

148 FERC ¶ 61,106
UNITED STATES OF AMERICA
FEDERAL ENERGY REGULATORY COMMISSION

Modeling, Data, and Analysis Reliability Standards

Docket No. RM14-7-000

ERRATA NOTICE

(August 6, 2014)

On June 19, 2014, the Commission issued a “Notice of Proposed Rulemaking” in the above-captioned proceeding, *Modeling, Data, and Analysis Reliability Standards*, 147 FERC ¶ 61,208 (2014) (NOPR).

This errata notice serves to correct paragraphs 17 and 19. In paragraph 17, the following is inserted as a footnote at the end of the first sentence: “The proposed Reliability Standard MOD-001-2 will increase paperwork burden and the number of responses to FERC-725L (OMB Control No. 1902-0261) and the retirement of the current MOD Reliability Standards will decrease the paperwork burden and the number of responses to FERC-725A (OMB Control No. 1902-0244).” Accordingly, all subsequent footnote numbers are numerically revised to reflect this additional footnote.

In addition, on page 14 of the NOPR, “changes to FERC-725A and” is inserted after “Proposed” in the “Action” field, and “1902-0244 and” is inserted into the “OMB Control No.” field before the OMB control number that is already present.

In paragraph 19, in the last sentence, remove “FERC-725Q” and insert the following “FERC-725A (OMB Control No. 1902-0244), FERC-725L (OMB Control No. 1902-0261).”

Kimberly D. Bose,
Secretary.
