INTRODUCTION
[Introduce yourself, and ask for the operator.]

The National Agricultural Statistics Service is collecting information on land management and conservation practices. The information collected will be used by the Natural Resources Conservation Service (NRCS) to assess the environmental benefits associated with the implementation and installation of conservation practices.

We need your help to make the information as accurate as possible. All conservation practices that are in place should be reported—whether they were installed as part of a Federal or State Cost–Share program, an industry or non-profit program, or by you (the operator) with no outside support. We encourage you to refer to your farm records during the interview.

The information you provide will be used for statistical purposes only. In accordance with the Confidential Information Protection provisions of Title V, Subtitle A, Public Law 107–347 and other applicable Federal laws, your responses will be kept confidential and will not be disclosed in identifiable form to anyone other than employees or agents. By law, every employee and agent has taken an oath and is subject to a jail term, a fine, or both if he or she willfully discloses ANY identifiable information about you or your operation. Response is **voluntary**.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB number is 0535-0245. The time required to complete this information collection is estimated to average 60 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Determine the Area of Interest

To focus the respondent on the area of interest, the location must be identified as follows.

1. **Selected field**

- For purposes of this survey, the actual field where the sample point is located must be identified. This location is referred to as the **selected field**.
- The survey collects information about conservation practices, cropping history and management practices being undertaken in the **selected field**.

2. **Conservation practices associated with the field.**

- Sometimes conservation practices are not actually located in the selected field but are adjacent to or **adjoining** the field (such as a wind break or filter strip). These practices should also be captured during the survey.
- For CEAP purposes, this area is referred to as the **conservation area**.

During this interview, the questions will be about the **SELECTED FIELD** and/or the associated **CONSERVATION AREA**.

SCREENING – NO SIGNAL AVAILABLE

ENUMERATOR NOTE: *[Show the aerial photography to respondent and locate the sample point. Identify the field associated with the point.]*

1. **Did you make any of the day-to-day farming/ranching decisions for the field containing this point in 2014?**

- Yes** – *[If Yes, continue.]*
- No** – *[If No, conclude the interview and ask for the respondent's assistance in locating the correct operator.]*

ENUMERATOR NOTE: *[With the respondent, draw off the entire area that can be identified as the selected field and associated conservation area.]*

2. **In 2014, was any part of this field:**

- planted to a crop? (**Include** hay. **Exclude** greenhouse and nursery crops)

FIELD OPERATIONS---SELECTED FIELD

1. Including custom operations, I need to list the operations performed by hand or machines on this field for the 2014, 2013, and 2012 crop years.

- Begin with the first field operation for the 2014 crop (after harvesting of 2013 crop.)
- List the operations in order by crop year, through harvest.
- Maintain the order of tandem hook-ups.
- Include field operations performed by hand.

a. Let's start with the 2014 crops.

2011 EDIT FIELD OPERATIONS	3002
----------------------------	------

TOTAL ACRES IN THIS OPERATING ARRANGEMENT

Now I'm going to ask you a few general questions about your entire operation. (Include the farmstead, all cropland, pastureland, wasteland, wetland, woodland and government program land. Include land in other states.)

1. During the 2014 crop year, how many total acres did this operation:

		ACRES
a. own?	+	1901
b. rent FROM others? (Exclude land used on an AUM basis.)	+	1902
c. rent TO others? (Include privately owned/rented land administered by a public agency through exchange-of-use.)	-	1903
2. Then the TOTAL acres in this operation including the farmstead, all cropland, pastureland, wasteland, wetland, woodland and government program land is: [Total of 1a + 1b - 1c]? ..	=	1904

a. Have I accounted for the farmstead, all cropland, pastureland, wasteland, wetland, woodland and government program land in this operation?

Yes - [Continue] No - [Make corrections, then continue.]

		ACRES
3. Of the total (Item 2) acres operated, how many acres are considered cropland, including land in hay and cropland in government programs?		1905
4. Of the total (Item 2) acres operated, how many acres are considered pastureland?		1906
