facilities or the equivalent	Percentage of (1) that are retail subscriptions billed (or incorporated in a service billed) to end users by you, or your affiliates or agents	Percentage of (1) that are not billed to a corporate, non-corporate business, government or institutional customer account	Percentage of (1) that are not billed to a corporate, non-corporate business, government or institutional customer account and that have information transfer rates exceeding 200 kbps in both directions

Break down the total subscribers reported in (1) to show the number in each of the following speed tiers and, for each speed tier, report the percentage of subscribers that are "residential" in the specific sense that their subscriptions **are not** billed to a corporate, noncorporate business, government or institutional customer account.

		Dov	vnload informa	tion transfer ra	ate to the end u	user (8 categor	ies):

FCC Form 477 - Local Telephone Competition and Broadband Reporting Version

Form 477 Home | Current Form 477

OMB NO: xxxx-xxxx

Form 477 Submission for FRN: 16114100, Company: Test 011 Corporation Domestic Business, State: AL, Operations: ILEC, Data As of: Dec 31, 2008

Part I.B: Broadband - xDSL (asymmetric or symmetric)

Complete Part I.B for xDSL (asymmetric or symmetric) ONLY IF you are an ILEC (or an affiliate of an ILEC) that was required to complete Part I.A for Asymmetric xDSL and/or Part I.A for Symmetric xDSL.

For the purposes of completing Part I.B for xDSL (asymmetric or symmetric):

(1) "Residential end user premises" include residential living units, individual living units in such institutional settings as college dormitories and nursing homes, and other end user locations to which you (including affiliates and agents) market services that are primarily designed for residential use.

(2) The "service area" of an ILEC consists of those residential end user premises to which the ILEC can deliver telephone service over local loop facilities (or the fixed-wireless last mile equivalent) that it owns.

I.B. Report your best estimate of the percentage of residential end user premises in your service area, in this state, to which your DSL connections (with information transfer rates exceeding 200 kbps in at least one direction) could be provided using installed distribution facilities. Providers of xDSL connections should base responses on the service area of the affiliated ILECs.

(a) Estimated % of residential end user premises

THIS IS THE END OF PART I.B for xDSL (asymmetric and symmetric).

Part I.B: Broadband - Cable Modem

Complete Part I.B for Cable Modem ONLY IF you are a cable system (or an affiliate of a cable system) that is required to complete Part I.A for Cable Modem.

For the purposes of completing Part I.B for Cable Modem:

(1) "Residential end user premises" include residential living units, individual living units in such institutional settings as college dormitories and nursing homes, and other end user locations to which you (including affiliates and agents) market services that are primarily designed for residential use.

(2) The "service area" of a cable system consists of those residential end user premises to which the system can deliver cable television service over cable plant that it owns.

I.B. Report your best estimate of the percentage of residential end user premises in your service area, in this state, to which your Cable Modem connections (with information transfer rates exceeding 200 kbps in at least one direction) could be provided using installed distribution facilities. Provdiers of Cable Modem connections should base responses on the service area of the affilaited cable systems.

THIS IS THE END OF Part I.B for Cable Modem.

Part I.B: Broadband - Terrestrial Mobile Wireless

Complete Part I.B for Terrestrial Mobile Wireless ONLY IF you (including affiliates) are required to complete Part I.A for Terrestrial Mobile Wireless.

Report the number of business and residential subscribers whose mobile devices are capable of sending or receiving data at information transfer rates exceeding 200 kbps in at least one direction.

(a) Subscribers with devices capable of sending or receiving data at information transfer rates exceeding 200 kbps in at least one direction

I.B. Number of subscribers.

THIS IS THE END OF Part I.B for Terrestrial Mobile Wireless.

Form 477 Submission for FRN: 16114100, Company: Test 011 Corporation Domestic Business, State: AL, Operations: ILEC, Data As of: Dec 31, 2008

Part III: Mobile Local Telephone

In Part III, report cellular, PCS, and other mobile voice telephony subscribers in the state that you served over your own facilities. Include directly billed subscribers, pre-paid subscribers, and subscribers served via resellers. Count a subscriber as a mobile handset, car-phone, or other revenue-generating active voice unit that has a unique phone number and that can place and receive calls from the public switched telephone network. Subscriber counts by state should be based on the area codes of the phone numbers provided to subscribers.

> (1) Mobile voice telephony subscribers in service and served over your own facilities

(a) Total number

Percentage of (a) that are directly billed or prepaid subscribers

Part V: Zip Code Information -- Local Voice Telephone Service and Interconnected VoIP

If you reported local exchange telephone lines in service to your end user customers, in Part II.A (1), or VoIP subscriptions that end users purchased from you, in Part II.B (1) or (2), you must list the 5-digit ZIP Codes in the state in which you had end user customers. Do not include any ZIP Codes in which you offered your local exchange telephone or VoIP service but had no end user customers, and do not include any out-of-state ZIP Codes.

Type all five digit ZIP codes in the following text box, separated by either commas, spaces, or carriage returns:

FCC Form 477 - Local Telephone Competition and Broadband Reporting

Form 477 Home | Current Form 477

OMB NO: xxxx-xxxx

Form 477 Submission for FRN: 16114100, Company: Test 011 Corporation Domestic Business, State: ID, Operations: Non-ILEC, Data as of: Dec 31, 2008

You can submit census tract data in one or more upload files. To process multiple files, run the upload function for each file. The file(s) must be a comma delimited file with one row per census tract / upload rate / download rate / technology combination. Individual upload files must contain not more than 100,000 rows.

As the upload function runs, you can monitor the progress in your browser. Leave your browser open and do not open other pages in the browser tab or session as the upload proceeds. The process may take some time for larger data sets.

Census Tract Data File Upload

File to upload:

Replace all Census Tract information for this submission with the data in File this file.

upload **Merge** this Census Tract information with the existing data for this type: submission.

Append this Census Tract to the existing data for this submission.

Error Messages: On* Off

* The Error Messages option is much slower to process and is not recommended for large data sets.

All fields are required except "Technology Code Other". The format for the upload file is as follows:

Position	Value	Data Type	Description	
1	County FIPS	Integer	County FIPS Code (see reference table below). The County is a part of the Census Tract definition.	
2	Census Tract	Decimal number. Up to four digits before the decimal, up to two digits after.	Census Tract value. Census tracts are represented as numbers with a decimal, such as "3042.00".	

3	Upload Rate	Integer	Upload Rate as defined in the "Rates" table detailed below.
4	Download Rate	Integer	Download Rate as defined in the "Rates" table detailed below.
5	Technology Code	Integer	Technology Code as defined in the table below. Note that the values and percentages for "Terrestrial Mobile Wireless" Technology will behave differently than all other technologies. For the purpose of this data upload, when compiling your file for submission, assign "Percentage Residential" of 100% and value of "1" for any census tracts containing data for "Terrestrial Mobile Wireless".
6	Technology Code Other	Integer or empty	This is for Technology Types which do not exist in the assigned list of Technologies. Note that "Ethernet" is not a valid "Other" technology code. If you use Technology Code Other, then the value for "Technology Code" <u>must</u> be '0' (numeric zero). Leave this field blank for the standard technology codes.
7	Number of Connections	Integer	Number of connections in this census tract for this combination of technology code, upload rate, download rate.
8	Percentage Residential	Number between 0 and 100. Three decimal places	The percentage of connections for this combination of technology code, upload rate, download rate which are "Residential". The format for percentage data input is "XXX.XXX". For example, if 1/2 of the connections in a census tract are residential, enter "50" or "50.000" for this value. "0.50" will be translated as one half of one percent.

Do not include a title row at the top of the file. Each data row is defined by the end of the line, so be sure to include a "return" or "end of line" after the last record, or the last record will not be imported. The file should look approximately like this:

5,51302,1,2,1,,46,9.000
5,513.02,2,2,1,,97,97.000
5,513.02,3,2,1,,79,9.000
5,513.02,4,2,1,,4,64.000
5,513.02,5,2,1,,94,46.000
5,513.02,6,2,1,,64,46.000
5,513.02,8,2,1,,18,48.000
5,513.02,1,3,1,,6,44.000
5,513.02,2,3,1,,979,79.000
5,513.02,3,3,1,,49,49.000
5,513.02,5,3,1,,4,4.000
5,513.02,6,3,1,,46,46.000
5,513.02,7,3,1,,8,19.000

For symmetric connections "Symmetric xDSL" and "Other Wireline", the upload and download rates should always be the same.

For "Terrestrial Mobile Wireless" the value and percentage fields will always be 1 and 100%, as in this example:

-	
	119,400904,1,2,8,,1,100
	119,4009.04,1,3,8,,1,100
	119,4009.04,1,5,8,,1,100
	119,4009.04,1,7,8,,1,100
	119,4009.04,1,2,8,,1,100
	119,4009.04,1,3,8,,1,100
	119,4009.04,1,5,8,,1,100
	119,4009.04,1,7,8,,1,100

The following reference tables are used for the codes in this upload file. These reference tables may be exported into any database tool which you may be using in order to compile the upload file.
