

Attachment IV: Student Records Interview Protocol

The guide below lists the topics to be discussed with each participant as they navigate the student records instrument. The interviewer will use the sample probes below to guide the discussion of each topic.

PROJECT: BPS

DATES: April - June 2016

LOCATION: _____

TOPIC: Student Records Collection

Introduction (~5 minutes)

Review consent form (signed by participant prior to interview)

Begin audio recording (permission for audio recording will be obtained ahead of time, but ask participant to confirm on tape)

Interviewer: introduce yourself and the project

Purpose of BPS, how it relates to NPSAS

Describe multi-year student records collection and how it differs from NPSAS

Purpose of testing (~5 minutes)

Participants will help us to evaluate the usability of the data collection website

Participants will navigate the site while the interviewer asks questions

Participant Introduction (~5 minutes)

Title and job responsibilities

How long working at current job/in this field

Prior experience providing student records for NPSAS

Brief tour of Postsecondary Data Portal (~5 minutes)

- Discuss Task Menu, steps in the data collection process

Discuss collection of term information (~10 minutes)

- Review current Terms section from Institution Information Page (IIP).
- Discuss purpose of collecting this information (to collect enrollment data later in the instrument).

Enter the name, start date, and end date of each of the terms/enrollment periods (sometimes referred to as payment periods) occurring at your institution between [date] and [date].

Please include:

- Summer sessions.
- Short sessions longer than two weeks.
- Terms for special types of students (e.g. medical students).

If your institution offers continuous enrollment, rather than terms with explicit start and end dates, leave this section blank.

NOTE: Terms may start prior to [date] or end after [date], but some portion of the term must occur between [date] and [date].

Later, you will be asked to indicate each sampled student's enrollment status (e.g. full-time, half-time) during each of the terms you provide. If you do not provide term information on this page, you will later be asked to indicate each sampled student's enrollment status during the twelve months occurring between [date] and [date].

Probe how institutions would provide this information:

- Discuss number of terms that would fall under this definition.
- Probe for perceived burden involved in providing multiple years of term data.
- Compare perceived burden for providing terms vs. reporting enrollment month-by-month.

Mode options (~5 minutes)

- Describe the 3 data collection modes available to institutions: Web, Excel, CSV.
- Prompt institution to indicate which mode they would choose, assuming a sample size of [X] students.

Data elements (~15 minutes)

- Show participants a list of the data elements that will be requested. Indicate the items that will be requested once per student and the items that will be collected for each academic year.
- Work through the list of items that will be collected for each academic year. For each item, ask the participant:
 - Would the institution have difficulty reporting the item for multiple academic years? If so, why?
 - Would the institution have difficulty reporting the item for 6 academic years? (Could the institution only report for a shorter period of time?) If so, why?
- Does the participant think that one person would complete all sections, or would some sections be completed by staff from other departments? (Which departments?)

Web mode (~15 minutes)

Discuss usability of the web mode grid

- How easy or difficult is it to navigate the page using the links in the grid?
- How easy or difficult is it to track which students are complete?

- Are there any changes that would make the grid easier for you to use?

Discuss process for entering data

- How easy or difficult is it to identify which data elements should be provided for more than one academic year?
- How easy or difficult is it to move from one academic year to another?
- How easy or difficult is it to indicate that a student was not enrolled during an academic year?
- Are there any changes that would make this page easier to use? How about quicker to use?

Excel mode (~15 minutes)

Probe for feedback about usability of the template

- Download a template from the Portal and walk the participant through using the template.
- Does the participant think it would be easier to hand key data or copy/paste from their own reports/systems?
- How easy or difficult is it to identify which data elements should be provided for more than one academic year?
- How easy or difficult is it to move from one academic year to another?
- How easy or difficult is it to indicate that a student was not enrolled during an academic year?
- Would you change anything else about the template?

CSV Mode (~5 minutes)

Discuss CSV capabilities at institutions

- Is the participant familiar with CSV data?
- (Describe CSV specs and file upload process.)
- How likely is it that the institution could provide data in CSV format?

[For institutions that are able to provide CSV data] Review sample file specs

- Show institution the sample specs. Does the participant have any concerns about the file specs?
- How easy or difficult is it to indicate that a student was not enrolled during an academic year?
- Would the participant change anything about the specs to make them easier to use?

Wrap-up (~5 minutes)

- Now that the participant has seen all 3 modes, would he/she still choose [___]?
- How long do you think it would take to complete the request for [X] students?
- Probe for any final questions/concerns/comments?

THANK PARTICIPANT FOR PARTICPATION

Attachment V: Student Records Instrument Facsimile

This appendix provides a facsimile of the Beginning Postsecondary Students Longitudinal Study (BPS:12) Student Records data collection instrument. As part of NCEs' initiative to align the data elements requested from institutions across studies (thereby reducing burden on participating institutions), the BPS Student Records instrument has been designed to be consistent with other upcoming student records instruments – specifically, the 2015-16 National Postsecondary Student Aid Study (NPSAS:16) and the High School Longitudinal Study of 2009 (HSLs:09) student records collections. The BPS and HSLs instrument will mirror the content of the NPSAS:16 student record instrument, except that HSLs and BPS will collect data for multiple academic years, and NPSAS collects data for a single academic year. The facsimile presented in this appendix is consistent with the student records instrument approved for the HSLs:09 collection (OMB #1850-0852 v.17). Table 1 provides a summary of the changes to the content of the BPS instrument when compared to the approved HSLs:09 instrument. The only changes to the instrument are to add one additional academic year of data (HSLs:09 will collect 2012-2013 through 2016-2017; BPS will collect 2011-2012 through 2016-2017).

The following PRA statement will be included on the data collection website:

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control numbers for the voluntary information collections using this website are listed below. The time required to complete the information collections is estimated to average the number of minutes or hours listed below per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.

If you have any comments concerning the accuracy of the time estimate, suggestions for improving the collections, or any comments or concerns regarding the status of your individual submission of these data, please write to: Postsecondary Data Portal studies, National Center for Education Statistics, PCP, 550 12th St., SW, 4th floor, Washington, DC 20024.

If enrollment status was used to determine financial aid eligibility, report that enrollment status for this item. Otherwise, report the enrollment status as defined by your institution.

Institutions typically define enrollment status based on the number of credit or clock hours attempted. For example, students who are enrolled as a **full-time student** typically carry at least

- 12 semester or quarter hours per term at the undergraduate level or 9 credit hours per term at the graduate level.
- 24 semester hours or 36 quarter hours per academic year for an educational program using credit hours for a program of less than one academic year.
- 24 clock hours per week for an education program using clock hours.

Enter the student's enrollment status for the 2015-2016 academic year.

If enrollment status was used to determine financial aid eligibility, report that enrollment status for this item. Otherwise, report the enrollment status as defined by your institution.

Institutions typically define enrollment status based on the number of credit or clock hours attempted. For example, students who are enrolled as a **full-time student** typically carry at least

- 12 semester or quarter hours per term at the undergraduate level or 9 credit hours per term at the graduate level.
- 24 semester hours or 36 quarter hours per academic year for an educational program using credit hours for a program of less than one academic year.
- 24 clock hours per week for an education program using clock hours.

If class level was used to determine financial aid eligibility, report that class level for this item. Otherwise, report the class level as defined by your institution.

Institutions typically define class level based on the number of earned credits. An example of a commonly used classification:

- 0-29 earned credit hours for first-year/freshman
- 30-59 earned credit hours for sophomore
- 60-89 earned credit hours for junior

90+ earned credit hours for senior

Please indicate how the student's residency was classified for tuition purposes. An in-district student is a student who is a legal resident of the locality in which he/she attends school and thus is entitled to reduced tuition charges if offered by the institution. An in-state student is a student who is a legal resident of the state in which he/she attends school. An out-of-state student is a student who is not a legal resident of the state in which he/she attends school.

Help Text

Need-based grants are awarded on the basis of an applicant's financial resources. Merit-based grants are awarded on the basis of an applicant's talents, skills, demographic, geographic or other characteristics. If any part of the awarding criteria includes an applicant's financial resources, then the grant should be considered need-based.

Help Text

Need-based grants are awarded on the basis of an applicant's financial resources. Merit-based grants are awarded on the basis of an applicant's talents, skills, demographic, geographic or other characteristics. If any part of the awarding criteria includes an applicant's financial resources, then the grant should be considered need-based.

Help Text Need-based grants are awarded on the basis of an applicant's financial resources. Merit-based grants are awarded on the basis of an applicant's talents, skills, demographic, geographic or other characteristics. If any part of the awarding criteria includes an applicant's financial resources, then the grant should be considered need-based.
