WHAT GOOD IS IT?</b></p> <p><b>Data from the Consumer Expenditure Survey are used in a number of different ways by a variety of users. An important use of the survey by the Bureau of Labor Statistics is for the periodic revisions of the Consumer Price Index (CPI). Survey results are used to select new market basket of goods and services for the CPI, to determine the relative importance of CPI components and to derive new cost weights for the market basket. Government and private agencies use the data to study the welfare of particular segments of the population. Economic policymakers use the data to study the impact of policy changes in the welfare of different socioeconomic groups. Researchers use the data in a variety of studies, including those that focus on the spending behavior of different family types and historical spending trends.</b></p>	Return to interview
