Memorandum for: Mr. Jeremy Consolvo

Subject: Review of ICE/EVOC Comment Cards for OMB Submission

As requested, I have reviewed the project protocol for the ICE/EVOC information collection, the questions included in the question banks, as well as the example comment cards as part of the submission to OMB for an OMB Control Number.

The materials and methods proposed for the generic clearance appear to be sufficiently designed and developed to be sent forward as required to obtain OMB approve.

The point of contact for this review is Mr. Frederick Licari, 571-372-0493.
