Appendix L: Program Partner Interview Guides

Script for interviews:

We are members of the Innovative Strategies for Increasing Self-Sufficiency—ISIS—Implementation Research Team. We are visiting all of the ISIS sites for the implementation study. We are talking with individuals who help to implement and/or operate the programs included in ISIS as well as individuals in other organizations who are part of your program, either as service providers, referral partners, or other functions.

Today we'd like to ask about your program's design and the local context in which it operates, including any services control group members might access during their participation in the study. We would like to discuss if and how the program has changed over the course of the program's inclusion in ISIS. We would also like to hear how outreach, recruitment, intake, and random assignment and other activities are progressing. Neither your name nor the names of your colleagues we speak to will appear in any public document.

The interview will take about an hour. Your participation is voluntary. There are no penalties for choosing not to take part in the interviews. Although your answers are important to the study, you can refuse to answer any questions or stop the interview at any time without penalty. Information you provide will not be shared with others and information provided will not be attributed to you in any publications.

The Paperwork Reduction Act Burden Statement: This collection of information is voluntary and will be used to document changes in program operations or the provision of services, as well as implementation challenges. Public reporting burden for this collection of information is estimated to average 60 minutes per response. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to [Contact Name]; [Contact Address]; Attn: OMB-PRA (0970-XXXX).

Do you have any questions about the ISIS study or this implementation research visit before we begin?

Topic List for Second Round Site Visits

Program Design, Components, or Operation (and reason(s)/impetus for changes)

- Goals of the career pathways program
- Target population
 - Career pathways program
 - Service partner generally
- Partnership with career pathways program
 - Nature of relationship (formal/informal, funding arrangement (if any))
 - Type of partner (referral, service provider, advisory)
 - Length of relationship
 - Level of collaboration/integration
 - Types of services provided
- Program Context
 - Institutional/organizational environment
 - Local labor market
 - Area or participant demographics
 - Programs and services available to the control group
- Participant Supports
 - Participant supports added/modified/eliminated
 - Personal guidance and supports
 - Instructional supports
 - Social supports
 - Support services
 - Financial assistance
 - Retention strategies added/modified/eliminated
 - Follow-up components
- Employment Connections
 - Job search and placement services
 - Work-based instruction
- Staffing
 - Staff roles and responsibilities
 - Staff qualifications and characteristics
 - Staff evaluation
 - Staff development activities
 - Program management
 - Staff morale and autonomy
- Participation Patterns
 - Trends

- Barriers to participation
- Facilitators to participation

Program Challenges/Successes

- How program addressed challenges (if any)
- Hypotheses about factors contributing to challenges/successes

Ability to Sustain Programs

- Alignment of program with the organization’s mission and practices
- Support for the program both within and outside the organization
- Types and amounts of resources (e.g., staff, physical, financial) required to operate the program as implemented for ISIS
- Potential future funding needs and targeted sources
- Ability to maintain partnerships developed for the study
- Process for addressing regarding sustaining the program beyond current funding
