

APPENDIX H.3: Crosswalk of Survey Items to Research Questions and Sources

<i>Key to Sources Acronym</i>	<i>Source*</i>
NPSAS04	National Postsecondary Student Aid Study. 2004 Survey
BPS:04/09	Beginning Postsecondary Students, 2009 Follow-up Survey
S-STEM recipient	S-STEM Recipient Survey. 2013 Survey
IRFP applicant	Survey of Former applicants to the National Science Foundation's International Research Fellowship Program (IRFP). 2010 Survey
IRFP host	Survey of Host Scientists for U.S. Graduate Students of the National Science Foundation's International Research Fellowship Program (IRFP). 2010 Survey
EAPSI applicant	Survey of Former Applicants to the National Science Foundation's East Asia and Pacific Summer Institutes Program (EAPSI). 2010 Survey
SDR 2010	Survey of Doctoral Recipients. 2010 Survey
SURE	Survey of Undergraduate Research Experiences (SURE), Lopatto 2004, 2008
New	New item written for the Evaluation of the PIRE Program

*PIRE surveys include items drawn from a variety of national surveys, some of which are preserved in their original wording. Items that have been modified from national surveys are noted.

Research Questions	
RQ 1.	What is the quantity and quality of the publications that PIRE projects have produced (and that are projected to be produced)?
RQ 2.	How does the quantity and quality of publications produced by PIRE projects—that are required, by definition, to include an international collaboration—compare to the quantity and quality of publications produced by similar NSF-funded projects that <i>do not require</i> an international collaboration?
RQ 3.	What are the program experiences of PIRE Principal Investigators (PIs and co-PIs), postdoctoral researchers, and graduate and undergraduate student participants? What are the research and educational or career outcomes for these participants?
RQ 4.	How do the research and educational or career outcomes for PIRE PIs, postdoctoral researchers, and graduate student participants compare to those of similar participant groups in similar NSF-funded projects that <i>do not require</i> an international collaboration?
RQ 5.	How do international affairs representatives at PIRE PIs' institutions perceive the effects of PIRE on their institutions' policies and practices for supporting international research and educational collaborations?
RQ 6.	What are the program experiences of foreign senior investigative partners in PIRE and how do they perceive the effects of PIRE on their research and educational practices and those of their institutions?
RQ 7.	How have PIRE projects contributed to research that may inform global societal challenges?

Items Mapped to Research Questions, Use in Analysis, and Item Source (if applicable)

KEY

- A:** the variable from this item is used for administrative purposes (e.g., respondent contact and background information, to drive skip patterns).
M: the variable from this item is used for matching.
B: the variable from this item will be used for benchmarking.
C: the variable from this item will be used as a control variable in the analysis.

- D:** the variable from this item will be used in the descriptive analysis.
O: the variable from this item will be used as an outcome in the relational or CITS analysis.
SG: the variable from this item is a subgroup item that will be used in the descriptive analysis (e.g. major).
