*This is the telephone interview version that can be transformed to a Web version with the appropriate modifications to text and format. Note that the **yellow highlighted words** indicate those words where respondents will see definitions if they hover over the word with their mouse.*

Hello, my name is _____. I am calling from Abt SRBI, a research company based in New York City. We are conducting a study for the U.S. Environmental Protection Agency about renovation, repair, and painting work done in **nonresidential** buildings.

Your organization was selected at random to be included in this study, which involves participating in an interview. Participation is voluntary. We will not reveal your name or your organization's name to EPA, so your responses will be anonymous. EPA is doing this study to learn about **nonresidential** buildings and how they are renovated. You may have seen a letter EPA sent out earlier that explains this.

Under the Paperwork Reduction Act, a federal agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this survey is 2070-####. For more information about the agency's compliance with the Paperwork Reduction Act, go to <http://www.regulations.gov> and use Docket ID No. EPA-HQ-OPPT-2013-0715 to view the agency's request, justification and estimated burden and costs for conducting this survey.

It only takes 5 or 10 minutes to answer the full survey but first I just want to ask two or three preliminary questions to see if you qualify for the study.

Refuse [TERMINATE – Possible return for refusal conversion attempt?]

S1

Are you the person that could tell me about the types and the approximate number of renovation, repair or painting projects that were done in any of the **nonresidential** buildings occupied by your organization **at this location** in the past 12 months?
