N	Values
O	Notes
P	FDM Comments
Q	ADS Comment
R	Code Table Reference

tab, 1.Cover Letter, describes the information in the following tab of this document.

Description

Report on the elements available for selection. Explanation of the report column heads appears below, titled Column Definitions.

Description
Name of Data Source
Ordinal Position of Table in Data Dictionary received from Source System-used internally
Name of the Table from which the data element is extracted from Source System
Ordinal Position of the data element in a Table in the Source System Data Dictionary-used internally
Name of the data element (please use the literal format as in the column)
Please note YES, NO or DI (De-Identification)for the element PII or HIPAA sensitivity. If the element is PII or HIPAA sensitive will be de-identified, enter DI. A blank enter will be considered the same as a NO.
User has accepted this as a valid element for their use-drop down list-Yes or No
Date the data element requested in Spiral-2. This will help in revising your existing extract routines
This is the data type.
This is the Nullability condition
Indicator if data element is a primary key (PK) or foreign key (FK) in this table
Data Element Name
Dictionary meaning of the data element and enumerated values if applicable
Information on values the element may have
Notes concerning the element
Please add any comments that will help us understand the output extract.
Please add any comments on authoritativeness
Reference to code table.

USAPHC likely not interested in this information but will review. Cox: These appear to be for people who are visitors to an installation and whose vehicle doesn't have a DoD decal and sticker, e.g., a rental car. We don't need these elements.
