OSHA Challenge - General Industry Track Stage I Tracking Form	
	Depart Pariod
Participant Name Administrator Name Time Perio	Report Period
[Enter Participant Name] [Enter Administrator Name] Year	
Stage L. Management Loodership and Worker Involvement	
Stage I Management Leadership and Worker Involvemen	
1. Management Commitment - Actions Required	Participa
1. Safety and Health Mission Statement. Develop, issue, and communicate a Safety and Health Mission Statement (ie, defining where t wants to be). This Vision statement should address the company's desire to participate in OSHA Challenge. This process may include involvement workers in the development of these documents.	
Participant Goal:	Date Comple
Participant Actions Taken:	
Administrator Narrative: 2. Safety and Health Policy Statement. Develop, issue, and communicate a Safety and Health	
Policy Statement (i.e., what the site commits to doing).	No Actic
Participant Goal:	Date Comple
Participant Actions Taken:	
 Leadership. Company establishes a policy requiring managers to participate and demonstrate leadership in safety and health management system activities. Managers set an example and behaviors that 	
demonstrate a commitment to safety and health, such as attending training, participating in planning	
meetings, wearing PPE, encouraging workers to report hazards, injuries	No Actic
and illnesses, enforcing the "if it's not safe, we're not doing it" principle, and performing other safety	
and health-related actions that are required of workers.	
Participant Goal:	Date Comple
Participant Actions Taken:	
Administrator Narrative:	
4. Adequate resources and safety and health integration. Develop a safety and health budget for the	
present and for the future, including a plan for covering typical safety and health expenditures,	
as well as unusual or emergency expenditures such as requirements for prompt correction of	
uncontrolled hazards Commit and ensure utilization of adequate resources to achieve this for OSHA Challenge. Take management action to begin integrating safety and health into other aspects of	No Actic
planning, such as planning for new equipment, processes, building materials, etc. Company	
establishes a policy/requirement that safety and health will be integrated into the overall	
planning and budgeting processes.	
Participant Goal:	Date Comple
Participant Actions Taken:	<u>·</u>
Administrator Narrative:	
5. Safety and health goals and objectives. Establish, document, and communicate to workers	
the annual safety and health goals and objectives that are clear, attainable, measurable, and relevant to	
bringing about a safe and healthy work environment, as well as the policies and procedures that will help	No Actic
achieve these goals and objectives. Goals should be based on outcome of baseline and trend analysis.	
Establish a policy/requirement that subcontractors will develop their goals and objectives supportive of the company goals in an equivalent manner.	
Participant Goal:	Date Comple

Participant Actions Taken:

Administrator Narrative:

 7. Clear responsibilities, authority, and accountability for safety and health. Clarify the safety and health responsibilities of each company worker and contractor working on the site/project: a. Identify who will be responsible for achieving safety and health goals and objectives. Participant Goal: 	No Acti Date Compl
and health responsibilities of each company worker and contractor working on the site/project:	No Acti

b. Identify specific persons to be accountable for meeting safety and health goals, including,	

Administrator Narrative:

c. Develop a safety and health accountability plan to hold managers, supervisors, and non-supervisory		
workers accountable for meeting their responsibilities through a documented performance	No Actic	
standards and appraisal system.		
Participant Goal:	Date Comple	
Participant Actions Taken:		

Administrator Narrative:

2. Worker Involvement - Actions Required	Participa
1. Worker Safety and Health Perception Survey. Evaluate the current safety and health practices	
at the total site and establish a baseline in the following areas for each of the following categories of	No Actic
personnel – managers, supervisors, and non-supervisory workers:	
a. Levels of involvement in the safety and health management system	
b. Values regarding the importance of worker safety and health	
c. Perceptions of the effectiveness of the total company's safety and health management system	
d. Perceptions of how well the culture encourages and supports reporting	
on hazards, accidents, and injuries	
e. Levels of compliance with rules or unwritten safety and health standards	
f. Perceptions regarding their roles, responsibilities, and accountability in ensuring safety	
and health on the total project/site	
Participant Goal:	Date Comple
Participant Actions Taken:	·

Administrator Narrative:

2. Safety and Health Perception Survey Action Plan. Develop an action plan to address the

findings from the survey and b	begin implementation of the plan.
--------------------------------	-----------------------------------

Participant Goal:

Participant Actions Taken:

Administrator Narrative:

3. Worker notification. Notify company and subcontractor workers as follows:		
a. Inform managers, supervisors, non-supervisory workers of their rights under the Occupational		
Safety and Health (OSH) Act. Take steps to encourage them to freely exercise their rights, especially that	No Actic	
of freely reporting hazards in the workplace.		
Participant Goal:	Date Comple	
Participant Actions Taken:		

Date Compl

Administrator Narrative:

b. Inform all workers, including new hires, of the company's participation in OSHA Challenge.		
Participant Goal:	Date Comple	
Participant Actions Taken:		

Administrator Narrative:

4. Meaningful worker involvement. Develop a plan, including an implementation schedule, for		
how to bring about the meaningful involvement of all managers, supervisors, and non-supervisory workers through participation in various safety and health related activities.		
Specifically, for this OSHA Challenge:		
Participant Goal:	Date Comple	
Participant Actions Taken:		

Administrator Narrative:

a. Consistent with applicable labor laws, initiate the establishment of a few key teams		
(e.g., a safety and health planning team) representing different sectors of the site's staff, to bring about	No Actic	
meaningful change.		
Participant Goal:	Date Compl	
Participant Actions Taken:		

Administrator Narrative:

b. Begin to involve some workers in safety and health activities such as accident investigations.	No Actic	
Note: ensure that proper training is provided before workers conduct such activities.		
Participant Goal:		
Participant Actions Taken:		

Administrator Narrative:

3. Contract Worker Coverage - Actions Required	Participa	
1. Contractor oversight and management system. Develop, document, and begin implementing the		
following basic elements of an oversight and management system covering contractors:		
a. Equal safety and health protection. Develop and begin implementing a plan for how to provide	No Actic	
contractor workers with safety and health protection equal in quality to that provided to	NO ACLI	
company workers.		
Participant Goal:	Date Comple	
Participant Actions Taken:		

Administrator Narrative:

b. Adherence to safety and health rules. Inform all contractors and their workers that they

are required to adhere to all of the company's safety and health rules, regardless of their status or the	No Actio
length of time they perform work on the site.	
Participant Goal:	Date Comple
Participant Actions Taken:	

c. Hazards in contractor work areas. Establish a requirement that contractors provide	No Actic	
timely identification, correction, and tracking of uncontrolled hazards in their work areas.	NO ACTIC	
Participant Goal:	Date Comple	
Participant Actions Taken:		

Administrator Narrative:

Stage I -- Worksite Analysis

1. Baseline Safety and Industrial Hygiene Hazard Analysis - Required Actions	Participa	
1. Conduct a baseline safety and industrial hygiene hazard analysis to establish initial levels of exposure		
(baselines) for comparison to future levels, so that changes can be recognized This study should	No Actic	
include a review of previous accidents, injuries, and illnesses; complaints of workplace hazards;	NO ACTIC	
previous studies, etc		
Participant Goal:	Date Comple	
Participant Actions Taken:		

2. Ensure that the baseline survey accomplishes the following:	No Actic
a. Identifies and documents common safety hazards in the site and how they are controlled.	
b. Identifies and documents common health hazards in the site and determine if further sampling is needed.	
c. Identifies and documents safety and health hazards that need further study.	
d. Covers the entire work site and indicates who conducted the survey and when it was completed.	
Participant Goal:	Date Comple
Participant Actions Taken:	

Administrator Narrative:

3. Repeat the baseline survey only if warranted by significant changes (eg, changes in processes,	No Actic	
equipment, hazard controls, etc).	NO ACTA	
Participant Goal:	Date Comple	
Participant Actions Taken:	_	
Administrator Norrativa		

Administrator Narrative:

2. Hazard Analysis of Routine Jobs, Tasks, and Processes - Required Actions	Participa	
No Actions Required	N	
3. Industrial Hygiene (IH) Program - Actions Required	Participa	
 Complete a baseline study, including a chemical inventory, review of previously reported hazards, trends, or illnesses, to identify and quantify worker exposures to typical health hazards such as noise, chemicals, dust, etc. 	No Acti	
Participant Goal:	Date Comple	
Participant Actions Taken:		

4. Routine Self-Inspections - Required Actions	Participa	
No Outcomes Required	N	
5. Hazard Reporting System for Employees - Required Actions	Participa	
No Outcomes Required	N	
6. Accident Investigations - Required Actions	Participa	
1. Investigate accidents and maintain written reports of the investigations. Investigations should	No Actic	
be conducted by trained personnel and:	NO ACIN	
a. Document the entire sequence of relevant events.		
b. Identify all contributing factors.		
c. Determine whether the safety and health management system was effective.		
d. Recommend actions to prevent recurrence.		
e. Assign timeframes and responsibility for implementing recommended controls.		
g. The site should make the results available to workers on request (although actual		
investigation records need not be provided).		

Participant Goal:	Date Comple
Participant Actions Taken:	

7. Trend Analysis - Required Actions	Participa	
 Conduct a trend analysis of previous three complete calendar years' injury and illness history, based on a thorough review of OSHA 300 logs, workers' compensation claim forms, and accident reports. 	No Actic	
Participant Goal:	Date Comple	
Participant Actions Taken:		

Administrator Narrative:

(e.g., hazards identified during inspections, worker reports of hazards, accidents, near-misses, etc.) for the purpose of establishing or detecting trends, planning, and setting goals.	No Actio
Participant Goal: Participant Actions Taken:	Date Compl

Administrator Narrative:

Stage I Hazard Prevention and Control		
1. Certified Professional Resources - Actions Required	Participa	
1. Ensure that outside sources are available if needed to conduct baseline hazard analysis, and that they	No Actic	
are certified, competent, and qualified to perform baselines pertinent to the work activity involved.	NO ACU	
Participant Goal:	Date Compl	
Participant Actions Taken:		

Administrator Narrative:

2. Hazard Elimination and Control Methods - Actions Required	Participa	
1. Company establishes and implements a system that prioritizes hazards identified in this stage based on		
the potential seriousness of injury, illness, property loss, frequency of exposure, and long- term effects.	No Actic	
Establish an action plan for correction.		
Participant Goal:	Date Comple	
Participant Actions Taken:		

Administrator Narrative:

Identify options and select the most appropriate option or combination of options for hazard elimination		
and control methods, including engineering controls, administrative controls, work practices, and	No Actic	
personal protective equipment (PPE).

2. Review existing programs to identify what is missing or unsatisfactory.	No Actio	
Participant Goal:	Date Comple	
Participant Actions Taken:		
Administrator Narrative:		

3. Develop missing programs and modify existing programs, as needed, to meet all OSHA guidelines,	No Actic	
including training requirements.		
Participant Goal:	Date Comple	
Participant Actions Taken:		

Administrator Narrative:

4. Occupational Health Care Program - Actions Required	Participa	
1. Records Review. Conduct a thorough review of injury/illness records and ensure they are in order.	No Actic	
Participant Goal:	Date Comple	
Participant Actions Taken:		

Administrator Narrative:

2. Licensed health care professionals. Provide workers access to licensed health care professionals	
who can provide onsite or offsite services and emergency services. Provide emergency services as required.	No Actic
Participant Goal:	Date Comple
Participant Actions Taken:	

Administrator Narrative:

5. Preventative Maintenance of Equipment - Actions Required	Participa	
1. Conduct an inventory of equipment that requires preventive maintenance.	No Actic	
Participant Goal:	Date Comple	
Participant Actions Taken:		

Administrator Narrative:

6. Tracking of Hazard Correction - Actions Required	Participa
1. Develop and begin using a documented system to record hazards identified in this stage through the	
baseline study, trend analysis, and accident investigations. The system must document priority, assign	No Actic
responsibility for correction, establish timeframes for correction, and follow up to ensure total abatement.	
Participant Goal:	Date Comple
Participant Actions Taken:	

7. Emergency Preparedness and Response - Required Actions	Participa
1. Establish and communicate written procedures for responding during all shifts to all types of	
emergencies (fire, chemical spill, accident, terrorist threat, natural disaster, etc), in compliance with	No Actic
applicable requirements.	
Participant Goal:	Date Comple
Participant Actions Taken:	

Ī	2. Conduct at least one evacuation drill and assess how well the procedures worked.	No Actic	
	Participant Goal:	Date Comple	
	Participant Actions Taken:		
- 1			

Administrator Narrative:

3. Make available and explain to all workers emergency procedures and services, including	
provisions for physician care and emergency medical care, ambulances, emergency	
medical technicians, emergency clinics, or hospital emergency rooms, available for all shifts	No Actic
within a reasonable time and distance.	
Participant Goal:	Date Comple
Participant Actions Taken:	
Administrator Narrativa

OSHA Challenge - General Industry Track Stage II Tracking Form

Participant Name	A share in the two traces blocks a				
	Administrator Name	Time Desired			
[Enter Participant Name]	[Enter Administrator Name]	Time Period Year			
Sta	age II Management Leadership and Work	er Involvement			
1. Management Commitment - Required Ad	ctions				
1. Safety and Health Mission and Policy St	atements. Continue to communicate the site's Safety and				
Health Mission and Policy Statements for th	he entire site. Incorporate appropriate information about				
the Safety and Health Mission Statement ar	nd Policy Statement into the site's orientation training for				
new workers and contractors.					
Participant Goal:					
Participant Actions Taken:					
Administrator Narrative:					
2. Leadership by example. Continue setting	g an example to the entire site through behaviors that demons	trate			
	sure increased participation by top executives and managers				
-	ding examples of activities established in Stage I.				
Participant Goal:					
Participant Actions Taken:					
Administrator Narrative:					
safety and health into other planning proce	nd health activities and programs. Improve the integration of esses.				
Participant Goal:					
Participant Actions Taken: Administrator Narrative:					
4 Safety and health goals and objectives					
4. Salety and health yoars and objectives.	Review the site's progress towards achievement of its safety	and health goals and objectives, as well as the policies and procedures to meet them; revise and			
	the policies and procedures to meet them; revise and				
and health goals and objectives, as well as communicate new annual goals and objecti	the policies and procedures to meet them; revise and

Continue to take inication with Company and subcontractor workers and ensur afety and health issues.				
and health goals and objectives, as well as communicate new annual goals and objecti Participant Goal: Participant Actions Taken: Administrator Narrative: 5. Clear lines of communication with work necessary action to clarify lines of commu access to senior management regarding sa Participant Goal: Participant Actions Taken: Administrator Narrative: 6. Clear responsibilities, authority, and acce	the policies and procedures to meet them; revise and ives, as appropriate. Kers and worker access. Continue to take inication with Company and subcontractor workers and ensur afety and health issues.				

a. Begin implementing the accountability plan for managers, supervisors, and safety and health staff
by incorporating into their performance plans their responsibilities and standards of performance
for safety and health and monitoring performance. Provide specific and timely feedback on performance;
require corrective action plans if needed; conduct performance appraisals; provide commensurate rewards and recognition for good performance; and implement consequences for poor performance.
Participant Goal:
Participant Actions Taken:
Administrator Narrative:
b. Continue communicating management expectations regarding everyone's safety and
health responsibilities.
Participant Goal:
Participant Actions Taken:
Administrator Narrative:
c. Continue supporting the authority of designated staff members who are accountable
for safety and health goals.
Participant Goal:
Participant Actions Taken:
Administrator Narrative:
d. Communicate who is responsible for achieving safety and health goals and objectives, with no unassigned
areas, so that each worker and contract worker can describe his/her responsibility for safety and health.
Participant Goal:
Participant Actions Taken:
Administrator Narrative:
7. Disciplinary plan. Develop and begin implementing a disciplinary plan (policy, procedures,
consequences), with an implementation schedule, for management and workers.
Ensure equitable enforcement of the plan among all non-supervisory workers, as well as
across levels (e.g., management staff should not get better treatment than non-supervisory workers). Participant Goal:
Participant Ooal. Participant Actions Taken:
Administrator Narrative:
8. Annual self-evaluation of safety and health management program. No action required.
2. Worker Involvement - Required Actions
1. Worker Safety and Health Perception Survey. Continue reviewing and responding to the findings
and conclusions of the baseline worker safety and health perception survey conducted in Stage I.
Participant Goal:
Participant Actions Taken:
Administrator Narrative:
2. Safety and Health Perception Survey Action Plan. Continue implementing the site's Safety and Health
Perception Survey Action Plan developed in Stage I.
Perception Survey Action Fran developed in Stage I. Participant Goal:
Participant Ooal. Participant Actions Taken:
Administrator Narrative:
3. Worker notification. Notify new Company managers, supervisors, and non-supervisory
workers of their rights under the OSH Act, of the company's participation in OSHA Challenge,
and any other pertinent information. Incorporate this information into the company's orientation for
new workers and subcontractors.

Participant Goal: Participant Actions Taken: Administrator Narrative: 4. Meaningful worker involvement. Continue implementing the site's worker involvement plan, developed in Stage I. Specifically, for Challenge Stage II: a. Encourage the formation of new and/or greater participation in safety and health teams to meet the site's needs at this Stage of OSHA Challenge. Participant Goal: Participant Actions Taken: Administrator Narrative: b. Increase worker participation as part of safety and health teams that conduct accident/ near-miss investigations, self-inspections, and job hazard analyses. Participant Goal: Participant Actions Taken: Administrator Narrative: 3. Contract Worker Coverage - Required Actions 1. Contractor oversight and management system. Continue improving and fully implement the following basic elements of an oversight and management system covering contractors: Equal safety and health protection. Improve and continue implementing the contractor program a. begun in Stage I. Participant Goal: Participant Actions Taken: Administrator Narrative: b. Adherence to safety and health rules. Improve process for requiring immediately and contractually that contract workers who work on-site whether regular or temporary to adhere to all of the site's safety and health rules, regardless of their status or the length of time they perform work on site. Participant Goal: Participant Actions Taken: Administrator Narrative: Contractor selection and oversight. Implement a policy and process for addressing safety and c. health performance, including review of written safety and health plan and injury and illness rates, in selecting contractors and in overseeing their work while they are onsite. Participant Goal: Participant Actions Taken: Administrator Narrative: d. Hazards in contractor work areas. Improve and formalize the process for the timely identification, correction, and tracking of uncontrolled hazards in the contractors' work areas, as needed. Participant Goal: Participant Actions Taken: Administrator Narrative: e. Removal of contractor for violations. Develop and implement a penalty policy and process for safety or health violations in contractor work areas including removal. Participant Goal: Participant Actions Taken:

	Stage II Worksite Analysis	
1.	Baseline Safety and Industrial Hygiene Hazard Analysis - Required Actions	
1.	No action required (See IH Required Actions below).	
2.	Hazard Analysis of Routine Jobs, Tasks, and Processes - Required Actions	
	Identify and document safety and health hazards of routine jobs, tasks, and processes and	
	recommend adequate hazard controls by conducting task-based or system/process hazard analyses	
	when the routine jobs, tasks, and processes have had injuries/illnesses associated with them or have:	
	experienced significant incidents or near-misses; are perceived as high-hazard tasks, i.e., they could	
	result in a catastrophic explosion, electrocution, or chemical overexposure; or are required by a regulation or standard. Identify the steps of the task or procedure being analyzed, the hazard controls currently	
	in place, recommendations for needed additional hazard controls, dates conducted, and	
	the responsible parties.	
Þa	irticipant Goal:	
Pa	rticipant Actions Taken:	
٩c	Iministrator Narrative:	
2.	Update the hazard analysis as appropriate, such as when the environment, procedures, or equipment	
	change or when errors are found that invalidate the most recent hazard analysis.	
2a	rticipant Goal:	
٥a	rticipant Actions Taken:

Establish and implement sampling frequencies – a schedule for sampling identified hazards and conduct additional sampling as needed, based on findings of the baseline hazard analysis, review of chemicals, worker reports of hazards, previous exposures, and reports of illnesses. 	

c. Begin implementing appropriate controls for hazards identified in Stages I and II.

Participant Goal:

Participant Actions Taken:

Administrator Narrative:

6. Routine Self-Inspections - Required Actions

 Company develops a documented system for routinely scheduled self-inspections of the workplace, including a tool or checklist, the inspection schedule, the members of the regular self-inspection teams to be created, recording of findings, responsibility for abatement, and tracking of identified hazards for timely correction.

Participant Goal:

Participant Actions Taken:

Administrator Narrative:

7. Hazard Reporting System for workers - Required Actions

1. Develop and begin implementing a hazard-reporting system, which may be anonymous, that allows

workers to use specific tools to notify management staff in writing (or via alternate methods),

without fear of reprisal, about possibly hazardous conditions, accidents, and near-misses.

Determine and communicate to workers how they will receive feedback on actions taken regarding

the hazards they report.

Participant Goal:

Participant Actions Taken:

Administrator Narrative:

8. Investigation of Accidents and Near-Misses - Required Actions

1. Continue investigating accidents, following the guidelines established in Stage I.

Participant Goal:

Participant Actions Taken:

Administrator Narrative:

2. Begin investigating near-misses, following the same guidelines established in Stage I for

investigating accidents.

Participant Goal:

Participant Actions Taken:

Administrator Narrative:

3. Continue making findings and corrective actions available to workers on request (although actual

investigation records need not be provided).

Participant Goal:

Participant Actions Taken:

Administrator Narrative:

9. Trend Analysis - Required Actions

1. Conduct a trend analysis of the other safety and health-related information not yet studied

(e.g., hazards identified during inspections, worker reports of hazards, accidents, and

near-misses, etc.) for the purpose of establishing or detecting trends, planning, and setting goals.

Participant Goal:

Participant Actions Taken:

Administrator Narrative:

2. Conduct another trend analysis of injury and illness history if a year has gone by since the

Participant Goal:

Participant Actions Taken:

Stage II Hazard Prevention and Control	
1. Certified Professional Resources - Required Actions	J
1. Provide access to certified safety and health professionals, licensed health care professionals, and others experts	
as needed, who can provide onsite or offsite services.	
Participant Goal:	
Participant Actions Taken:	
Administrator Narrative:	
2. Hazard Elimination and Control Methods - Required Actions	
1. Prioritize hazards identified in this stage based on seriousness and frequency of injury or illness or property	
loss, frequency of exposure, and long- term effects. Establish an action plan for correction.	
Participant Goal:	
Participant Actions Taken:	
Administrator Narrative:	
2. Identify options and select the most appropriate option or combination of options for hazard	
elimination and control methods, including engineering controls (including protective safety devices),	
administrative controls, work practices, and PPE.	
Participant Goal:	
Participant Actions Taken:	
Administrator Narrative:	
3. Take steps to ensure that the selected controls are: appropriate to the site's hazard(s);	
understood and followed by all affected parties; equitably enforced through the disciplinary system; written,	
implemented, and updated as needed; used by workers; and incorporated into training, positive	
reinforcement, and correction programs.	
Participant Goal:	
Participant Actions Taken:	
Administrator Narrative:	
3. Hazard Control Programs - Required Actions	
1. Continue implementing hazard control programs required by OSHA standards. Modify and	
improve, as needed.	
Participant Goal:	
Participant Actions Taken:	
Administrator Narrative:	
2. Continue training all workers on those programs, as peeded	
2. Continue training all workers on these programs, as needed.	
Participant Goal:	
Participant Actions Taken:	
Administrator Narrative:	
2. Establish passages / bazard control programs in compliance with new OCLA standards if any	
3. Establish necessary hazard control programs in compliance with new OSHA standards, if any.	
Participant Goal:	
Participant Actions Taken:	

A. Tracking of Hazard Correction - Required Actions Continue implementing and improving the documented system, established in Stage I. to record hazards dentified in this Stage, through the means listed in Stage I. and now also through hazard analysis of roucine plos, self-inspectors, near-miss respectors, near-miss Preventative plos, self-inspectors, near-miss Preventative Maintenance of Equipment - Required Actions Participant Colon: Participant Colon: Preventative Maintenance of Equipment - Required Actions I. Review the equipment inventory developed in Stage I. Participant Colons Taken: Administrator Narrative: Establish and begin following a preventive maintenance schedule to monitor and maintain equipment (including hazard cortrols, such a machine guards and orhaust ventilation) so It can be replaced or reparide and Coal: Participant Coal: Partintipant Co	Administrator Narrative:
1. Continue implementing and improving the documented system, established in Stage 1, to record hearad is donline in this Stage, intrody the means listed in Stage 1 and now also through hearad analysis of routine jobs, self-inspections, near-miss investigations, and worker reports of hazards. Record printry, responsibility for correction, timeframes for correction, and follow up to ensure total abatement. Participant Coal: Participant Coal: Participant Actions Taken: Administrator Narrative: 5. Preventative Maintenance of Equipment - Required Actions 1. Review the equipment inventory developed in Stage 1. Participant Actions Taken: Administrator Narrative: 5. Preventative administrator of a preventive maintenance schedule to monitor and maintain equipment (including based according to manufacturers' recommendations to prevent potential heazeds. Participant Controls, such as machine guards and exhaust ventilation) so it can be replaced or repared on a schedule according to manufacturers' recommendations to prevent potential heazeds. Participant Coal: Participant Actions Tak

3.	Establish an Emergency Response team including: persons trained in first aid and CPR available
	on all shifts (or an alternative that is at least as effective). Increase the number of trained individuals from
	from Stage I.

Participant Goal:

Participant Actions Taken:

Administrator Narrative:

 Conduct at least one evacuation drill, assess how well the procedures worked, and improve the emergency procedures, as needed.

Participant Goal:

Participant Actions Taken:

Administrator Narrative:

Stage II -- Safety and Health Training

1. Safety and Health Training - Required Actions

1. Continue to provide training to managers, supervisors, non-supervisory workers, and contract

workers following the general guidelines established in Stage I.

Participant Goal:

Participant Actions Taken:

Administrator Narrative:

2. As needed, continue to provide current or new managers, supervisors, non-supervisory workers,

contract workers, and designated safety and health staff all the required training established in Stage I.

Participant Goal:

Participant Actions Taken:

Administrator Narrative:

3. In addition to required training established in Stage I, at a minimum, provide the following types of

training to designated safety and health staff and others with assigned safety and health responsibilities

to equip them with the knowledge and skills they need to perform their assigned tasks or to identify

appropriate vendors:

a. How to develop a disciplinary plan

Participant Goal:

Participant Actions Taken:

Administrator Narrative:

b. How to develop a system and written procedures to annually evaluate the entire site's safety

and health management system

Participant Goal:

Participant Actions Taken:

Administrator Narrative:

c. How to conduct hazard analyses of significant changes

Participant Goal:

Participant Actions Taken:

Administrator Narrative:

d. How to conduct pre-use analyses

Participant Goal:

Participant Actions Taken:

e. How to conduct IH sampling, if applicable

Participant Goal:

Participant Actions Taken:

Administrator Narrative:

f. How to conduct an annual evaluation of the site's safety and health management system

Participant Goal:

Participant Actions Taken:

Administrator Narrative:

4. In addition to required training established in Stage I, at a minimum, provide contract workers

with training on how to recognize hazardous conditions, signs and symptoms of workplace-related

illnesses, protective measures, and safe work procedures.

Participant Goal:

Participant Actions Taken:

Administrator Narrative:

Stage II -- Documentation

1. Minimum Required Documentation
1. All documentation required in Stage I
Participant Goal:
Participant Actions Taken:
Administrator Narrative:
2. Job Hazard Analysis forms and records
Participant Goal:
Participant Actions Taken:
Administrator Narrative:
3. Routine self-inspection forms and records
Participant Goal:
Participant Actions Taken:
Administrator Narrative:
4. Worker Hazard reporting forms
Participant Goal:
Participant Actions Taken:
Administrator Narrative:
5. Minutes, charters, mission statements of safety and health teams
Participant Goal:
Participant Actions Taken:
Administrator Narrative:
6. Contractor program documentation – updated to include additional policies established in this stage
Participant Goal:
Participant Actions Taken:

Administrator Narrative:
7. Trend analysis results
Participant Goal:
Participant Actions Taken:
Administrator Narrative:
8. Written IH Program- and any sampling results since the baseline
Participant Goal:
Participant Actions Taken:
Administrator Narrative:
9. Documentation showing implementation of hazard controls and their effectiveness

	OSHA Challenge - General Stage III Tracking	
Dorticipant Name	Administrator Name	Report Peri
Participant Name	Auministrator Name	Time Period
[Enter Participant Name]	[Enter Administrator Name]	Year
Sta	ge III Management Leadership and work	er Involvement
1 Management Commitment Dequired A	otiono	Participant
 Management Commitment - Required A Safety and Health Mission and Policy 3 	Statements. Continue to communicate the site's	
	atements for the site and take necessary steps to	
	rstand the statements. Ensure that appropriate information	No Action
about the site's Safety and Health Missio	n and Policy Statements routinely becomes a part of the site	
general communication and of specific tr	aining for new workers and contractors.	
Participant Participant Goal:		Date Compl
Participant Actions Taken:		
Administrator Narrative:		
2. Leadership by example. Continue setti	ng an example to the entire site through behaviors	
	fety and health (see examples in Stage I). Ensure	
	gers, and supervisors in the site's safety and health	No Action
related activities and programs.		
Participant Participant Goal:		Date Compl
Participant Actions Taken:		
Administrator Narrative:		
3. Adequate resources and safety and he	ealth integration. Continue committing and ensuring the	
utilization of adequate resources to supp	ort safety and health activities and programs. Ensure	No Action
that safety and health is routinely integra	ted into all planning processes at the site.	
Participant Goal:		Date Compl
Participant Actions Taken:		
Administrator Narrative:		
4. Safety and health goals and objectives	s. Review, revise, and continue communicating, as	
appropriate to this Stage, the previous y	ear's safety and health goals and objectives, as well as	No Action
the policies and procedures to meet the	m. Ensure that safety and health goals and objectives	No Action
are routinely considered in planning for a	and implementing the site's various activities and programs.	
Participant Goal:		Date Compl
Participant Actions Taken:		
Administrator Narrative:		
5. Clear lines of communication with wo		
	of communication with all workers and ensure reasonable	No Action
	to safety and health issues. Take proactive steps to	
encourage open dialogue between mar	agement staff and workers.	
Participant Goal:		Date Compl

Participant Actions Taken: Administrator Narrative: 6. Clear responsibilities, authority, and accountability for safety and health. Continue clarifying safety and health expectations for each worker and contract worker in the site. Ensure all workers understand and accept **No Action** their safety and health roles and responsibilities. Continue supporting the authority of designated staff members who are accountable for achieving safety and health goals and objectives. In addition: Participant Goal: Date Compl Participant Actions Taken: Administrator Narrative: Ensure that safety and health performance elements have been incorporated into the written a. **No Action** job descriptions and performance plans of all workers, including managers, supervisors, and non-supervisory workers, as well as contractors. Participant Goal: Date Compl Participant Actions Taken: Administrator Narrative: Incorporate safety and health responsibilities into the job descriptions and performance plans of all b. non-supervisory workers and ensure that every individual's safety and health performance is No Action monitored and evaluated and that everyone receives feedback on their safety and health performance. Participant Goal: Date Compl Participant Actions Taken: Administrator Narrative: C. Develop and implement a system of rewards and recognition for exemplary safety **No Action** and health performance. Participant Goal: Date Compl Participant Actions Taken: Administrator Narrative: 7. Disciplinary plan. Improve and continue implementing the disciplinary plan developed in Stage II for No Action non-supervisory workers, ensuring equitable enforcement as required. Enforce the plan to ensure higher levels of compliance to achieve the desired outcomes for Stage III. Participant Goal: Date Compl Participant Actions Taken: Administrator Narrative: 8. Annual self-evaluation of safety and health management dystem. Develop a system and written procedures to annually evaluate the entire site's safety and health management system. The evaluation may be conducted by site workers with managers, qualified corporate staff, or trained outsiders. The evaluation must: identify the strengths and weaknesses of the site's safety and health management system; contain **No Action** specific recommendations, timelines, and assignment of responsibilities for improvements; and document actions taken to satisfy the recommendations. The site must conduct at least one annual self-evaluation of its safety and health management system in Stage III; the site must conduct additional self-evaluations each year they remain in OSHA Challenge.

Participant Goal:

Date Compl

Participant Actions Taken:	
Administrator Narrative:	
2. Worker Involvement - Required Actions	Statu
1. Follow-up worker safety and health perception survey. Conduct a follow-up assessment of the baseline	No Action
baseline worker safety and health perception survey to identify improvements.	No Action
Participant Goal:	Date Compl
Participant Actions Taken:	
Administrator Narrative:	
2. Safety and Health Perception Survey Action Plan. Continue implementing the site's Safety and Health	No Action
Perception Survey Action Plan developed in Stage I.	
Participant Goal:	Date Compl
Participant Actions Taken:	
Administrator Narrative:	
3. Worker notification. Continue notifying new managers, supervisors, non-supervisory workers,	
and contractors of their rights under the OSH Act and of the site's participation in OSHA Challenge. Assure that	
appropriate information about workers' rights continue to be incorporated into the site's orientation	No Action
training for new workers and contractors. Take proactive steps to encourage all workers to freely exercise	
their rights, especially that of freely reporting hazards in the workplace.	
Participant Goal:	Date Compl
Participant Actions Taken:	
Administrator Narrative:	
4. Meaningful worker involvement. Take proactive steps to ensure full implementation of the site's worker	
involvement plan developed in Stage I and refined in Stage II. Specifically, for Stage III:	
a. Ensure that all the safety health teams needed to achieve the required outcomes for	No Action
Stage III are established and that there is broad and active worker participation in these teams.	
Participant Goal:	Date Compl
Participant Actions Taken:	
Administrator Narrative:	
b. Ensure that audits, accident/incident investigations, self-inspections, and job hazard analyses are	No Action
routinely conducted by regular teams that have broad and active worker representation.	
Participant Goal:	Date Compl
Participant Actions Taken:	
Administrator Narrative:	
c. Improve and continue implementing the site's hazard-reporting program for workers. Take proactive steps	No Action
to encourage more active and open worker participation.	
Participant Goal:	Date Compl
Participant Actions Taken:	
Administrator Narrative:	
3. Contract Worker Coverage - Required Actions	Statu

1.	Contractor oversight and management system. Continue improving and fully implementing the contractor oversight and management system. Take proactive steps to ensure that contractors receive safety and health prtection equal to that received by workers; that they adhere to the site's safety and health rules and are removed promptly for safety and health violations; that management considers contractors' safety and health performance in selecting contractors and overseeing their work; and that the site identifies, corrects, and	No Action
	tracks uncontrolled hazards in contractors' work areas.	
Pa	rticipant Goal:	Date Compl
Pa	rticipant Actions Taken:	

2. Safety and health management systems for contractors. Begin working with contractors to encourage and support them in developing and operating their own effective safety and health management systems.	No Action
Participant Goal:	Date Compl
Participant Actions Taken:	

Administrator Narrative:

Stage III Worksite Analysis	
Worksite Analysis - Required Actions	Statu
 Baseline Survey. Repeat the baseline survey only if warranted by significant changes (e.g., changes in processes, equipment, hazard controls, etc.). 	No Action
Participant Goal:	Date Compl
Participant Actions Taken:	

Administrator Narrative:

Hazard analyses of routine jobs, tasks, and processes: Continue conducting hazard anaylses,	
following guidelines specified in Stages II, to identify, analyze, and control hazards at the site.	
Specifically, for this Stage:	
a. Identify hazards of routine jobs, tasks, and processes and recommend adequate hazard controls	
by conducting task-based or system/process hazard analyses when the routine jobs, tasks,	
and processes: have written procedures; have been recommended by other studies and	No Action
analyses for more in-depth analysis; or are determined by the Challenge participant to warrant	
hazard analysis. Follow the guidelines established in Stage II.	
Participant Goal:	Date Compl
Participant Actions Taken:	· · · · ·

3. Hazard analysis of non-routine tasks and significant changes. Identify and document safety and health	
hazards of significant changes, including but not limited to non-routine tasks (e.g., performed less than once a	No Action
year) and new processes, materials, equipment and facilities to identify uncontrolled hazards prior to the	No Action
activity or use and recommend adequate hazard controls.

Stage III Hazard Prevention and Control		
Hazard Prevention and Control - Required Actions	Statu	
1. Certified professional resources. Continue to provide workers and contractors access to certified safety and health professionals and licensed health care professionals who can provide onsite and offsite services.	No Action	
Participant Goal:	Date Compl	
Participant Actions Taken:		

Administrator Narrative:

2. Hazard elimination and control methods. Continue to proactively identify hazards through all means and		
selecting options or combinations of options to eliminate or control hazards using the most appropriate		
methods or combination of methods, i.e., engineering controls (including protective safety devices),	No Action	
administrative controls, work practices, and PPE. Correct all hazards identified in this and previous stages,		
including long-term abatement projects, before graduating from Stage III.		
Participant Goal:	Date Compl	
Participant Actions Taken:		

Administrator Narrative:

B. Hazard control programs. Continue to maintain all hazard control programs required by an		
OSHA standard, complying with all guidelines, including an annual review and training if required.	No Action	
Take proactive steps to establish hazard control programs, if any, required by new OSHA standards		
and to modify or update existing programs, as needed.		
Participant Goal:	Date Compl	
Participant Actions Taken:		

Administrator Narrative:

4. Hazard Correction Tracking. Continue to implement and improve the site's documented hazard	
tracking system. Take proactive steps to improve the tracking system, ensure that it is fully	No Action
implemented, and communicate with all workers throughout the process on the status of	
specific hazards identified until they are totally abated.	
Participant Goal:	Date Compl
Participant Actions Taken:	

5. Preventive maintenance of equipment. Continue to implement the preventive maintenance	
on equipment to prevent any hazardous conditions. Take proactive steps to ensure that the site	No Action
schedule has an established, routinely-observed preventive maintenance schedule and that preventive	No Action
maintenance is automatically part of future systems.	
Participant Goal:	Date Compl
Participant Actions Taken:	

6. Occupational health care program. Take proactive steps to provide an excellent occupational		1
health care program, including:		I
a. Provisions for access to or availability of certified health care professionals, needed		
health services, and emergency physician and medical care; improve the program based	No Action	
on all available safety and health information.		
Participant Goal:	Date Comp	
Participant Actions Taken:		

Administrator Narrative:

b. Expand use of licensed health care providers to include site visits to help identify causes	
and symptoms of occupational injuries and illnesses. Ensure care provided is within the scope	No Action
schedule of licensure and standard operating procedures.	
Participant Goal:	Date Compl
Participant Actions Taken:	

Administrator Narrative:

Date Compl
