

Dear [Respondent],

The Centers for Disease Control and Prevention (CDC) Influenza Division is requesting participation in a 10 question survey from our partners in the African region. You received an invitation to complete this survey one week ago. This is a gentle reminder that there are two days left to fill out the form online by clicking on the link: [insert link].

CDC is seeking feedback about how on-going influenza capacity-strengthening has contributed to regional surveillance & response during emergency outbreaks, in particular to Ebola. Participation in this survey is voluntary and will take 5 minutes to complete.

We realize that your time is precious and appreciate your participation greatly.

Warm regards,

CDC Influenza Division
