Total All Respondents	154	896	\$58,464	4	71	\$4,633	\$63,097

^b Administrative modifications could be made by simple facilities, moderately complex facilities, or Title V facilities, but there is no obvious way to assign these costs to particular categories. These costs could be incurred by any facility in addition to the costs specific to the category they are in. The

administrative mods do not get counted in the total all respondents since they are already counted elsewhere.
