According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this voluntary survey is 1850-XXXX. Approval expires XX/XX/XXXX. The time required to complete this survey is estimated to average 60 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the survey. If you have any comments concerning the accuracy of the time estimate or suggestions for improving this survey, or any comments or concerns regarding the status of your individual submission of this survey, please write to: Early Childhood Longitudinal Study, National Center for Education Statistics, 1990 K Street, N.W., Washington, D.C. 20006-5574.

The collection of information in this survey is authorized by 20 U.S. Code, Section 9543. Participation is voluntary. You may skip questions you do not wish to answer; however, we hope that you will answer as many questions as you can. Your responses are protected from disclosure by federal statute (20 U.S. Code, Section 9573). All responses that relate to or describe identifiable characteristics of individuals may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law. Data will be combined to produce statistical reports. No individual data that links your name, address, telephone number, or identification number with your responses will be included in the statistical reports.

Dear School Administrator,

This questionnaire is an important part of a major longitudinal study of children's early educational experiences beginning with kindergarten and continuing through grade 5. **The Early Childhood Longitudinal Study, Kindergarten Class of 2010-2011 (ECLS-K:2011)** is collecting information from schools attended by children who are in the study to investigate the relationship between children's academic progress and various school, classroom, teacher, and child characteristics. You have received this questionnaire because one or more of the children in your school are participants in this study.

This questionnaire contains several brief sections:

- a) School characteristics
- b) School-family-community connections
- c) School policies and practices
- d) School programs for particular populations
- e) Federal programs: Title I, Adequate Yearly Progress (AYP), and Title III
- f) Staffing and teacher characteristics
- g) School administrator characteristics

This information is vital to the study. Please feel free to ask other knowledgeable members of your staff to provide the information necessary to complete various sections of the questionnaire. However, we ask that you, yourself, please complete the final section, which is about your own background and characteristics. Taking part in the study is voluntary. You may stop at any time or choose not to answer a question you do not want to answer. Although we realize you are very busy, we urge you to complete this questionnaire as completely and accurately as possible. The information you provide is being collected for research purposes only and will be protected from disclosure to the fullest extent allowable by law (Education Sciences Reform Act of 2002, 20 U.S.C. § 9573). Information from multiple individuals will be combined to produce statistical reports; no information that identifies you will be included in any reports or provided to students, their parents, or other school staff.

Please record your answers directly on the questionnaire by marking the appropriate answer (as described in the instructions on page 5) or by writing your responses in the space provided. Your best estimates are acceptable answers.

DEFINITIONS

For the purposes of this study, the following definitions apply:

- Kindergarten: Traditional year of school primarily for 5-year-olds prior to first grade.
- Transitional (or readiness) kindergarten: Extra year of school for kindergarten-age eligible children who are judged not ready for kindergarten.
- Transitional first (or prefirst) grade: Extra year of school for children who have attended kindergarten but have been judged not ready for first grade.
- Ungraded: A classroom containing children with an age span of two or more years, not formally identified by grade(s).

Special programs. Reference is made in this questionnaire to Title I and Title III programs, individualized education programs (IEP), Section 504 plans, and Response to Intervention (RtI). For this study, the following definitions apply:

- Title I: "Improving the Academic Achievement of the Disadvantaged." Title I is a program of the Elementary and Secondary Education Act (ESEA) of 1965, as reauthorized under the No Child Left Behind Act of 2001. The purpose of this program is to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on state academic achievement standards and state academic assessments.
- Title III: "Language Instruction for Limited English Proficient and Immigrant Students." Title III is a program of the Elementary and Secondary Education Act (ESEA) of 1965, as reauthorized under the No Child Left Behind Act of 2001. One of the main purposes of this program is to help ensure that children who have limited proficiency in English, including immigrant children and youth, attain English proficiency, develop high levels of academic attainment in English, and meet the same state academic content and student academic achievement standards as all students are expected to meet.
- Individualized Education Program (IEP): A written statement of the educational program designed to meet the individual needs of a school-aged child with a disability that is judged to affect the child's educational performance. Children who receive special education services under the Individuals with Disabilities Education Act (IDEA) are expected to have an IEP.
- Section 504 plan: A written plan to provide appropriate services to a child with a disability, whether or not the disability is judged to affect the child's educational performance. Speech therapy services may often be specified as part of a Section 504 plan.
- Response to Intervention (RtI): A multi-step approach to providing early and progressively intensive intervention and monitoring within the general education setting. In principle, RtI begins with research-based instruction and behavioral support provided to students in the general education classroom, followed by screening of all students to identify those who may need systematic progress monitoring, intervention, or support. Students who are not responding to the general education curriculum and instruction are provided with increasingly intensive interventions through a "tiered" system, and they are regularly monitored to assess their progress and inform the choice of future interventions, including possibly special education for students determined to have a disability.

Language. Reference is made to English language learners (ELL), as well as to instructional programs for ELL students in this questionnaire. For this study, the following definitions apply:

- Language-minority (LM) student: A student in whose home a non-English language typically is spoken. This group includes students whose English is fluent enough to benefit from instruction in academic subjects offered in English as well as students who are English language learners.
- English language learner (ELL): A student whose native language is one other than English and whose skills in listening, speaking, reading, or writing English are such that he or she has difficulty understanding school instruction in English.

THANK YOU VERY MUCH FOR YOUR HELP.

MARKING DIRECTIONS

PLEASE READ CAREFULLY AND USE A BLACK OR BLUE BALL POINT PEN TO COMPLETE THIS QUESTIONNAIRE. DO NOT USE PENCIL OR FELT-TIP PEN.

MARKING BOXES

It is important that you mark an "X" in the box next to your answers and print clearly.

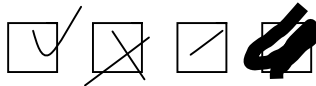

Shown below is the correct way to mark your answers, along with examples of incorrect ways.

Correct Mark:

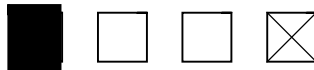

Incorrect Marks:

Light and thin, outside the box, thick or scrawled.

How to Change an Answer:

Completely black out the box of the incorrect answer and mark an "X" in the box next to the correct answer.

PRINTING ANSWERS IN BOXES

Answers should be printed clearly and should not touch or cross any of the box lines. Do not cross zeroes or sevens. That is, do not write a zero with a line through it like this – 0, and do not write a seven with a line through it like this – 7.

Write one number per box like this:

Write words like this:

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this voluntary survey is 1850-XXXX. Approval expires XX/XX/XXXX. The time required to complete this survey is estimated to average 60 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the survey. If you have any comments concerning the accuracy of the time estimate or suggestions for improving this survey, or any comments or concerns regarding the status of your individual submission of this survey, please write to: Early Childhood Longitudinal Study, National Center for Education Statistics, 1990 K Street, N.W., Washington, D.C. 20006-5574.

The collection of information in this survey is authorized by 20 U.S. Code, Section 9543. Participation is voluntary. You may skip questions you do not wish to answer; however, we hope that you will answer as many questions as you can. Your responses are protected from disclosure by federal statute (20 U.S. Code, Section 9573). All responses that relate to or describe identifiable characteristics of individuals may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law. Data will be combined to produce statistical reports. No individual data that links your name, address, telephone number, or identification number with your responses will be included in the statistical reports.

Dear School Administrator,

This questionnaire is an important part of a major longitudinal study of children's early educational experiences beginning with kindergarten and continuing through grade 5. **The Early Childhood Longitudinal Study, Kindergarten Class of 2010-2011 (ECLS-K:2011)** is collecting information from schools attended by children who are in the study to investigate the relationship between children's academic progress and various school, classroom, teacher, and child characteristics. You have received this questionnaire because one or more of the children in your school are participants in this study.

This questionnaire contains several brief sections:

- a) School characteristics
- b) School-family-community connections
- c) School policies and practices
- d) School programs for particular populations
- e) Federal programs: Title I and Title III
- f) Staffing and teacher characteristics
- g) School administrator characteristics

This information is vital to the study. Please feel free to ask other knowledgeable members of your staff to provide the information necessary to complete various sections of the questionnaire. However, we ask that you, yourself, please complete the final section, which is about your own background and characteristics. Taking part in the study is voluntary. You may stop at any time or choose not to answer a question you do not want to answer. Although we realize you are very busy, we urge you to complete this questionnaire as completely and accurately as possible. The information you provide is being collected for research purposes only and will be protected from disclosure to the fullest extent allowable by law (Education Sciences Reform Act of 2002, 20 U.S.C. § 9573). Information from multiple individuals will be combined to produce statistical reports; no information that identifies you will be included in any reports or provided to students, their parents, or other school staff.

Please record your answers directly on the questionnaire by marking the appropriate answer (as described in the instructions on page 5) or by writing your responses in the space provided. Your best estimates are acceptable answers.

DEFINITIONS

For the purposes of this study, the following definitions apply:

- Kindergarten: Traditional year of school primarily for 5-year-olds prior to first grade.
- Transitional (or readiness) kindergarten: Extra year of school for kindergarten-age eligible children who are judged not ready for kindergarten.
- Transitional first (or prefirst) grade: Extra year of school for children who have attended kindergarten but have been judged not ready for first grade.
- Ungraded: A classroom containing children with an age span of two or more years, not formally identified by grade(s).

Special programs. Reference is made in this questionnaire to Title I and Title III programs, individualized education programs (IEP), Section 504 plans, and Response to Intervention (RtI). For this study, the following definitions apply:

- Title I: "Improving the Academic Achievement of the Disadvantaged." Title I is a program of the Elementary and Secondary Education Act (ESEA) of 1965, as reauthorized under the No Child Left Behind Act of 2001. The purpose of this program is to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on state academic achievement standards and state academic assessments.
- Title III: "Language Instruction for Limited English Proficient and Immigrant Students." Title III is a program of the Elementary and Secondary Education Act (ESEA) of 1965, as reauthorized under the No Child Left Behind Act of 2001. One of the main purposes of this program is to help ensure that children who have limited proficiency in English, including immigrant children and youth, attain English proficiency, develop high levels of academic attainment in English, and meet the same state academic content and student academic achievement standards as all students are expected to meet.
- Individualized Education Program (IEP): A written statement of the educational program designed to meet the individual needs of a school-aged child with a disability that is judged to affect the child's educational performance. Children who receive special education services under the Individuals with Disabilities Education Act (IDEA) are expected to have an IEP.
- Section 504 plan: A written plan to provide appropriate services to a child with a disability, whether or not the disability is judged to affect the child's educational performance. Speech therapy services may often be specified as part of a Section 504 plan.
- Response to Intervention (RtI): A multi-step approach to providing early and progressively intensive intervention and monitoring within the general education setting. In principle, RtI begins with research-based instruction and behavioral support provided to students in the general education classroom, followed by screening of all students to identify those who may need systematic progress monitoring, intervention, or support. Students who are not responding to the general education curriculum and instruction are provided with increasingly intensive interventions through a "tiered" system, and they are regularly monitored to assess their progress and inform the choice of future interventions, including possibly special education for students determined to have a disability.

Language. Reference is made to English language learners (ELL), as well as to instructional programs for ELL students in this questionnaire. For this study, the following definitions apply:

- Language-minority (LM) student: A student in whose home a non-English language typically is spoken. This group includes students whose English is fluent enough to benefit from instruction in academic subjects offered in English as well as students who are English language learners.
- English language learner (ELL): A student whose native language is one other than English and whose skills in listening, speaking, reading, or writing English are such that he or she has difficulty understanding school instruction in English.

THANK YOU VERY MUCH FOR YOUR HELP.
