Sexual Risk Behaviors with Men

The next series of questions will ask about sex you have had with a man. These questions are only asking about vaginal or anal sex you have had with a man. They are **NOT** asking about oral sex (giving/getting blow jobs or head).

Vaginal sex is when a man puts his penis in your vagina (hole in front). Anal sex is when a man puts his penis into your anus (butt, hole in back).

QGIS Computer Assisted Behavioral Interview

Sexual Risk Behaviors with Female Partners The next series of questions will ask about sex you have had with a woman. These questions are only asking about vaginal or anal sex you have had with a woman. They are **NOT** asking about oral sex (giving/getting blow jobs or head).

Vaginal sex is when you put a penis in a vagina (hole in front).

Anal sex is when you put a penis into an anus (butt, hole in back).
