

Federal Standards and Procedural Regulations require manufactured home producers to place labels and notices in and on manufactured homes and mandate State and Private agencies participating in the Federal program to issue reports. These Standards will protect the HUD's interests by requiring certain features of design and construction. In addition, some information collected assists both HUD and State Agency's in locating manufactured homes with defects, which then would create the need for notification and/or correction by the manufacturer.

A. Overview of Information Collection

Title of Information Collection: Logic Model "Grant Performance Reporting Standard Form.

OMB Approval Number: 2535-0114.

Type of Request: Extension of currently approved collection.

Form Number: HUD-96010.

Description of the need for the information and proposed use: The Logic Model is a tool that integrates program operations and program accountability. It links program operations (mission, need, intervention, projected results, and actual results), and program accountability (measurement tool, data source, and frequency of data collection and reporting, including personnel assigned to function). Applicants/grantees should use it to support program planning, monitoring, evaluation, and other management functions.

Estimation of the total number of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: An estimation of the total time needed to complete the form is less than ten minutes; number of respondents is 11,000; frequency of response is on the occasion of application submission. The total report burden is 1100 hours.

SUPPLEMENTARY INFORMATION:

Title: 30 CFR part 250, Subpart A, *Oil and Gas and Sulphur Operations in the OCS—General*.

Form(s): BSEE-0011, BSEE-0132, BSEE-0143, BSEE-1832.

OMB Control Number: 1014-0022.

Abstract: The Outer Continental Shelf (OCS) Lands Act at 43 U.S.C. 1334 authorizes the Secretary of the Interior to prescribe rules and regulations necessary for the administration of the leasing provisions of the Act related to mineral resources on the OCS. Such rules and regulations will apply to all operations conducted under a lease, right-of-way, or a right-of-use and easement. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition.

In addition to the general rulemaking authority of the OCS Lands Act at 43 U.S.C. 1334, section 301(a) of the Federal Oil and Gas Royalty Management Act (FOGRMA), 30 U.S.C. 1751(a), grants authority to the Secretary to prescribe such rules and regulations as are reasonably necessary to carry out FOGRMA's provisions. While the majority of FOGRMA is directed to royalty collection and enforcement, some provisions apply to offshore operations. For example, section 108 of FOGRMA, 30 U.S.C. 1718, grants the Secretary broad authority to inspect lease sites for the purpose of determining whether there is compliance with the mineral leasing laws. Section 109(c)(2) and (d)(1), 30 U.S.C. 1719(c)(2) and (d)(1), impose substantial civil penalties for failure to permit lawful inspections and for knowing or willful preparation or submission of false, inaccurate, or misleading reports, records, or other information. Because the Secretary has delegated some of the authority under FOGRMA to BSEE, 30 U.S.C. 1751 is

included as additional authority for these requirements.

The Independent Offices Appropriations Act (31 U.S.C. 9701), the Omnibus Appropriations Bill (Pub. L. 104-133, 110 Stat. 1321, April 26, 1996), and OMB Circular A-25, authorize Federal agencies to recover the full cost of services that confer special benefits. Under the Department of the Interior's implementing policy, BSEE is required to charge fees for services that provide special benefits or privileges to an identifiable non-Federal recipient above and beyond those which accrue to the public at large. A request for approval required in 30 CFR 250.171(e) is subject to cost recovery, and BSEE regulations specify service fees for these requests in 30 CFR 250.125.

Regulations implementing these responsibilities are among those delegated to BSEE. The regulations at 30 CFR Part 250, Subpart A, concern the general regulatory requirements of oil, gas, and sulphur operations in the OCS (including the associated forms), and are the subject of this collection. This request also covers any related Notices to Lessees and Operators (NLTs) that BSEE issues to clarify, supplement, or provide additional guidance on some aspects of our regulations.

The BSEE uses the information collected under the Subpart A regulations to ensure that operations on the OCS are carried out in a safe and pollution-free manner, do not interfere with the rights of other users on the OCS, and balance the protection and development of OCS resources. Specifically, we use the information collected to:

- Review records of formal crane operator and rigger training, crane operator qualifications, crane inspections, testing, and maintenance to ensure that lessees/operators perform operations in a safe and workmanlike manner and that equipment is maintained in a safe condition. The BSEE also uses the information to make certain that all new and existing cranes installed on OCS fixed platforms must be equipped with anti-two block safety devices, and to assure that uniform methods are employed by lessees for load testing of cranes.

- Review welding plans, procedures, and records to ensure that welding is conducted in a safe and workmanlike manner by trained and experienced personnel.

- Provide lessees/operators greater flexibility to comply with regulatory requirements through approval of alternative equipment or procedures and departures to regulations if they
