

EGRP Communications Survey 2015

A Note About the U.S. Government's Paperwork Reduction Act

The United States Government's Paperwork Reduction Act was enacted to minimize the paperwork burden for individuals; small businesses; educational and nonprofit institutions; Federal contractors; State, local and tribal governments; and other persons resulting from the collection of information by or for the United States federal government. The Act generally provides that every federal agency must obtain approval from the Office of Management and Budget (OMB) before using identical questions to collect information from 10 or more persons. Once OMB reviews and approves a survey, an OMB number is assigned to it. The burden statement below explains the amount of time, on average, it might take a respondent to complete this survey.

OMB BURDEN STATEMENT:

OMB No.: 0925-0642
Expiration Date: 08/31/2017

Public reporting burden for this collection of information is estimated to average 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0642). EGRP Communications Survey 2015

Welcome to the EGRP Communications Survey

On behalf of the National Cancer Institute's Epidemiology and Genomics Research Program (EGRP), thank you for choosing to participate in our Communications Survey. The responses received will help us identify opportunities to better meet your information needs related to cancer epidemiology and genomics research.

This survey will remain open until _____.

All information collected in this survey will be kept secure, to the extent permitted by law. Individual responses will be grouped for the purpose of reporting and presenting summary information, and individuals' names will not be used.

If you have any questions about this survey, please contact the the EGRP communications team at nciepmatters@mail.nih.gov.

Thank you in advance for your feedback.

Background Information

1. Which of the following best describes you?

- Researcher
- Research Administrator
- Health Care Provider
- Student
- Public Health Professional
- Communications Professional
- Advocate
- Other (please specify)

2. Which of the following best describes your organization?

- No organizational affiliation
- College or university
- Medical center
- Government
- Public health agency
- Advocacy organization
- Other (please specify)
