

## **Request for Approval under the “Generic Clearance for the Collection of Routine Customer Feedback”**

**TITLE OF INFORMATION COLLECTION:** Retirement Research Consortium (RRC) Conference Survey

**PURPOSE:**

The Retirement Research Consortium (RRC) consists of three multidisciplinary centers housed in three separate institutions (Boston College, the University of Michigan, and the National Bureau of Economic Research) and funded through cooperative agreements with the Social Security Administration (SSA). SSA awarded approximately \$6 million to the RRC in fiscal year 2014.

RRC’s three main goals are to:

- Conduct research and evaluation on a wide array of topics related to Social Security and retirement policy;
- Disseminate information on Social Security and retirement issues relevant to policy makers, researchers, and the general public; and,
- Train scholars and practitioners in research areas relevant to Social Security and retirement issues.

As a cooperative agreement, the centers should be providing a public benefit by providing research to policy makers, other researchers, the general public, etc. The annual meeting is a dissemination activity, and persons attending the annual meeting represent a portion of the RRC’s overall audience. Feedback would be useful for planning future meetings and providing input for future research priorities.
