Proposed Modification to Collections of Information – Change of Audiences

OMB Clearance No. 0920-1009, CDC ID# 0920-14HM, approves 5,000 Focus Group respondents and 55,000 Online Survey respondents.

CDC would like to include additional respondent categories and burden hours to the approved Generic ICR as the needs were originally underestimated. The addition of the new respondent group categories and burden hours will allow CDC to improve existing or future service deliveries, products, or communication materials.

Burden Hours

This modification increases the amount of requested burden hours from **18,750** to **34,750** annually.

OMB-Approved Burden

Estimated Annual Reporting Burden				
Type of Collection	No. of Respondents	Annual Frequency per Response	Hours per Response	Total Hours
Focus Groups	5,000	1	1	5,000
Online Surveys	55,000	1	15/60	13,750

Proposed Burden

Estimated Annual Reporting Burden				
Type of Collection	No. of Respondents	Annual Frequency per Response	Hours per Response	Total Hours
Focus Groups	5,000	1	1	5,000
Online Surveys	55,000	1	15/60	13,750
