# **SUA Survey Preparation**

Thank you for taking the time to complete this very important survey on caregiving. The information you provide is an essential part of the Administration for Community Living's (ACLs) first national evaluation of the Title III-E National Family Caregiver Support Program (NFCSP). State Units on Aging (SUAs) play a vital role in overseeing programs and services provided to caregivers in their local areas. It is the goal of this survey to:

- Obtain a broad understanding of the services SUAs provide to caregivers
- Understand the variety of ways caregiver programs are implemented and monitored by SUAs nationwide
- Examine the features of caregiver programs such as consumer direction, caregiver assessments and case/care management

Your responses to this survey will provide important information to document the scope, effectiveness and impact of caregiver programs in your state and community.

The survey asks a few questions about the characteristics of your caregiver programs and your SUA. Before you begin it may be helpful to gather the following information:

- 1) Estimated number of unduplicated consumers who received caregiver services from your SUA in your most recent fiscal year.
- 2) Estimated number of unduplicated grandparents 55+ caring for grandchildren and receiving caregiver services in your most recent fiscal year.
- 3) Total amount of expenditures in your SUA in the most recent fiscal year.
- 4) Amount of expenditures on Title III-E (National Family Caregiver Support Program in the most recent fiscal year.
- 5) NFCSP Waiting List information (number of people on the waiting list for each NFCSP service, as applicable).
- 6) NFCSP Services cap information.
- 7) Top three supplemental services for caregivers of older adults and grandparent caregivers who care for grandchildren.

Dear [Insert Name]:

I am writing to encourage you to participate in the evaluation of the Older Americans Act Title III-E National Family Caregiver Support Services Program (NFCSP). Your responses to the NFCSP evaluation survey will make an important contribution in the effort to examine how effectively and efficiently the Older Americans Act Title III-E NFCSP helps to deliver services to family caregivers. The study will provide critical information to policy makers and program managers to support program planning at both the state and local levels. The success of the evaluation is dependent on the cooperation and participation of staff in all areas of the Aging Network.

The Lewin Group (Lewin) and the Scripps Gerontology Center (Scripps) are conducting the process evaluation for the U.S. Department of Health and Human Services' Administration for Community Living (ACL). The evaluation study will examine program processes and provide information about program efficiency and costs. A future outcomes evaluation will assess program effectiveness by collecting information from caregivers to learn more about program outcomes like family caregiver well-being.

Data for this current evaluation study will be collected from all State Units on Aging, all Area Agencies on Aging, and a sample of 1,000 Local Service Providers.

We appreciate your willingness to participate in this important study. The data collected and analyzed through this evaluation will provide critical information in setting policies and program practices that can support the goal of helping older adults and people with disabilities maintain their health and independence at home through providing support services to family caregivers.

Sincerely,

[National Association representative]

### **Survey Preparation Worksheet**

Thank you for taking the time to complete this very important survey on caregiving. The information you provide is an essential part of ACL's first national evaluation of the Title III-E National Family Caregiver Support Program (NFCSP). Area Agencies on Aging (AAAs) play a vital role in providing programs and services to caregivers in their local areas. It is the goal of this survey to:

- Obtain a broad understanding of the services AAAs provide to caregivers
- Understand the variety of ways caregiver programs are implemented by AAAs nationwide
- Examine the features of caregiver programs such as consumer direction, caregiver assessments and case/care management

You will also be asked for information about your service providers. That information will assist us in selecting AAAs from whom local service providers will also be surveyed.

Your responses to this survey will provide important information to document the scope, effectiveness and impact of caregiver programs in your community.

The survey asks a few questions about the characteristics of your caregiver programs and your AAA. Before you begin it may be helpful to gather the following information about your most recently completed fiscal year.

Before you begin, you may want to gather the following information that will be asked for in the survey.

- Number of contracted providers that provided NFCSP services in total
- Number of providers that provide each type of NFCSP service.
- Number of full-time equivalent employees working on the NFCSP
- Number of unduplicated caregivers served by the NFCSP (Title III-E) services
- Number of unduplicated caregivers that receive:
  - o Training, counseling & support services
  - Respite services
  - Caregiver supplemental services
  - Caregiver access assistance services
  - o Caregiver consumer-directed services
- Number of unduplicated grandparents or other relatives 55 and over caring for children
- Total number of unduplicated volunteers on the NFCSP
- Total number of volunteer hours on the NFCSP
- Your AAA's total operating budget for last completed fiscal year
- Total operating budget for OAA NFCSP
- Total budget for grandparent/relative portion of NFCSP
- Total budget for respite care services
- Total budget for caregiver supplemental services
- Total budget for access/assistance services
- Total budget for information services
- Total budget for counseling, support groups and caregiver training
- Total budget spent on caregiver services from your NFCSP from each of these sources:

- Total federal funds
- Total OAA funds
- Other federal funds (e.g. HUD, VA)
- Total state funding
- State general revenue funds
- State-funded caregiver program
- Other state funds spent on caregivers
- Other funding sources providing caregiver funding
- o Sources of referrals, if you track referral sources
- If your agency has one, a copy either in electronic form or hard copy of the standardized caregiver assessment form. You will be provided with an email address to mail the electronic form or to send a scanned version of the form to.

You may save your partially completed survey and return to it another time by choosing "save" at the bottom of the page where you end your work. Return to your survey from the link in your e-mail invitation. Use the "back" and "next" buttons at the bottom of the page to move through the survey, not the buttons on your browser. If you are using HIPAA-compliant internet access, your server may log you off after a period of inactivity. Save your work periodically, especially if you step away from your computer. Otherwise, your work may be lost.

You can print a blank PDF version of the survey before you begin by clicking here: [link to PDF on website].

You can print your completed survey by choosing the "print" button on the final screen. Do not choose "submit" on the final screen until you have completed all work on your survey, printed a copy (if desired) and are ready to leave the survey. If you submit before you are finished we will have to reset your survey and your work will be lost.

If you have questions, please contact our survey email address at <u>AAAsurvey@muohio.edu</u> or by calling [Research Associate] at 1-855-359-3033.
