

PI ECOLOGY & EVOLUTION OF INFECTIOUS DISEASES RETROSPECTIVE SURVEY

Please submit by _____

Why are we asking for you to fill out this survey?

The Ecology and Evolution of Infectious Diseases (EEID) program wants to learn what role EEID funding had on the publications related to disease ecology and training and development in this field.

We greatly appreciate your feedback, which will be used to assess our internal procedures for helping EEID awardees with publishing information related to their grants. This survey is voluntary and is expected to take 30-60 minutes to complete. We are supplying this as a Word document so you can cut and paste the information into the appropriate questions.

****IF YOU RECEIVED MORE THAN ONE EEID AWARD PLEASE PROVIDE SEPARATE ANSWERS FOR EACH AWARD.** Thank you for your time and effort!**

Name _____ Affiliation _____

If available, please provide your: ORCID ID# _____ ResearcherID # _____

1. Did the EEID award assist you in your research, especially regarding publications stemming from the award, and if so, how did it help you?

2. If applicable, please give full citations (please provide DOI# if possible) of all publications that were a direct or indirect outcome of the EEID grant you received. [Please include those published during the grant period and also those after the grant ended; the later is information that we otherwise might not be able to obtain. We are interested in all relevant products (i.e., journal articles, books, book chapters, dissertations and theses) that are a result of your EEID award – please indicate published, accepted, or in review.]

3. As the lead PI, is there anything that you would like to tell us about the influence the EEID award and/or the NSF EEID program staff had on the research and subsequent publications?
