

American Community Survey Methods Panel Tests (0607-0936)

Nonsubstantive Change Request

At the time we submitted our 3-year ACS Methods Panel Clearance package, we did not have questionnaires designed for the 2013 Questionnaire Design Test. This test will be fielded in late June, so the forms are now final and awaiting printing. This request transmits to OMB the final questionnaires for each treatment described in the 2012 Methods Panel submission.
