

renewal, and the current approval for this collection is scheduled to expire on June 30, 2014. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on February 3, 2014 (79 FR 6232).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within 30 days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219-0042. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: DOL-MSHA.

Title of Collection: Representative of Miners, Notification of Legal Identity, and Notification of Commencement of Operations and Closing of Mines.

OMB Control Number: 1219-0042.

Affected Public: Private Sector—businesses or other for-profits and not-for-profit institutions.

Total Estimated Number of Respondents: 10,196.

Total Estimated Number of Responses: 10,196.

Total Estimated Annual Time Burden: 2,029 hours.

Total Estimated Annual Other Costs Burden: \$2,419.

Dated: May 30, 2014.

Michel Smyth,

Departmental Clearance Officer.

[FR Doc. 2014-13065 Filed 6-4-14; 8:45 am]

BILLING CODE 4510-43-P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

[OMB Control No. 1219-0133]

Proposed Extension of Information Collection; Hazard Communication

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Request for public comments.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to assure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments on the information collection for Hazard Communication.

DATES: All comments must be received on or before August 4, 2014.

ADDRESSES: Comments concerning the information collection requirements of this notice may be sent by any of the methods listed below.

- *Federal E-Rulemaking Portal:* <http://www.regulations.gov>. Follow the on-line instructions for submitting comments for docket number [MSHA-2014-0007].
- *Regular Mail:* Send comments to MSHA, Office of Standards, Regulations, and Variances, 1100 Wilson Boulevard, Room 2350, Arlington, VA 22209-3939.
- *Hand Delivery:* MSHA, 1100 Wilson Boulevard, Room 2350, Arlington, VA. Sign in at the receptionist's desk on the 21st floor.

FOR FURTHER INFORMATION CONTACT:

Sheila McConnell, Acting Director, Office of Standards, Regulations, and Variances, MSHA, at MSHA.information.collections@dol.gov (email); 202-693-9440 (voice); or 202-693-9441 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Section 103(h) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 813(h), authorizes the Mine Safety and Health Administration (MSHA) to collect information necessary to carry out its duty in protecting the safety and health of miners. Further, Section 101(a) of the Mine Act, 30 U.S.C. 811(a), authorizes the Secretary to develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal or other mines.

Section 101(a)(7) of the Federal Mine Safety and Health Act of 1977, as amended, (Mine Act) requires, in part, that mandatory standards prescribe the use of labels or other appropriate forms of warning as are necessary to insure that miners are apprised of all hazards to which they are exposed, relevant symptoms and appropriate emergency treatment, and proper conditions and precautions for safe use or exposure.

MSHA's part 47 hazardous communications (HazCom) rule requires mine operators to evaluate the hazards of chemicals they produce or use and provide information to miners concerning chemical hazards by means of a written hazard communication program; labeling containers of hazardous chemicals; providing access to material safety data sheets (MSDSs); and initial miner training.

II. Desired Focus of Comments

MSHA is soliciting comments concerning the proposed information collection related to Hazard Communication—30 CFR part 47. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility;
- Evaluate the accuracy of MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This information collection request is available on <http://www.msha.gov/regs/>

fedreg/informationcollection/informationcollection.asp. The information collection request will be available on MSHA's Web site and on <http://www.regulations.gov>. MSHA cautions the commenter against providing any information in the submission that should not be publicly disclosed. Full comments, including personal information provided, will be made available on www.regulations.gov and www.reginfo.gov.

The public may also examine publicly available documents at MSHA, 1100 Wilson Boulevard, Room 2350, Arlington, VA. Sign in at the receptionist's desk on the 21st floor.

Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice.

III. Current Actions

This request for collection of information contains provisions for Hazard Communication—30 CFR part 47. MSHA has updated the data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request.

Type of Review: Extension, without change, of a currently approved collection.

Agency: Mine Safety and Health Administration.

OMB Number: 1219–0133.

Affected Public: Business or other for-profit.

Number of Respondents: 23,834.

Frequency: On occasion.

Number of Responses: 116,228.

Annual Burden Hours: 187,232 hours.

Annual Respondent or Recordkeeper Cost: \$13,281.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: May 30, 2014.

Sheila McConnell,
Certifying Officer.

BILLING CODE 4510–43–P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (14–044)]

National Environmental Policy Act: Mars 2020 Mission

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of Availability of Draft Environmental Impact Statement (DEIS) for the Mars 2020 Mission.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, as amended, (NEPA) (42 U.S.C. 4321 *et seq.*), the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA (40 CFR Parts 1500–1508), and NASA policy and procedures (14 CFR Part 1216 subpart 1216.3), NASA has prepared and issued a DEIS for the proposed Mars 2020 mission. The purpose of this notice is to apprise interested agencies, organizations, and individuals of the availability of the DEIS and to invite comments on the document during a 45-day public comment period. The DEIS addresses the potential environmental impacts associated with implementing the proposed mission. The purpose of the proposed mission is to continue NASA's in-depth exploration of Mars with a mobile science laboratory (rover). The DEIS includes: Descriptions of the proposed Mars 2020 mission, spacecraft, and candidate launch vehicles; an overview of the potentially affected environment at and near the launch site; and the potential environmental consequences associated with the Proposed Action and Alternatives, including the No Action Alternative. The DEIS is available at the NASA Mars 2020 NEPA Web site at: <http://www.nasa.gov/agency/nepa/mars2020eis>.

DATES: Interested parties are invited to submit comments on environmental issues and concerns, preferably in writing. Comments on the DEIS will be accepted until July 21, 2014, or no later than 45 days from the publication in the **Federal Register** of the U.S. Environmental Protection Agency's Notice of Availability of the Mars 2020 Mission DEIS, whichever is later. NASA will hold a virtual public meeting on June 26, 2014, during which the public is invited to participate in an open exchange of information and electronic submission of comments. The virtual meeting will be held from 1:00 to 3:00 p.m. EDT at the following Web address: <https://ac.arc.nasa.gov/mars2020>.

ADDRESSES: You may submit comments on the Mars 2020 mission DEIS at any time during the comment period by:

- *Email:* Comments by electronic mail may be sent to mars2020-nepa@lists.nasa.gov.
- *Mail:* Mr. George Tahu, Planetary Science Division, Science Mission Directorate, Mail Suite 3E46, NASA

Headquarters, Washington, DC 20546–0001.

- *Telephone:* Comments will be accepted at 202–358–0016.

Comments will also be accepted electronically during the June 26th, 2014 virtual public meeting at the following Web site: <https://ac.arc.nasa.gov/mars2020>. The DEIS may be reviewed at the following locations:

- NASA Headquarters, Library, Room 1J20, 300 E Street SW., Washington, DC 20546;
- Jet Propulsion Laboratory, Visitors Lobby, Building 249, 4800 Oak Grove Drive, Pasadena, CA 91109.

Limited hard copies or CDs of the DEIS are available by contacting Mr. George Tahu at the address, telephone number, or electronic mail address provided below.

FOR FURTHER INFORMATION CONTACT: Mr. George Tahu, Planetary Science Division, Science Mission Directorate, NASA Headquarters, Washington, DC 20456–001, telephone 202–358–0016, or electronic mail at mars2020-nepa@lists.nasa.gov. Additional information on NASA's NEPA process and the proposed Mars 2020 mission can be found on the Internet at: <http://www.nasa.gov/agency/nepa/> and <http://mars.jpl.nasa.gov/mars2020/>.

SUPPLEMENTARY INFORMATION: The proposed Mars 2020 mission is planned for launch during the July–August 2020 time period from Kennedy Space Center (KSC) or Cape Canaveral Air Force Station (CCAFS), Florida, on an expendable launch vehicle. The DEIS evaluates three alternatives in addition to the No Action Alternative. Under the Proposed Action (Alternative 1), the proposed Mars 2020 rover would utilize a radioisotope power system, a Multi-Mission Radioisotope Thermoelectric Generator (MMRTG), to continually provide electrical power to the rover's battery and heat for on board systems so the rover can operate and conduct science on the surface of Mars. Under Alternative 2, the proposed Mars 2020 rover would utilize solar energy as its source of electrical power to operate and conduct science on the surface of Mars. Under Alternative 3, the proposed Mars 2020 rover would utilize solar energy augmented by the thermal output from Light Weight Radioisotope Heater Units (LWRHUs) to help keep the rover's on board systems at proper operating temperatures to conduct science on the surface of Mars.

The DEIS assesses potential environmental impacts associated with a normal launch as well as a potential launch accident. These include
