

require the award of the contract to a particular qualified person in the public interest (36 CFR 51.25).

The extraordinary circumstance in this instance was precipitated by Superstorm Sandy, which destroyed the water-based portion of the Great Kills Marina in October 2012, washing away the docks, slips, and a substantial number of pilings. The storm also caused severe damage to the bulkhead. The NPS requires the marina structures used under this contract to be temporary in nature, and that the concessioner coordinate closely with the NPS for construction of the temporary marina, a project which is already underway. These factors also contribute to the extraordinary circumstances that allow for a sole source concession contract.

The NPS has determined that Marinas of the Future, Inc., is a "qualified person" as defined by 36 CFR 51.3, and has determined that compelling and equitable considerations exist with Marinas of the Future, Inc.'s funding for the construction project, its cooperation in coordinating the project, and its waiver of any potential leasehold surrender interest in the temporary marina.

The NPS has determined that a sole source concession contract is in the public interest because it is the authorization most likely to allow interruption of visitor services to be avoided.

This action is issued pursuant to 36 CFR 51.25. This is not a request for proposals.
