***All of the questions listed above should be asked at both at the beginning of the program and at the end in order to determine whether changes have occurred in youth behavior since receiving training on financial capability skills. We recognize that not all youth participants will fill out an exit or completion survey, which is why it is very important to capture the total # of youth reporting at each time period as well as the specific youth metric. However, these questions do not need to be asked individually, which maybe be unnecessarily burdensome, but rather can be combined into three questions as follows:**

How often do you? (Answer Options: Never, Sometimes, Often, All the Time)¹

- a. Track how you spend your money
- b. Use a personal budget to plan how you spend your money
- c. Save a portion of your income

Do you currently have any of the following? (Answer Options: Yes, No, Don't Know)

- a. Checking Account

- c. Savings Account

Have you ever? (Answer Options: Yes, No, Don't Know, Not Applicable)
