No. influenza A, unable to be subtyped **								
No. influenza B* * Subtyping NOT ATTEMI	PTED ut negative for seasonal H1 se	asonal H3 and	d 2000 influ	Ienza Δ (H1	1.N(1.)			

- > If you have no tests or results to report for a week, please fax a form listing the laboratory name and week ending date, but leave the rest of the form blank.
- If you wish to revise a previous report (e.g., report isolates as "influenza A, subtype unknown" and subsequently subtype the isolates), please indicate the changes on a copy of the form on which the isolates were initially reported, listing the original week ending date. Clearly mark the copy as a revised report and fax it to us.

Please call us about unusual isolates:	(404-639-3591)	

Comments:

A weekly influenza activity report is available on the internet at http://www.cdc.gov/flu/weekly/.

^{**} Subtyping attempted but negative for seasonal H1, seasonal H3, and 2009 influenza A (H1N1).
