STUDY PARTICIPANT QUESTIONNAIRE VARIABLE JUSTIFICATION  
PER OMB COMMENT ON 05/23/2012

#	VARIABLE DESCRIPTION	PURPOSE
<b>A. BACKGROUND</b>		
A3.	TRIBAL AFFILIATION	OMB: <i>Per our phone conversation, where do they report multi-ethnicity or why does CDC think it is not necessary to ask?</i>  ATSDR: See multi-race and ethnicity waiver request to OMB 05/23/2012
<b>B. CURRENT HOME</b>		
OMB: <i>How are each these questions specifically related to the biomonitoring? If they are not, what is their purpose?</i>		
B1.	5 YEARS NEW CARPET	ATSDR: biomonitoring PFCs
B2.	5 YEARS STAIN-RESIST PRODUCTS	ATSDR: biomonitoring PFCs
B3.	SOURCE DRINKING WATER	ATSDR: biomonitoring, USEPA National Primary Drinking Water Regulated List of Contaminants and Maximum Contaminant Levels (mcls) ( <a href="http://water.epa.gov/drink/contaminants/index.cfm#list">http://water.epa.gov/drink/contaminants/index.cfm#list</a> ) include inorganic (mercury, lead, cadmium, selenium) and organic (hexachlorobenzene, PAH, toxaphene) contaminants
B4.	SOURCE HEATING FUEL	ATSDR: biomonitoring PAH
B5.	SOURCE COOKING FUEL	ATSDR: biomonitoring PAH
<b>E. FOOD</b>		
<p>SCRIPT: For most of these questions, we want to get an estimate of how many times you ate each item in the past 12 months. <i>Prompt:</i> You can tell me the number of times you ate it per week, number of times per month, or number of times in the past year – whatever is easiest to remember.</p> <p>OMB: <i>This is not an effective way to ensure consistent data collection across respondents. The questions should be phrased to get at what is most important – is it seasonality or ..? Is it about short term?</i></p> <p>ATSDR: The Food Module mainly serves as a food frequency questionnaire (FFQ) to measure usual intakes of episodically consumed foods. The essential element of an FFQ is the probability of consumption, queried as frequency of usual intake over a specified time period (often, “in the past year”) (Subar AF, et al, 2006). This is widely accepted nutrition research methodology used in the NHANES, BRFSS, and NIH Cancer Control and Population Sciences Programs.</p> <p>As an explicit example, MDH and the FDL adopted the same method used in the NHANES CAPI for its Dietary Screener Module, in which the respondent is asked to express the number of times per time unit of choice (days, weeks, months) in the past 30-days. See also consistent methods in the 2011 BRFSS CAPI Section 9: Fruits and Vegetables Module. The NHANES and the BRFSS scripts are very similar to the biomonitoring intro food script. We compared this method to the NIH Diet History Questionnaire II with 10 frequency categories to choose from, and believe that the NHANES/BRFSS method is cognitively simpler to understand and administer.</p> <p>Based on input from the Tribal Advice Council, the MDH will assess past-year “caught fish” consumption in a drill down or skip pattern, first by traditional method of catch #1 (e.g. netting) by species which are split into the four seasons. The questionnaire loops back to method of catch #2 (e.g. spearing), repeats the cycle, and then loops back to method of catch #3 (e.g. angling). This skip and loop pattern was recommended as a culturally relevant way to increase recall of fish meals, and serves a dual purpose to provide the tribal elders with an estimate of adherence to traditional fishing methods. In this manner, the MDH and the FDL will obtain a year-round estimate of fish consumption. They will also be able to examine if eating fish caught in particular locations is related to biomonitoring results.</p> <p>During pilot testing, MDH found this repetitive method of skips and loops very easy, very comprehensible, and very fast to complete.</p>

The subjects understood the pattern and they had the freedom to answer based on their own experience. The estimated burden for the entire questionnaire is 30-minutes, indicating that the MDH evaluation of the FFQ performance and method is correct and not too burdensome.

# STUDY PARTICIPANT QUESTIONNAIRE

### INTRODUCTION SCRIPT:

Did everything go okay with the Nurse?

Did you get something to eat or drink?

The way we'll do the interview is .... I'll ask questions about who you are and your usual, day-to-day activities...things like your age, places you have lived, foods you eat, jobs, and few others. We ask the same questions of everyone in the study.

The questionnaire has several parts (*show outline of Topics in Hand Card Booklet*) and it may take anywhere from about 15 minutes to about an hour to go through everything. Tell me know if you need a break or if I am going too fast at any time.

I want to remind you about a few things, before we start:

First, you don't have to answer any question if you don't want to...just say "I don't want to answer" and we'll skip that question;

Second, if you are not completely sure about an answer, do the best you can. If a question doesn't make sense, let me know and I'll repeat it or give more instruction. But if you really can't remember or don't know... just say "I don't know"

Finally, please do the best you can, because your answers are very important. They will help us learn how people have been exposed to chemicals in the environment.

**Date of Interview:** \_\_\_\_\_ **Interviewer Name:** \_\_\_\_\_

Public reporting burden of this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0923-XXXX).

## E. FOOD

SCRIPT: We are very interested in knowing about the food you eat. Food has many health benefits, but can also contain chemicals from the environment. I'll ask about different kinds of food and where you get them.

For most of these questions, we want to get an estimate of how many times you ate each item in the past 12 months. *Prompt:* You can tell me the number of times you ate it per week, number of times per month or number of times in the past year – whatever is easiest to remember.

*We'll start with questions about fish. First, a few general questions about fish that you eat. Please try to think about all fish or shellfish you eat from any source including restaurants, stores...don't forget things like canned tuna, fish sticks or fast food fish.*

### 1. Over the past 5 years, has the amount of fish you usually ate each year....gone up, stayed about the same, or gone down?

## F. CAUGHT FISH

SCRIPT: To begin the questions about fish, let's talk only about fish that were caught by you or someone you know.

### 1. In the past 12 months, have you eaten fish that was caught by you or someone you know?

- Yes  
 No (if checked, go to **BOUGHT FISH**)  
 DK

SCRIPT: To make it easier for you to remember what you ate over the past year, I will ask about these fish by going through different ways fish might be caught and each season. The Fond du Lac Band and their Natural Resources staff are also interested in how much fish people are eating and how they get their fish. We'll start with netting and then go on to other ways fish are caught.

### 2. (If YES to Q 1) In the past 12 months, did you eat any fish caught by NETTING?

- Yes  
 No (if checked, go to Q 3 **NETTED FISH**)

*Closing Script:*

That is the end of the Interview.

We would like to give you another gift card to thank you for helping with this study. *Hand them the gift card and request their signature on the Participation Record.*

When your blood and urine have been tested, we'll send your results directly to you in the mail. You should get the results of blood sugar (A1C) and cholesterol tests a few weeks from today. If any of your results for lead, cadmium or mercury are high we'll let you know as quickly as possible because there may be things you want to do to protect your health....if that is the case, we'll also send information you can use to protect yourself. We'll send most of the results after samples from all the people in the study have been tested - sometime around {time period}.

Do you have any questions about the study or how you will get your results? If you have questions later.... you can contact study staff at the numbers shown in the Consent Brochure and the Consent Form.

If you don't have any questions, you are free to go.

*Offer to show them the way out or direct them if they need transportation.*
