Supporting Statement
OMB #1140-0005**

**Application and Permit for Importation of Firearms, Ammunition, and
Implements of War, ATF F 6 (5330.3A) Part I**

A. Justification

1. Importation of firearms, ammunition, and defense articles into the United States is subject to the provision of 18 U.S.C. 925(d) and (e), 22 U.S.C. 2778, and 26 U.S.C. 5844. Except as provided, or specifically authorized by the Attorney General, the importation of articles coming within the purview of these statutes is restricted or prohibited. In general, the importation of firearms is permitted only if the firearms meet certain criteria and the Attorney General authorizes the importation.

The form is being amended to extend the period of validity from 12 months to 2 years. The top right hand section of the form beside – Permit No. changed “12 months” to “2 years”. On the instruction page under Approval, Item #16 first sentence, changed “12 months” to “2 years”. These changes are being made to implement the Final Rule (79 CFR 7392) published on February 7, 2014 and effective April 8, 2014.

2. The data provided on ATF Form 6 (5330.3A) Part I, Application and Permit for Importation of Firearms, Ammunition, and Implements of War, is to allow ATF to determine if the article(s) described on the application qualifies for importation by the importer, and to serve as the authorization for the importer. The approved form also serves as the authorization to U.S. Customs and Border Protection (CBP) to allow the listed articles entry into the United States. Many importers use the form for internal accounting purposes.

Additionally, information may be disclosed to other Federal, State, foreign, and local law enforcement and regulatory agency personnel to verify information on the application and to aid in the performance of their duties with respect to the enforcement and regulation of firearms and/or ammunition where such disclosure is not prohibited by law. The licensee is required to retain this form permanently.

3. The form is available on the ATF website www.atf.gov and it is fillable. The form may be printed and mailed to ATF. The form may also be submitted to ATF electronically via the eForms system. The link may be found at www.atfonline.gov. It is estimated that 3,000 of the respondents complete this form electronically. The remaining respondents mail the form to ATF.

4. ATF uses a uniform subject classification system to identify duplication and to ensure that any similar information already available cannot be used or modified for use for the purpose of this information collection.
5. ATF does not use any method to minimize the burden to small business since all entities, regardless of size, are required by statute to complete this form.
6. The consequence of not conducting this information collection would result in persons illegally importing firearms, ammunition, and implements of war into the United States. This form serves as authorization to import such articles.
7. There are no special circumstances as this information collection is conducted in a manner consistent with 5 CFR 1320.6.
8. The ATF industry analyst who is very aware of the needs of the import community was involved during the creation of this form. Comments were solicited for this form change as part of the Notice of Proposed Rule Making. No comments were received regarding the form.
9. No decision of payment or gift is associated with this collection.
10. Federal firearms licensees keep this information in locked files in a secured location. Confidentiality is not assured.
11. No questions of a sensitive nature are asked.
12. The number of respondents associated with this collection is 6,500. Each respondent completes the form one time. The total number of responses is 6,500. The time necessary to complete the form is 30 minutes. The total annual burden is 3,250.
13. The respondents that do not file electronically must mail the form to ATF. Therefore, the cost to the respondents who choose not to file electronically is postage. Of the 6,500 respondents that complete the form, 3,000 file electronically. The postage cost is based on 3,500 respondents x \$.49 postage rate = \$1,715.00.
14. Estimates of annual cost to the Federal government is the printing of forms that are stocked at the ATF Distribution Center for respondents who choose to mail the form:

Printing	\$6,000.00
----------	------------
15. The adjustments for the submission of this collection are a 6,500 decrease in the number of respondents, a 3,250 decrease in the burden hours, and a \$2,884 decrease in the cost. The reductions are due to the period of validity being extended from 1 year to 2 years.
16. The results of this collection will not be published.

17. ATF does not request approval to omit display of the expiration date of OMB approval for this collection.

18. There are no exceptions to the certification statement.

B. Collections of Information Employing Statistical Methods

This information request does not employ statistical methods.
