A. Overview of Information Collection

Title of Information Collection: Public Housing Annual Contributions Contract and Inventory Removal Application.

OMB Approval Number: 2577-0075.

Type of Request: Revision on a currently approved collection.

Form Number: HUD-51999; HUD-52190A; HUD-52190B; HUD-52840-A; HUD-53012A, HUD-53012B, HUD 52860-A, HUD 52860-B, HUD 52860-C; HUD 52860-D; HUD 52860-E, and HUD 52860-F.

Description of the need for the information and proposed use: This information collection consolidates all ACC-related information collections involving the use of funding and inventory changes. Section 5 of the

United States Housing Act of 1937 (Pub. L. 75-412, 50 Stat. 888) permits the Secretary of HUD to make annual contributions to public housing agencies (PHAs) to achieve and maintain the lower income character of public housing projects. The Secretary is required to embody the provisions for such annual contributions in a contract guaranteeing payment. Applicable regulations are 24 CFR part 941 for public housing development and 24 CFR part 969 for continued operation of low-income housing after completion of debt service. This collection also covers Public Housing Authority (PHA) submissions under Sections 18, 22, 33 and 32 that involve the authority of the HUD Secretary to approve PHA requests

to remove certain public housing property from their inventories through demolition, disposition, voluntary conversion, required conversion or homeownership conveyance.

The functions and activities for Public Housing Annual Contributions Contractor, under OMB control number 2577-0270, has been combined with the Public Housing Inventory Removal Application, currently approved collection 2577-0075. The Office of Management and Budget (OMB) approved discontinuation of OMB Control Number, 2577-0270.

Respondents: Business or other for-profit, State, Local Government and public housing authorities.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Choice Neighborhoods Evaluation, Phase II.

OMB Approval Number: Pending.

Type of Request: New.

Form Number: No forms.

Description of the need for the information and proposed use: HUD is conducting an evaluation of the Choice Neighborhoods Initiative, focused on the initial round of grants funded in August 2011. This evaluation requires the collection of information from households living in the Choice Neighborhoods sites. Phase I, approved by the Office of Management and Budget under control number 2528-0286, involved a baseline survey of households (http://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=201203-2528-001). Phase II, proposed here, involves tracking baseline survey respondents. The purpose of Phase II tracking is to maintain contact and location information for households that participated in the Choice Neighborhoods Demonstration Studies' Baseline Survey to analyze household mobility patterns and achieve a strong response rate on any follow up surveys that the U.S. Department of Housing and Urban Development (HUD) may conduct.

The tracking effort relies primarily on passive tracking strategies that use data obtained from HUD's PIC and TRACS systems, Choice Grantees, National Change of Address (NCOA) Database, and Accurint, to update the contact information for households. Active tracking strategies are used to complement passive strategies.

Respondents (i.e. affected public): This information collection will affect approximately 1,697 households that participated in the Choice Neighborhoods Demonstration Studies' Baseline Survey in 2013-14 in five cities—New Orleans, Chicago, Boston, Seattle, and San Francisco. Affected households include residents of HUD-

assisted properties targeted by the Choice Neighborhoods Initiative as well as residents in the neighborhoods surrounding those properties. The respondents have all agreed to participate in the study.

There are five active tracking strategies that will directly affect Panel members:

1. Three quarters each year, panel members will receive a card/flyer with a toll-free number and Web site address set up for this study that will give respondents the opportunity to update their contact information online or by phone. We estimate that 25 percent of respondents (424) will respond to this flyer and it will take at most 5 minutes. This activity is estimated to result in 424 responses, 101.76 hours, and \$1,387 of burden per year.

2. Once a year, the flyer/card will also contain a perforated mailer and a postage-paid business reply envelope, providing more opportunity for each panel member to update their contact information. We estimate that 90 percent of target development Panel members (675) and 50 percent of neighborhood Panel members (474) will respond to this flyer and it will take at most 5 minutes. This activity is estimated to result in \$1,149 responses, 91.92 hours, and \$1,253 of burden per year.

3. DIR will initiate follow-up phone calls to determine if the most current telephone number(s) in the contact database are correct. This action will only become necessary if there is no response to the annual mailers and there is no online update and the postcard/flyer is returned. DIR estimates that about half of the neighborhood sample (474) and 10 percent of the target development sample (74) will require a follow-up phone call. We estimate this call will take 5 minutes. We estimate that this activity will be successful for 50% of households (237 neighborhood and 37 target). This activity is estimated to result in 274 responses, 21.92 hours, and \$299 of burden per year.

4. After a pre-determined number of unsuccessful telephone attempts (e.g., 3-5), a DIR field locator will visit the household to determine if the head of household still lives there. We estimate about 50 percent of the previous cases are expected to be resolved by telephone contact, with the remaining 50 percent (237 neighborhood and 37 target) being assigned to a field locator. We estimate this field location contact will take 5 minutes. This activity is estimated to result in 274 responses, 21.92 hours, and \$299 of burden per year.
