Thank you for agreeing to participate in this survey. This survey is about your attitudes and behaviors regarding sex and sexually transmitted diseases (STDs). Many of the questions are very personal. Your answers will be kept private. Please answer as honestly and openly as you can. Do not hesitate to ask if you need help figuring out dates or if you don't understand a question. There are no right or wrong answers. Let's get started.

Sexual Risk Behaviors with Male Partners

The next series of questions will ask about sex you have had with MALE partners. These questions are only asking about anal sex you have had with your male partners. They are NOT asking about oral sex (giving/getting blow jobs or head).

Anal sex is when one partner puts their penis into the other partners anus (butt).

Sexual Risk Behaviors with Transgender Partners

The next series of questions will ask about sex you have had with **TRANSGENDER** partners. These questions are only asking about anal or vaginal sex you have had with your transgender partners. They are **NOT** asking about oral sex (giving/getting blow jobs or head).

Anal sex is when one partner puts their penis into the other partner's anus (butt).

Vaginal sex means putting your penis in someone's vagina.

The next questions ask about anal sex with your transgender primary/main and casual partners.

A primary/main partner is someone you live with, have a special emotional connection with, love, and/or call your boyfriend/girlfriend/husband/wife.

A casual partner is someone you have had sex with but do not consider to be a primary/main partner. A casual partner may be someone you have had sex with one time or many times.

Some of the questions in this section will ask you to report numbers. If your answer is 0 (zero) please enter 0 in the space provided.
