Attachment G – Tablet Screening Video Script

TABLET SCREENING VIDEO SCRIPT

To serve people across the United States, the National Survey on Drug Use and Health collects data on substance use, mental health and other health-related issues that are used by local, state, and national agencies to support education, treatment and prevention programs.

For this survey, households nationwide just like yours are scientifically selected at random and then visited by a professional interviewer.

During this visit, the interviewer asks a few general questions to determine if anyone in your household will complete an interview. Those completing the full interview will receive \$30 cash.

To protect your privacy, you record most of your answers into a computer. The interviewer never sees or hears them. Your answers are combined with those from thousands of others, and are reported only as overall statistics.

You cannot be replaced so your participation is very important.

Feel free to ask the interviewer any questions you have or visit nsduhweb.rti.org for more information.

(Approx. run time: 50 seconds)

Attachment H – Parental Introductory Script

PARENTAL INTRODUCTORY SCRIPT

This script is read to parents/guardian by field interviewers prior to speaking with any youth respondents selected for the NSDUH interview. Field interviewers will access this script electronically from the tablets used for screening.

If one youth is selected to complete an interview:

Your (AGE) year-old child has been selected for an interview. I would like to talk with him/her to see if he/she is interested in participating in this study which asks about tobacco, alcohol, and drug use or non-use and other health related issues. If your child is interested, I will give both of you more information and ask for permission to complete the interview. Is he/she available?

If two youths are selected to complete an interview:

Your (AGE) year-old and (AGE) year-old children have been selected for an interview. I would like to talk with them to see if they are interested in participating in this study which asks about tobacco, alcohol, and drug use or non-use and other health related issues. If they are interested, I will give all of you more information and ask for permission to complete the interview. Are they available?
