What information will you need?

To determine if you could be eligible for extra help with prescription drug plan costs, Social Security needs information about your (and your spouse's, if married and living together) income and resources. Documents that may help you prepare include:

- Social Security card;
- bank account statements, including checking, savings, and certificates of deposit;
- Individual Retirement Accounts (IRAs), stocks, bonds, savings bonds, mutual funds, other investment statements;
- tax returns;
- payroll slips; and
- your most recent Social Security benefits award letters or statements for Railroad Retirement benefits, Veterans benefits, pensions and annuities.

If you do not have these documents, provide us with your best estimate so that we can tell you whether you are likely to qualify for extra help with your prescription drug costs. This information is to help you complete the application. You will not have to submit the documents unless contacted by a Social Security representative.

You may apply regardless of the Qualifier results. If you apply right away, the information you enter will be saved in the application. Whatever you enter here will not affect your benefits or the application decision; you can change your financial information when you enter the application.

What if you need to stop and come back later?

If you select Apply Now, you will get a Reentry Number after you fill in your name and address. If you choose to Save & Exit this application before it is complete, you may use your Reentry Number at any time to come back. You will also be able to change your answers later.

Can you edit your information?

When you have completed the application, you will get a full summary of the information you entered. You can make changes if necessary prior to submission. After you submit the application electronically, you will be able to print or save a receipt, and your submitted application.

How long can you work on each page?

For security reasons, there are time limits on each page. You will receive a warning after 25 minutes but you can extend your time on that page. After the third warning on a page, you must move to another page or your time will run out and all your work on that page will be lost.

If you have turned JavaScript off in your browser, you will not receive these warnings and, after 30 minutes on a page, you must go to another page or your application session will end, and your work on the last page will be lost.

You completed the Application for Extra Help With Medicare Prescription Drug Plan Costs.

What we will do:
We will process your application as quickly as possible. We will contact you if we need more information. When we finish, we will send a letter to advise whether you qualify for extra help.

What you need to do:
Carefully read the letter we provide. It will say what to do next. Please remember, if you or the person/people you are helping qualify for this extra help, enrollment in a Medicare prescription drug plan is required.
If you do not choose a Medicare prescription drug plan, Medicare will select one for you to be sure this benefit is received. However, if you wait for Medicare to choose, there may be months for which there is no prescription drug coverage.
For information about prescription drug plans in your area, you may call toll-free **1-800-MEDICARE** (1-800-633-4227) or visit www.medicare.gov. If you are deaf or hard of hearing, you may call the Medicare TTY number toll-free at **1-877-486-2048**.

Internet Security Policy

Is it safe to apply for Social Security Benefits over the Internet?

Social Security is taking all reasonable and proper measures, including encryption, to ensure that your personal information is disclosed only to you. However, the Internet is an open system and there is no absolute guarantee that others will not intercept the personal information you have entered or requested and decrypted. Although this possibility is remote, it does exist.

What is encryption?

Encryption means that all information relating to you and your account is scrambled and locked with a mathematical key during the electronic transfer. Most browsers have an icon such as a key or a lock to represent an encrypted mode or session. A broken key, open lock, or no lock indicates that the session or mode is not encrypted.

Why is special software necessary to access the Internet application?

So that your online request can remain confidential, Social Security uses a security protocol (method) called Secure Sockets Layer (SSL) for this application. You must use a Web browser that supports SSL. Netscape Navigator and Microsoft Internet Explorer are two browsers that support SSL. Using this security protocol, all information sent between your computer and our server is encrypted before being sent on the Internet.

Why SSL?

SSL provides a high level of security and is the security protocol supported by more browsers than any other. It is estimated that about 92% of Web browsers have an SSL browser available for their use.

We have found that a number of business, government, and educational networks do not have their firewalls configured to allow passage of secure Web traffic. Check with your systems administrator to determine if this is the case at your site. If this is the case you will not be able to access this application web site.

Special Instructions For Users Who Are Blind

The following instructions are for users of screen readers such as JAWS and Window-Eyes and browser-based readers such as Home Page Reader. Filling out this application is best accomplished in a Forms or MSAA mode that allows you to tab to controls and fill in input boxes, radio buttons, check boxes and list boxes. Instructional text usually occurs at the beginning of these screens and can be accessed in non-MSAA or virtual-cursor mode. Tab indices have also been added to allow for tabbing through text. Additionally, consistent headers have been set up to access questions and examples/instructions more easily. The screen reader will indicate which questions have additional help or instructional text. You can then tab to the additional help or continue tabbing to the next question to bypass this help.

Unless you have turned JavaScript off in your browser, you will receive a warning after 25 minutes and you can extend your time on the page. After the third warning, you must move to another page, or your time will run out and your work on that page will be lost.

This application contains hotkeys to improve navigation and provide information. On many screens there is a continue button at the end of the screen to allow you to go to the next page or a previous button to return to the prior page. The hotkey ALT + C is associated with the Continue button and ALT + P for the Previous button. Press ALT + C or ALT + P to move forward or back in Internet Explorer. There is also a non-interactive progress indicator (ALT + G) which lets you know the step of the application in which you are currently working. However, the use of this hotkey forces you to leave your current position on the page as it moves focus to the top, where the progress indicator is located.

Other keyboard commands, hotkeys or access keys will vary based upon browser and the version of that browser that you are using. A list of these commands can be found in the Help section of your browser. The Help feature can be located on the Menu bar of your browser or by using the F1 function key on the keyboard. Any assistive devices that you may be using will also have a list of these shortcut keys in the Help section. Also see our [Keyboard Commands](#) web page.

When you attempt to advance through the application with erroneous data or missing information, the page will redisplay with a list of links at the top for each error. Selecting these error links will take you directly to the field in question, placing focus at the specific error control. The fixed error will not be deleted from the list of links or error messages at the field until the page is re-submitted. To navigate to the next error, invoke the screen reader or screen magnifier's links list or simply tab through the fields and listen to the screen reader to hear when there is an error message.

There are instances where link and button names are repeated in an application like the following:

- More Info
- Edit
- Details

These links usually have a title attribute that describes the link in more detail. In order for screen readers to speak this additional information, the screen reader must be set up to speak the title attribute instead of the screen text. Depending on the screen reader used, this can be a verbosity setting, configuration setting, set file, etc. Please refer to the documentation for specific screen readers or browser readers if this procedure is unknown.

To determine if you could be eligible for help with prescription drug plan costs, Social Security needs information about your (and your spouse's, if married and living together) income and resources. Documents that may help you prepare include:

- Social Security card;
- bank account statements, including checking, savings, and certificates of deposit;
- Individual Retirement Accounts (IRA), stocks, bonds, savings bonds (including book entry securities*), mutual funds, other investment statements;
- tax returns;
- payroll slips; and
- your most recent Social Security benefits award letters or statements for Railroad Retirement benefits, Veterans benefits, pensions and annuities.

* Book Entry Securities - In addition to traditional U.S. Savings Bonds, individuals now may go to the Treasury Department's Internet site and make online purchases of electronic savings bonds. Electronic savings bonds are also called "book entry securities." With book entry securities, the individual's investment is recorded electronically by the Treasury Department and a paper savings bond is not issued. If you have book entry securities, they are counted as resources and should be reported on this application.

If you do not have these documents, provide us with your best estimate so that we can tell you whether you are likely to qualify for extra help with your prescription drug costs. This information is to help you complete the application. You will not have to submit the documents unless contacted by a Social Security representative.

User Interface

Help: Do you have combined savings, investments, and real estate worth more than: \$25,260 if you are married and living with your spouse; or \$12,640 if you are not married or not living with your spouse?

To be eligible for extra help with prescription drug plan costs, your resources must be within certain limits. Your resources may include bank accounts (checking, savings, and certificates of deposit), stocks, bonds, savings bonds (including book entry securities*), mutual funds, Individual Retirement Accounts (IRAs), and any other cash at home or anywhere else. Your resources also include real estate you own **except for the home that you live in**. Examples of other real estate are summer homes, rental properties or undeveloped land you own. Include the things you own by yourself, with your spouse or with someone else. **DO NOT include the home you live in, vehicles, personal possessions, burial plots, irrevocable burial contracts or back payments from Social Security or SSI.**

If you are sure that your combined savings, investments, and real estate are worth more than \$25,260 (married) or \$12,640 (single), select Yes. The actual limits for eligibility are \$22,260 (married) or \$11,140 (single). However, since we may not count some of the resources you expect to use for funeral or burial expenses, you may be able to have up to \$25,260 (married) or \$12,640 (single).

If you receive Social Security benefits based on a disability or blindness and have work-related expenses, select Yes. You will not need to tell us the amount of those expenses. We will not count a percentage of your earnings. When we send you a letter that says whether you are eligible for the extra help or not, we will also tell you how much of your earnings we did not count. If you think the amount of work-related expenses we used was less than your actual work-related expenses, you may contact us to tell us the actual amount of your expenses.

Help: Do the applicants have combined savings, investments, and real estate worth more than \$25,260?

To be eligible for extra help with prescription drug plan costs, the resources of the person for whom you are applying and his or her spouse must be within certain limits. Resources include bank accounts (checking, savings, and certificates of deposit), stocks, bonds, savings bonds (including book entry securities*), mutual funds, Individual Retirement Accounts (IRAs), and any other cash at home or anywhere else. Resources also include real estate owned, **except for the home in which the applicants live**. Examples of other real estate are summer homes, rental properties or undeveloped land they own. Include things the person for whom you are applying owns by himself or herself, with his or her spouse or with someone else. **DO NOT include vehicles, personal possessions, burial plots, irrevocable burial contracts or back payments from Social Security or SSI.**

If you are sure that their combined savings, investments, and real estate are worth more than \$25,260, select Yes. The actual limit for eligibility is \$22,260. However, since we may not count some of the resources these people expect to use for funeral or burial expenses, they may be able to have up to \$25,260.

* **Book Entry Securities** - In addition to traditional U.S. Savings Bonds, individuals now may go to the Treasury Department's Internet site and make online purchases of electronic savings bonds. Electronic savings bonds are also called "book entry securities." With book entry securities, the individual's investment is recorded electronically by the Treasury Department and a paper savings bond is not issued. If the applicants have book entry securities, they are counted as resources and should be reported on this application.

Other examples of resources that should **NOT** be counted are:

- Resources you could not easily convert to cash, such as jewelry or home furnishings;
- Property you need for self support that is used in a trade or business;
- Life insurance policies;
- Irrevocable burial trusts;
- Disaster assistance;
- Certain distributions received by an Alaska Native from an Alaska Native Regional and Village Corporation;
- Land held in trust by the United States for an individual Indian or tribe;
- Funds held in trust by the Secretary of the Interior for an Indian tribe and distributed per capita to members of the tribe;
- Payments to members of specific Indian tribes as provided by Federal legislation; and
- Up to \$2,000 per year received by an Indian that is derived from individual interests in trust or restricted lands.

NOTE: Certain other money you may be holding is not counted for nine months, such as:

- Retroactive Social Security or Supplemental Security Income benefits;
- Tax advances and refunds related to earned income tax credits and child tax credits;
- Compensation you receive as a crime victim;
- Relocation assistance from a state or local government; and
- Scholarships and education grants.

We use this date to determine the spouse's current age. If the spouse of the person for whom you are applying is under age 65, blind or disabled **and** working, we may be able to exclude some of his or her earnings when we determine eligibility for help with prescription drug costs. If he or she spends part of his or her earnings to pay for things needed in order to work, we will not count those earnings when we determine eligibility. For example, we would exclude the amount spent on attendant care, certain drugs, medical supplies and devices, certain types of training and therapy, certain work-related equipment, etc.
