INTRODUCTION

What is an Initial Privacy Assessment?

An Initial Privacy Assessment (IPA) is designed to assess whether a Privacy Impact Assessment (PIA), a Privacy Act system of records notice (SORN), and/or other related privacy documents are required. The responses to the IPA will provide a foundation for determining if either a PIA or SORN or both will be required, and will also help to identify any policy concerns.

The IPA incorporates the matters previously addressed in the Department's Personally Identifiable Information (PII) Survey, and thus replaces the survey.

When should an IPA be completed?

An IPA should be completed for all information collection activities, whether the system is electronic or contains only records in paper form, and should be completed before commencement of any testing or pilot project of an information system or prior to implementing new information collections requests. Additionally, an IPA should be completed any time there is a change to the information system or collection to determine whether there are any privacy issues as a result of such a change.

Who should complete the IPA?

The IPA should be written and reviewed by a combination of the component's (e.g., Privacy Act Officer, System Owner, Project Leaders, Paperwork Reduction Act Compliance Officers), and the program-specific office responsible for the system, project or information collections.

How is the IPA related to the Capital Planning, Certification and Accreditation, and the Paperwork Reduction Act process?

Upon completion and approval of the IPA by the Privacy Officer the official document may be uploaded into the C&A tool, and provided as part of the IT Capital Planning, and Paperwork Reduction Act package as validation of the completed evaluation. The completed IPA demonstrates that the program components have consciously considered privacy and related requirements as part of the overall information activities. For an IT system that does not require a C&A, such as a minor application that runs on a system that does require a C&A, an IPA still should be completed to determine if other related privacy documentation are required for that system or project.

Where should the completed IPA be sent?

A copy of the completed IPA should be sent to the Office of Privacy Project Leads for review. The Privacy Officer will review the IPA and determine what additional privacy documentation is required, and then will advise the Program component accordingly.

Which of the following describes the type of records in the system:

- Paper-Only
- Combination of Paper and Electronic
- System
- Other:** Please describe below the type of project or system, including paper based Privacy Act System of Records, Rules, or Technologies'. Also, indicate whether this is a revision/update for an existing system or project.

Note: For this form purpose, there is no distinction made between technologies/systems managed by contractors. All technologies/systems should be initially reviewed for potential privacy impact.

Section I: The Entire IPA (Sections I and II) Should be Completed for New Systems or Projects. If this is an Existing System or Project Skip to Section II. Unless requested by the Office of Privacy, this section should not be completed for an existing System or Project.

Question 1: Provide a general description of the system of Project. The following questions are intended to define the scope of the information in the system, information collection, or project, specifically the nature of the information and the sources from which it is obtained.

This submission describes the proposed extension of a currently approved information collection used to monitor Public Housing Agency's (PHAs) Admission and Continuing Occupancy Policies (ACOPs). Statutory and regulatory authority grants PHAs flexibility to structure admission and occupancy policies. This information collection pertains to the policies which the Department of Housing and Urban Development (HUD) utilizes to ensure that PHAs are compliant with statute and regulations, the consolidated ACC and all HUD-approved applications for program funding. The information particular to this collection is as follows:

- The organization of the waiting list and how families are selected and offered available units, including any PHA admission preferences, procedures for removing applicant names from the waiting list, and procedures for closing and reopening the PHA waiting list
- Transfer policies
- Standards for determining eligibility, suitability for tenancy, and the size and type of the unit needed
- Procedures for verifying the information the family has provided
- The method for achieving deconcentration of poverty and income-mixing of public housing developments
- Waiting list and local admission preferences
- Self-sufficiency incentives
- Policies concerning payment by a family to the PHA of amounts the family owes the PHA
- Annual and interim redeterminations of family income and composition
- Policies regarding community service requirements;
- Policies and rules about safety and ownership of pets in public housing.
- Occupancy of over-income families
- Occupancy of police officers to provide security services

- a. From whom is the information collected (i.e., government employees, contractors, or consultants, state, local government entities, or general public)?

SECTION II - The Entire IPA should be completed for New Systems or Projects. If this is an Existing System or Project Complete Only Complete This Section.

QUESTION 1: When was the system, information collection, or project developed?

N/A

QUESTION 2: If an existing system, information collection, or project, has the system or project undergone any changes since April 17, 2003?

N/A

QUESTION 3: If an existing system, information collection, or project, has the system or project, explain the changes the system or project will be undergoing as part of this renewal/update process.

N/A

QUESTION 4: Do the changes to the system, information collection, or project involve a change in the type of records maintained, the individuals on whom records are maintained, or the use or dissemination of information from the system?

N/A

QUESTION 5: Please indicate if any of the following changes to the system or project have occurred: (Mark all boxes that apply.)

N/A

- A conversion from paper-based records to an electronic system.
- A change from information in a format that is anonymous or non-identifiable to a format that is identifiable to particular individuals.
- A new use of an IT system, including application of a new technology that changes how information in identifiable form is managed. (For example, a change that would create a more open environment and /or avenue for exposure of data that previously did not exist.)
- A change that results in information in identifiable form being merged, centralized, or matched with other databases.
- A new method of authenticating the use of an access to information in the identifiable form by members of the public.
- A systematic incorporation of databases of information in identifiable form purchased or obtained from commercial or public sources.
- A new interagency use of shared agency function that results in new uses or exchanges of information in identifiable form.
- A change that results in a new use of disclosure of information in

identifiable form.

- A change that results in new items of information in identifiable form being added into the system.

QUESTION 6: Does a PIA for the system or project already exist? If yes, please provide a copy of the notice as an appendix.

N/A
