Industry classification of foreign affiliate (based on sales or gross operating revenues)

- Report in columns (1) and (2) respectively, the 4-digit International Surveys Industry (ISI) code(s) and the sales associated with each code.

- For an **inactive** foreign affiliate, enter an ISI code based on its last active period.
- **Holding companies** (ISI code 5512) must show total income. To be considered a holding company, income from equity investments must be more than 50 percent of total income. In addition, normally at least 50 percent of total assets must consist of investments in affiliates. ISI code 5512 (holding company) is an invalid classification if more than 50 percent of income generated, or expected to be generated, by an affiliate is from non-holding company activities.

- **Report the number of employees** on the payroll at the end of FY 2014 including part-time employees, but excluding temporary and contract employees not included on your payroll records. A count taken at some other date during the reporting period may be given provided it is a reasonable estimate of employees on the payroll at the end of FY 2014. If the number of employees at the end of FY 2014 (or when the count was taken) was unusually high or low due to temporary factors (e.g., a strike), enter the number of employees that reflects normal operations. If the number of employees fluctuates widely during the year due to seasonal business variations, report the average number of employees on the payroll during FY 2014. Base such an average on the number of employees on the payroll at the end of each pay period, month or quarter. If precise figures are not available, give your best estimate.
- **Report employee compensation** expenditures made by an employer in connection with the employment of workers, including cash payments, payments in-kind, and employer expenditures for employee benefit plans including those required by statute. Base compensation data on payroll records. Exclude commissions paid to independent personnel who are not employees. Include direct payments by employers for vacations, sick leave, severance (redundancy) pay, etc. Exclude payments made by, or on behalf of, benefit funds rather than by the employer. Include employer contributions to benefit funds. Include in-kind payments, valued at their costs, that are clearly and primarily of benefit to the employees as consumers. Do not include expenditures that benefit employers as well as employees, such as expenditures for plant facilities, employee training programs, and reimbursement of business expenses.
 - **Employee benefit plans** include employer expenditures for all employee benefit plans including those mandated by government statute, those resulting from collective bargaining contracts, and those that are voluntary. Include Social Security and other retirement plans, life and disability insurance, guaranteed sick pay programs, workers' compensation insurance, medical insurance, family allowances, unemployment insurance, severance pay funds, etc. Also, include deferred post-employment and post-retirement expenses per FASB ASC 715 (FAS 106). Part V — U.S. Exports To and U.S. Imports From Foreign Affiliate

See **Instruction Booklet, Part V.**

Affiliate ID

IMPORTANT NOTES

Report U.S. exports of goods to and U.S. imports of goods from the foreign affiliate in FY 2014. Report all goods that physically left or entered the U.S. customs area. Report data on a "shipped" basis, i.e., on the basis of when and to (or by) whom the goods were shipped. This is the same basis as official U.S. trade statistics to which these data will be compared. Do **not** record a U.S. import or export if the goods did not physically enter or leave (i.e., were not physically shipped to or from) the United States, even if they were charged to the foreign affiliate by, or charged by the foreign affiliate to, a U.S. person.

Foreign affiliates normally keep their accounting records on a "charged" basis, i.e., on the basis of when and to (or by) whom the goods were charged. The "charged" basis may be used if there is no material difference between it and the "shipped" basis. If there is a material difference, the "shipped" basis must be used or adjustments made to the data on a "charged" basis to approximate a "shipped" basis. The data should include goods only; they should **exclude** services.

Capital goods — Include capital goods but exclude the value of ships, planes, railroad rolling stock, and trucks that were temporarily outside the United States transporting people or goods.

Consigned goods — Include consigned goods in the trade figures when shipped or received, even though they are not normally recorded as sales or purchases, or entered into intercompany accounts when initially consigned.

In-transit goods — Exclude from exports and imports the value of goods that are in-transit. In-transit goods are goods that are not processed or consumed by residents in the intermediate country(ies) through which they transit; the in-transit goods enter that country(ies) only because that country(ies) is along the shipping lines between the exporting and importing countries. In-transit imports are goods en route from one foreign country to another via the United States (such as from Canada to Mexico via the United States), and in-transit exports are goods en route from one part of the United States to another part via a foreign country (such as from Alaska to Washington State via Canada).

Packaged general use computer software — Include exports and imports of packaged general use computer software. Value such exports and imports at the full transaction value, i.e., the market value of the media on which the software is recorded and the value of the information contained on the media. Do not include exports and imports of customized software designed to meet the needs of a specific user. This type of software is considered a service and should not be included as trade in goods. Also do not include negotiated leasing fees for software that is to be used on networks.

Natural gas, electricity, and water — Report **ONLY** the product value of natural gas, electricity, and water that you produce or sell at wholesale as exports and imports of goods. **DO NOT** report the service value (transmission and distribution).

93 On what basis were the trade data in the section prepared? — Mark (X) one.

- 4172 ¹ "Shipped" basis.
¹ "Charged" basis without adjustments, because there is no material difference between the "charged" and "shipped" bases.

For investments written off, enter zero in items 61-63. If an account receivable due to the U.S. Reporter from the affiliate is written off, report the amount of the receivable in item 59 as a capital contribution.

If the location of the issuer is unknown, then substitute the nationality of the issuer. If both the location and nationality of the issuer are unknown, and an intermediary (e.g. trustee, custodian, or nominee) is used to manage the investment (financial instrument or real estate) use the country of location of the intermediary.

Special Instructions for Dealers in Financial Instruments, Finance Companies, Insurance Companies, and Real Estate Companies

A. Certain gains (losses) for (1) dealers in financial instruments and finance and insurance companies, and (2) real estate companies.

1. Dealers in financial instruments (including securities, currencies, derivatives, and other financial instruments) and finance and insurance companies — Include in **45** :

- impairment losses as defined by FASB ASC 320 (FAS 115),
- realized gains and losses on trading or dealing,
- unrealized gains or losses, due to changes in the valuation of financial instruments, that flow through the income statement, and
- goodwill impairment as defined by FASB ASC 350 (FAS 142).

EXCLUDE from **45**, unrealized gains or losses due to changes in the valuation of financial instruments that are taken to other comprehensive income. Reflect such changes in **66** (all other components of accumulated other comprehensive income (loss)).

EXCLUDE from **45**, income from explicit fees and commissions. Include income from these fees and commissions as operating revenue in **28** and **42** and as sales of services in **78**.

2. Real estate companies — Include in **45** :

- impairment losses as defined by FASB ASC 360 (FAS 144), and
- goodwill impairment as defined by FASB ASC 350 (FAS 142).

EXCLUDE the income earned and expenses incurred from the sale of real estate you own. Such income should be reported as operating revenue in **28**, **42** and **76** and as sales of goods in **77**. Such expenses, including the net book value of the real estate sold, should be reported as cost of goods sold in **48**. Do not net the expenses against the revenues.

B. Special instructions for insurance companies

1. When there is a difference between the financial and operating data reported to the stockholders and the data reported in the annual statement to an insurance department, prepare the BE-11 on the same basis as the annual report to the stockholders.

Valuation should be according to normal commercial accounting procedures, not at rates promulgated by national insurance departments, e.g., include assets not acceptable for inclusion in

the annual statement to an insurance department, such as:

1. non-trusted or free account assets, and
2. nonadmitted assets, including furniture and equipment, agents' debit balances, and all receivables deemed to be collectible. Include mandatory securities valuation reserves that are appropriations of retained earnings in the owners' equity section of the balance sheet, not in the liability section.

2. Instructions for reporting specific items

- a. **Sales or gross operating revenues, excluding sales taxes (42)** — Include items such as earned premiums, annuity considerations, gross investment income, and items of a similar nature. Exclude income from equity investments in unconsolidated business enterprises that is to be reported in **43** and exclude certain gains or losses that are to be reported in **45**.

- b. **Certain gains (losses) (45)** — See **Special Instructions, A.1**.

- c. **Cost of goods sold or services rendered and selling, general, and administrative expenses (48)** — Include costs relating to sales or gross operating revenues, such as policy losses incurred, death benefits, matured endowments, other policy benefits, increases in liabilities for future policy benefits, and other underwriting expenses.

- d. **Sales of services (78, column 1)** — Include premium income and income from other services, if any.

Calculate premiums earned by companies engaged in insurance activities as direct premiums written (including renewals) net of cancellations, plus reinsurance premiums assumed, minus reinsurance premiums ceded, plus unearned premiums at the beginning of the year, minus unearned premiums at the end of the year.

- e. **Investment Income (79, column 1)** — Report that portion of sales or gross operating revenues that is investment income. However, report any gains or losses on investments, in accordance with **Special Instructions, A.1**. See **Additional Instructions for Part IV, Section D, 79**, above to determine the location of the transactor of investment income.
