

Dear _____ Community,

This is a friendly reminder; we have only one month left to get as many parents, students, teachers and administrators to take this year's Speak-Up Survey. The survey closes on December 30, 2014 so this is our last stretch to **BE PART OF THE CONVERSATION**. By participating in Speak-Up, you join the 2.6 million students, teachers, and parents from around the nation and the world who have spoken up about the needs in our learning environments. From this, DoDEA gains valuable information about key issues impacting your child's education that will be used to make informed decisions. We appreciate very much your willingness to share your views so that we may prepare our children in science, technology and to become a part of the 21st century workforce.

The online survey remains open to all teachers, students and parents; it is quick and easy to get involved. To take the survey visit ([URL HERE](#)) and click the button that corresponds with your position to begin.

Our sincerest thanks,
