

Justification  
**Statement Regarding Contributions and Support of Children**  
 RRB Form G-139

1. Circumstances of information collection - Section 2(d)(4) of the Railroad Retirement Act provides, in part, that a child is deemed dependent if the conditions set forth in Section 202(d)(3)(4) and (9) of the Social Security Act are met.

Section 202(d)(4) of the Social Security Act, as amended by Public Law 104-121, requires as a condition of dependency that one-half of the support a child receives is from the stepparent. This dependency impacts upon the entitlement of a spouse or survivor of an employee whose entitlement is based upon having a stepchild of the employee in care, or on an individual seeking a child's annuity as a stepchild of an employee.

Therefore, depending on the employee for at least one-half support is a condition affecting eligibility for increasing an employee or spouse annuity under the social security overall minimum provisions on the basis of the presence of a dependent child (20 CFR 222.50), the employee's natural child in limited situations (20 CFR 222.51), an adopted child (20 CFR 222.53), stepchild (20 CFR 222.55), grandchild and step-grandchild (20 CFR 222.56), and an equitably adopted child (20 CFR 222.57).

2. Purposes of collecting/consequences of not collecting the information - **Form G-139, Statement Regarding Contributions and Support of Children**, is used to correctly determine if an applicant is entitled to a child's annuity based on actual dependency. The RRB solicits financial information regarding the child's means of support and a comparison is made between the amount of support received from the railroad employee and the amount received from other sources.

**The RRB proposes no changes to Form G-139.**

Form G-139 is similar to Form SSA-783 (OMB 0960-0020).
