

Federal Aviation Administration

Regulatory Consistency Communication Board (RCCB (Regulatory Consistency Communication Board)) Report a potential regulatory inconsistency

The purpose of the Regulatory Consistency Communication Board (RCCB) is to provide an avenue for internal and external stakeholders to raise issues of policy or regulatory inconsistency. Issues brought to the RCCB should involve policy or regulations overseen by the Aircraft Certification Service (AIR (Aircraft Certification Service)) or the Flight Standards Service (AFS (Flight Standards Service)).

If you have identified a potential inconsistency that meets this definition, please submit a form to the RCCB.

For more information on the RCCB please refer to Order 8000.XX, Regulatory Consistency Communication Board (RCCB).

Please note that the RCCB does not address issues dealing with:

- low flying aircraft (including UAS);
- general questions about UAS operations;
- questions or concerns about aviation accidents or incidents; or
- concerns about customer service or delays on commercial airlines.

For assistance in these areas please contact the FAA (www.faa.gov/contact/).

* indicates a required field.

I have already contacted FAA about this issue.

* Contact information:

Please list the contact information of person(s) or organization(s) within the FAA that you contacted on this issue.

I wish to remain anonymous.

Personal informationI am a: Name: Company
name/Association: Phone: * Email address: When did you become aware of the issue? *Date Picker keyboard shortcuts** Describe the issue:

Please provide details of the inconsistency. Include a clear statement of the issue; when and how you became aware of the issue and whether it is ongoing; details on how the issue effects your operations; and your role within the aviation community (e.g., 145 certificate holder, DER, etc). Please include reference to any CFR parts and sections, along with guidance material that may be adding to the inconsistency.

Please check any and all documents involved in the inconsistency/issue. Give a detailed discussion of the role these documents play in the inconsistency.

Guidance documents Order 8900.1* Order 8900.1
discussion:

List Volume, Chapter, Section, Paragraph, e.g., Volume 3, Chapter 13, Section 1, Paragraph 3-399.

 Other FAA Orders* Other FAA Orders
discussion:

List Order, e.g., Order 1320.1E.

Notices

* Notices discussion:

List Notice, e.g., N 8900.327.

Advisory Circulars (ACs)

* Advisory Circulars (ACs) discussion:

List AC, e.g., AC 91-74B.

Information for Operators/Safety Alerts for Operators (InFO/SAFO)

* Information for Operators/Safety Alerts for Operators (InFO/SAFO) discussion:

List Number and Title, e.g., InFO 15008, Iridium Satellite Voice (SATVOICE) with Safety Services/SAFO 15004, Scenario-Based Go-Around Training.

MEL Policy Letters

* MEL Policy Letters discussion:

List Policy Number, e.g. PL-024.

Regulatory documents

Federal Register Documents

* Federal Register Documents discussion:

List Regulation Identifier Number [RIN], Docket Number, or Title, e.g., RIN 2/20-AA64, Docket No. FAA-2004-19242, Title: McCauley Propeller System Five-Blade Propeller Assemblies.

Legislation

* Legislation discussion:

List Public Law Number, e.g., PL 112-95 or Statute Number, e.g., Title 49 U.S.C. § 44702.

FAA Legal Interpretations

* FAA Legal Interpretations discussion:

List Title and Year Legal Interpretation was issued, e.g., 'Legal Interpretation of "Current" as it Applies to Maintenance Manuals and Other Documents Referenced in 14 C.F.R. §§ 43.13(a) and 145.109(d)' dated August 13, 2010.

FAA Exemptions

* FAA Exemptions discussion:

List Exemption or Docket Number, e.g., Exemption No. 8264E or Docket No. FAA-2004-17184.

Regulations

* Regulations discussion:

List CFR Part and Section, e.g., 121.293.

Other

OpSpecs

* OpSpecs discussion:

List Paragraph Number, e.g., A025.

FAA Website

* FAA Website discussion:

List URL, e.g., https://www.faa.gov/licenses_certificates/

aircraft_certification/aircraft_registry/reregistration_faq/

FAA Technical Standards Orders (TSO)

* FAA Technical Standards Orders (TSO) discussion:

List Numbers, e.g., TSO-C132A.

Other

* Other discussion:

Add another document if not listed above.
