SY 2013-14 CRDC Flat File Submission CSV Record Layout

The following is a legend that identifies and defines the data element headers that must be used in the 2013-14 CRDC Flat File S

FFS CSV Layout Legend:

Layout	This column provides a cross-reference to the CRDC Table Layout, identifying either Part 1 or Part 2 of the CRDC, the specific question, and table. For example, P1Q01 refers to Part 1, Question 1. You can reference the SY 2013-14 CRDC Table Layouts document* for more information.
Section	This column provides the Section where the data element can be found in the 2013-14 CRDC Table Layout.
CRDC Question/Table	This column provides the CRDC question or table information where the data element can be found in the 2013-14 CRDC Table Layout.
CRDC Table Cell/Data Element	This column gives a brief description of the disaggregated content found within the field. For more detailed information, consult the official data definitions, which are available in the SY 2013-14 CRDC Table Layouts document*.
Element Name	This column provides the data element headers that must be included in the 2013-14 FFS submission
Length	This column shows the length of each field within the record layout.
Permitted Values	This column shows what data type is required for a given field and/or the permitted values.
2013-14	This column provides whether the data element is required (REQ), optional (OPT), or non-applicable (NA) for the 2013-14 CRDC. Elements that are optional are color-coded in orange and elements that are non-applicable for the 2013-14 CRDC are greyed out.
2015-16	This column provides whether the data element is required (REQ), optional (OPT), or non-applicable (NA) for the 2015-16 CRDC.
Associated with Skip Patterns?	This column indicates whether the data element is associated with a skip logic (e.g., whether the data element may only be applicable to some but not all schools or LEAs). A "N" indicates the question is applicable to all schools and LEAs a "Y" indicates the question may only be applicable to some but not all schools or LEAs.

Skip Logic	This column provides the criteria for when the field must be completed:
	- If skip logic is provided,
	    - if the skip logic criteria is met, data is required in the field for a complete submission.
	    - if the skip logic criteria is not met, LEAs may omit the data.

* The SY 2013-14 CRDC Table Layouts document is available for download from the CRDC website (crdc.ed.gov).
