Application for Dependency and Indemnity Compensation by a Surviving Spouse or Child - In-Service Death; Application for DIC, Death Pension, and or, Accrued Benefits
(2900-0004)

A. Justification

1. The Department of Veterans Affairs (VA), through its Veterans Benefits Administration (VBA), administers an integrated program of benefits and services established by law for veterans, service personnel, and their dependents and/or beneficiaries. Information is requested by these forms under the authority of 38 U.S.C. 1310 through 1314 and 1532 through 1543. The expiration date placeholder has been added to the forms. These VA Forms are being transferred from Compensation Service (21) to Pension and Fiduciary Service (21P) due to a change in business line responsibilities.
2. VA Form 21P-534 is used to gather the necessary information to determine the eligibility of surviving spouses and children for dependency and indemnity compensation (DIC), death pension, accrued benefits, and death compensation. VA Form 21P-534a is an abbreviated application for DIC that is used only by surviving spouses and children of veterans who died while on active duty service. The VA Form 21P-534EZ is used for the Fully Developed Claims (FDC) program for pension claims.
3. VA Forms 21P-534, 534a and 534EZ are available on the One-VA Website in a fillable electronic format. VBA is currently hosting this form on a secure server and does not currently have the technology in place to allow for the complete submission of the form. Validation edits are performed to assure data integrity. Efforts within VA are underway to provide a mechanism to allow the information to be submitted electronically with a recognized signature technology. There currently is no utility process in place that will allow the data submitted on the form to be incorporated with an existing centralized legacy database.
4. Program reviews were conducted to identify potential areas of duplication; however, none were found to exist. There is no known Department or Agency which maintains the necessary information, nor is it available from other sources within our Department.
5. The collection of information does not involve small businesses or entities.
6. The VA compensation and pension programs require proof of age and/or relationship for payment of benefits and additional benefits for dependents. Income information is also necessary to determine entitlement to death pension. 38 U.S.C. 5101 states that when a claimant files a claim for death benefits VA must consider entitlement to all death benefits. Therefore, VA Form 21P-534 requests all the information needed to determine eligibility for DIC, death pension, accrued benefits, and death compensation. Very few applicants are entitled to death compensation. If entitlement to both DIC and death pension is established, VA pays the greater benefit.

VA Form 21P-534a requests only the information that is needed from the claimant in order to process a claim based on in-service death. When a service member dies in service, the

surviving spouse and/or children are entitled to DIC. Accrued benefits and death compensation are not payable in these cases, and DIC is always a greater benefit than death pension. Additionally, service and death information are provided to VA by the Department of Defense, so VA Form 21P-534a also does not request this information from the claimant.

The VA Form 21P-534EZ is used in the fully developed claims (FDC) program.

Without this collection of information, entitlement to benefits could not be determined.

7. There is no special circumstance requiring collection in a manner inconsistent with 5 CFR 1320.6 guidelines.

8. The Department notice was published in the Federal Register on (Insert Date) (Volume ____, No. ____) (page/pages) (Insert Page Number(s)). (No or number) comments were received in response to this notice.
