

Attachment E: Rolling Assignment Procedure Logic Model

An Affirmative Action/Equal Opportunity Employer

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0524. The time required to complete this information collection is estimated to average about 15 minutes to 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Rolling Assignment Procedure Logic Model

* This figure provides an outline of the logic that will be used to randomly split verification into the intervention and control groups, enable rolling verification in the intervention group, and ensure that the necessary number of households is sampled for verification. The implementation of this logic will be automated via the verification software used in the recruited LEAs.
