The estimate reflects the average annual number of respondents, the average annual number of responses, the time it will take for each response, and the average annual burden. While the different cohorts of grantees finish their grants at different times, it is assumed that new cohorts will replace previous cohorts. Therefore, the number of grantees in each year is assumed to be constant.

SUPPLEMENTARY INFORMATION: The Department of Homeland Security, Office of Emergency Communications (OEC), formed under Title XVIII of the Homeland Security Act of 2002, 6 U.S.C. 571 et seq., is required, pursuant to 6 U.S.C. 572, to develop the National Emergency Communications Plan (NECP), which includes identification of goals, timeframes, and appropriate measures to achieve interoperable communications capabilities. In 2010, the Statewide Communication Interoperability Plan (SCIP) Implementation Report was cleared in accordance with the Paperwork Reduction Act of 1995 and will expire in September of 2013. The SCIP Template and Annual Progress Report will replace the previous SCIP Template and SCIP Implementation Report. These updated documents (SCIP Template and Annual Progress Report) streamline the information collected by OEC to track the progress states are making in implementing milestones and demonstrating goals of the NECP. The process for completing the SCIP Template and Annual Progress Report will not change.

The SCIP Template and Annual Progress Report will assist states in their strategic planning for interoperable and emergency communications while demonstrating each state’s achievements

and challenges in accomplishing optimal interoperability for emergency responders. In addition, certain government grants may require states to update their SCIP Templates and Annual Progress Reports to include broadband efforts in order to receive funding for interoperable and emergency communications. Statewide Interoperability Coordinators (SWICs) will be responsible for the development and incorporation of input from their respective stakeholders and governance bodies into their SCIP Template and Annual Progress Report. SWICs will complete and submit the reports directly to OEC through unclassified electronic submission.

OMB is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
