Students Speak Up – Your ideas are important to us!

Open October 2nd – December 20th, 2013

Your opinions matter to us! We are participating in the online survey Speak Up, so that we can learn more about how you are using technology in class and for homework. We'd also like to know more about how you are using technology to learn and how you would like your teachers to use technology class.

The online survey is open to students, educators (including future educators) and parents; it's quick and easy to get involved. The survey will be open until December 20th, to take the survey visit: <http://www.speakup4schools.org/speakup2013>

Parents Speak Up – Your ideas are important to us!

Open October 2nd – December 20th, 2013

<http://www.speakup4schools.org/speakup2013/>

Be a part of the conversation! Starting on Oct. 2nd we will be participating in the Speak Up national research project. Speak Up is the first survey designed to help parents share their ideas directly with schools and national policymakers. As key stakeholders, Speak Up provides parents with a mechanism for expressing their views to the administrators at their child(ren)'s school and district about key issues impacting their child(ren)'s education. Since 2003, Speak Up has collected and shared the views of over 2.6 million students, teachers, and parents from all 50 states, as well as internationally. By participating in Speak Up, parents are expressing their views to a wider audience of local, state, and national policy makers as well as the business community—and contributing to the national dialog about science, technology, and preparing students for the 21st century workforce.

The online survey is open to students, educators and parents; it's quick and easy to get involved. To take the survey visit: <http://www.speakup4schools.org/speakup2013/> and click the blue parents enter here button!
