

**Attachment 19. Example Data Analysis Table Shells**

Table X. Total number of staff members reported referring students for services and the total number of students staff reported referring for services.

	<b>Percent of staff members who reported referring students for services</b>		<b>Total number of students staff reported referring for services</b>
	%	SD	
Broward County Public Schools			
Los Angeles USD			
San Francisco USD			
<b>All Districts Combined</b>			

Table X. Results of a t-test to Examine Changes in Staff Members' Perceptions of School Climate<sup>a</sup> from Baseline to Follow-Up

	Baseline School Climate Perception Score		Follow-up School Climate Perception Score		<i>t</i>	df	<i>p</i>
	<i>M</i>	<i>SD</i>	<i>M</i>	<i>SD</i>			
Broward County Public Schools							
Los Angeles USD							
San Francisco USD							
<b>All Districts Combined</b>							

<sup>a</sup> Higher values for school climate perception score indicate a more favorable view of the school climate.

Table X. Results of a Logistic Regression to Identify Predictors of Staff Making Referrals for Students to Receive Services

<b>Predictors</b>	<b>Odds Ratio</b>	<b>95% Confidence Interval</b>		<b><i>p</i></b>
		<b>Lower Limit</b>	<b>Upper Limit</b>	
School district				
Staff role				
Length of time in current staff role				
Perception of school climate				
Awareness of community service providers				
Receipt of professional development
