

**Student Support Services (SSS) Program
Instructions for Completing the 2013-14 Annual Performance Report (APR)**

Background Information on the Student Support Services APR

The Department of Education (Department) uses the information provided in the performance report to assess a grantee's progress in meeting its approved goals and objectives and to determine a grantee's prior experience points in accordance with the SSS program regulations (34 CFR Part 646). The following outline is provided to answer questions you may have about the APR submission.

Who

- All grantees funded under the SSS Program must submit an annual performance report as a condition of the grant award.

What

- The APR consists of two sections, and all grantees will be required to complete both sections. Section I gathers project information and Section II gathers detailed information on SSS participants as defined in 34 CFR 646.3.
- The project and individual participant information provided in the report must cover the 12-month academic year of the grantee institution instead of the 12-month budget/project year for the grant. For example, the 2013-14 academic year is roughly August/September 2013 through August 2014 while the budget/project year for most SSS grants is September 1, 2013, through August 31, 2014.

As such, three possible scenarios are described below:

Scenario 1: The grantee institution's fall term begins in August/September 2014 and the new participants for the 2014-2015 academic year were enrolled during the summer of 2014, but significant project services began at the beginning of the fall term 2014. These SSS participants should not be included on the 2013-14 APR; they should be reported as "new" participants on the 2014-15 APR.

Scenario 2: The SSS student was enrolled at the grantee institution for the first time during the 2014 summer term and/or participated in a formal summer academic program offered by the SSS project for new SSS participants. These individuals should be included on the 2013-14 APR and reported as a "new summer participant" - option 8 or 9 and are part of the 2014-15 cohort.

Scenario 3: The SSS student was accepted for enrollment at the grantee institution and received significant pre-enrollment services (i.e., academic advising, assistance with class selection and registration, orientation workshops, financial aid advising) from the project during the summer prior to enrolling at the institution. This may include transfer students. These individuals should be included on the 2013-14 APR and reported as “new summer participant” - option 8 or 9 these students are part of the subsequent year’s cohort (i.e. 2014-15).

- **For 4-year institutions,** a project must retain the participant records for **six (6)** years from the time of first service. For example, a student who was first served by the project in 2008-09, needs to be kept on the data file through 2013-14. Note that any participant first served prior to 2008-09 can be dropped from the data file.
- **For 2-year institutions,** a project must retain the participant records for **four (4)** years from the time of first service. For example, a student who was first served by the project in 2010-11, needs to be kept on the data file through 2013-14. Note that any participant first served prior to 2010-11 can be dropped from the data file.
 - **Note:** The time periods above are necessary to accurately calculate and report on the completion objectives.

When:

The annual performance report (APR) must be submitted within 90 days after the end of each 12-month budget period.

Where:

- The annual performance report (APR) must be submitted via the Web application. Because the APR requests personal and confidential information on project participants; the secured Web site meets the Department of Education’s data security standards for sensitive data, including password and site access procedures. Further, to ensure that the data is accessible only to authorized individuals and protected from unauthorized uses, a grantee must submit the participant level data via the Web application; under no circumstances should a grantee transmit the data to the Department or the APR Help Desk via e-mail.
- The link to the actual Web application will be available on November XX, 2014, at the following Web address: <http://www.ed.gov/programs/triostudsupp/report.html>.
- Web application registration and features are provided below.

Why:

- Title IV, Section 402D, of the Higher Education Act of 1965, as amended; the program regulations in 34 CFR Part 646; and 34 CFR Sections 75.590 and 75.720 of the Education Department General Administrative Regulations (EDGAR) requires the collection of this information.

How:

- By constructing a tab delimited (.csv) or Excel (.xls or .xlsx) file that contains all of the individual participant information requested in Section II of the APR which is the Record Structure for Participants. The file must mirror the order of the field name and the content of the database column name.
 - Sections I, Part 1-Project Identification/Characteristics Certification and Warning Statements
 - Section I, Part 2-Project Required Services
 - II.A. Project Identifiers (pre-populated)
 - II.B. Participant’s Demographic Information, Eligibility and Cohort Status, and Project Entry Information
 - II.C. Participant’s Status and Academic Status
 - II.D. Participant’s Academic Progress/Persistence
 - II.E. Participant’s Student Financial Assistance
 - II.F. Additional Participant Information
- In constructing your data file, all date fields **must** be formatted as follows: 2 digits for month; 2 digits for day; 4 digits for year. Also, slashes **must** be used between the month, day and year (e.g., 09/01/2012).
- If you do not know the exact date, use the day and use your best estimate for the month.
- All SSS grantees must complete the APR online using the Web application.

Web Registration:

- Go to <https://trio.ed.gov/sss>
- Click on " **Register Here Each Year,**"
- Enter the project's PR award number (found on the Grant Award Notification),
- Enter project director’s e-mail address,
- Enter project director's first and last names,
- Select and answer two security questions,
- If the project director’s information matches the data that the Department currently has on file, a user ID and temporary password will be sent to the e-mail address on file.
- If the project director’s information does not match the data that the Department currently has on file, you will be directed to a "Registration Failed" page. Your program specialist and the Help Desk will be sent an e-mail message requesting verification of project director. Verification will occur within 24 hours if the program specialist can readily confirm a change in project director or e-mail address. Once the Help Desk has received verification from the program specialist, you will be notified to continue with registration.
- You may enter the user ID and temporary password below the “**Register Here Each Year**” link.
- You will be guided to select a new password. Password requirements are:
 - at least eight characters, and include combinations of the following,
 - at least one English uppercase character (A-Z),
 - at least one English lowercase character (a-z),
 - at least one numeric number (0-9), and
 - at least one non-alphanumeric special character (e.g., :, !, @, , \$, &, *, %, /, +, -).

- If you forget your password, a "**Forgot Password**" link is available on the log-in page. The link will route you to a screen that will allow you to retrieve your password by answering the two security questions you provided at initial registration. Once you answer the two security questions, your password will be sent to the email on file.
- After three failed attempts to access the Web site, you will be locked out and must call the Help Desk at 703-846-8248 to obtain access.

Web Features:

- A Web form for completing Sections I and II, online.
- Access to the grantee's previous year's APR data. A grantee may choose to download from the secured Web site its prior year's APR data as a comma-separated value (CSV) or as an Excel (XLS) spreadsheet.
- Functionality to upload a file with the individual participant records (Section II) to the Web application using a CSV or XLS file format.
- Functionality to view/delete/add participant data online.
- Online data field validations and error checks. In order for a grantee to be able to submit the APR, all sections of the APR must pass the first level of data field validations. Following the initial submission of the participant data, additional data quality checks will be run. If any errors or data inconsistencies are found, the grantee will be informed of needed corrections and the due date for resubmitting the Section II data.
- A print button to make a hard copy of the information entered online for Section I.
- Functionality to upload a scanned signed copy of Section I using the online Web application.
- Functionality to download an electronic file with the individual participant records (Section II).
- A submit button to send the entire report to the Department.
- An e-mail confirmation that the report has been submitted (a valid e-mail address must be provided in Section I, Part 1).

Contact the Help Desk or your program specialist if you:

- have **technical problems** accessing the Web site or using the Web application,
- do not receive an e-mail confirmation,
- need to revise your performance report data after it has been submitted but prior to the deadline date, (December XX, 2014), and or
- have questions regarding the performance report requirements.

Contact Information:

- APR Help Desk at (703) 846-8248 or via e-mail at: generaltrio@cbmiweb.com.
- Program Specialist—Use the State listing provided at:
<http://www2.ed.gov/programs/triostudsupp/staff.html>

**Specific Instructions for Completing the Performance Report
For 2013-14**

**SECTION I, Part 1—Project Identification, Characteristics, Certification and Warning
Statements**

A. Project Identification

1. Pre-populated
2. Pre-populated
3. Pre-populated
4. Pre-populated
5. Pre-populated
6. Pre-populated
7. Enter the project address

B. Project Director and Data Entry Contact Information

- 8a. Pre-populated
- 8b. Pre-populated
- 8c. Pre-populated
- 8d. Pre-populated
- 9a. Enter the data entry contact first and last name
- 9b. Enter the data entry contact telephone number
- 9c. Enter the data entry contact email address

C. Project Characteristics

- 10a. Select whether or not the project has a “Summer Bridge Program?”
- 10b. If Yes in 10a, then enter number of summer bridge participants
- 10c. Select whether or not the project “Used Federal grant funds to provide Grant Aid?”
- 10d. Select whether or not the school is required to provide matching funds for Grant Aid.
- 10e. If yes in 10d, enter the dollar amount matched for the reporting period.
- 10f. Select whether or not institutional or other non-federal funds were received.
- 10g. If yes in 10f, enter the dollar amount for the reporting period. Institutional and other non-federal funds are monetary contributions (e.g., cash). Please do not include in-kind support such as goods (e.g., supplies, equipment, etc.).

D. Certification

Signatures for the both the project director and the certifying official are required in this section. You must upload a scanned signed copy of Section I using the online Web application. If you are not able to upload Section I, you may fax a signed copy of the report form to **703-832-1360**.

With the exception of Section I, **Part 1** of the report, please do not send a paper copy of the performance report.

SECTION I, Part 2—Project Services

Enter the number of participants who received the required services. A participant may be counted only one time in each category. For example, if the number of participants served is 140, none of services should have a number exceeding 140.

Definitions That Apply

Academic Need with reference to a student means a student whom the grantee determines needs one or more of the services stated under 646.4 to succeed in a postsecondary educational program.

Continuing participant is an individual who was served by the SSS project in a prior reporting period and also received services in the 2013-14 reporting period. This includes a reentry participant (receiving **project services**) who left the grantee institution in a previous reporting period, then reentered the institution and was served by the project in 2013-14.

Current participant is defined as a participant who was served by the project during the reporting period. (field 22, options 1, 2, 8 and 9)

Dual degree program is a program of study that awards an individual both the bachelor's and a graduate degree upon successful completion of the program of study.

Equivalent of bachelor's degree is to be used only for SSS participants enrolled in dual degree program that have completed four years of undergraduate study and are working towards a graduate degree.

Ethnicity/Race

- **Hispanic or Latino** - A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race.
- **American Indian or Alaska Native** - American Indian/Alaskan Native refers to a person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment.
- **Asian** - A person having origins in any of the original peoples of the Far East, Southeast Asia, and the Indian subcontinent. This area includes, for example, China, India, Japan, Korea, and the Philippine Islands.
- **Black or African American** - A person having origins in any of the black racial groups of Africa.
- **White** - A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.
- **Native Hawaiian or Other Pacific Islander** – A person having origins in any of the original peoples of Hawaii or other Pacific islands such as Samoa and Guam.

First-generation college student means an individual neither of whose natural or adoptive parents received a baccalaureate degree; or a student who, prior to the age of 18, regularly resided with and received support from only one natural or adoptive parent and whose supporting parent did not receive a baccalaureate degree.

Individual with disabilities as defined by ADA Amendments Act of 2008 means a person who has a:

- (a) physical or mental impairment that substantially limits one or more major life activities of such an individual, and
- (b) record of such an impairment, or
- (c) being regarded as having such an “impairment.”

Low-income individual means an individual whose family taxable income did not exceed 150 percent of the poverty level amount in the calendar year preceding the year in which the individual initially participated in the project. The poverty level amount is determined using criteria established by the Bureau of the Census of the U.S. Department of Commerce.

New participant is an individual who was served by the SSS project for the **first time** in this reporting period (PY 2013-14) and meets the definition of participant in 34 CFR 646.7(c) of the SSS program regulations.

New participant--summer session only is an individual served by the SSS project for the first time during the summer session preceding the participant’s first academic year at the grantee institution (i.e., served during summer 2014 prior to the 2014-15 academic year). This student is thus part of the next year’s cohort (i.e., field 21, option “15”). This definition does not include a student enrolled at the grantee institution prior to the summer session but who received services from the SSS project for the first time during the summer 2014. This individual would meet the definition of “new participant” (field 22, option “1,” and would be in the 2013-14 cohort (field 21, option “14”).

Hint: A participant who is a “new participant—summer session only” (option “8” or “9”) in the 2013-14 APR should be coded as a “new participant” (option “1”) on the 2014-15 APR.

Number of participants receiving service that was provided by project is defined as those participants that were offered services by the project and subsequently received services from the project. This figure *does not* include participants that were offered services by the project but declined them (e.g., due to lack of need, participant refused the service, etc.).

Number of participants referred to another service provider is defined as those participants that were offered services by the project but were subsequently referred to another service provider. Note that the Department is not asking projects to report on whether participants actually received services from the service provider or for projects to follow-up with these participants to ensure services were rendered. The Department is only requesting that the grantee report on the number of participants that were referred to another service provider.

Participant means an individual who –

- Is determined to be eligible to participate in the project under 34 CFR 646.3; and
- Received project services the grantee has determined to be sufficient to increase the individual's chances for success in a postsecondary educational program.

HINT: A project should use the SSS Program's regulatory definition of a project participant in 34 CFR 646.7(c) to determine which *project participants* should be included on the data file.

Prior-year participant enrolled at grantee institution is an individual served by the SSS project in a prior reporting period that was enrolled at the grantee institution during the current reporting period but did not receive project services on a continual basis during the reporting period. This definition includes a prior-year participant who received a certificate/diploma from a program that is less than two years and is pursuing an associate's degree at the grantee institution.

Prior-year participant not enrolled at the grantee institution is an individual who was not enrolled at the grantee institution during the 2013-14 academic year. This includes a reentry participant (not receiving project services) who left the grantee institution in a previous reporting period, then reentered the institution and was not served by the project in 2013-14.

SSS grant aid is financial grant aid that a SSS project may award to current year participants in the project who are in their first two years of postsecondary education and who are receiving Federal Pell Grants. Grant aid may be awarded to students who have completed their first two years of postsecondary education and are receiving Federal Pell Grants, if the institution demonstrates that these students are at high-risk of dropping out and the financial needs of all its eligible first and second-year students have been met. For this reporting period, individual grant aid awards should not be less than the minimum Pell Grant award of \$582 nor exceed the maximum Pell grant award of \$5,645.

Student Cohort Year for the purpose of determining a project's Prior Experience (PE) points means the year in which the participant was first served. **NOTE:** An individual student is a member of the same cohort for reporting purposes even if that student leaves the program and reenters at a later time. A student remains in the same cohort for each successive year.

Summer Bridge Program is a program that provides participants with service and activities, including college courses, which aids in the transition from secondary to postsecondary education. **HINT:** This service is typically provided to SSS participants who have graduated from high school and intend to enroll in postsecondary education in the fall term.

SECTION II: PARTICIPANT RECORD STRUCTURE

Before you begin, please familiarize yourself with the participant data fields and the “*Definitions That Apply.*” The SSS participant record structure contains thirty-eight (38) data fields. The first two fields are project identifiers. The remaining 36 fields are student data fields and may or may not require or allow updates as noted with an “X” below.

Field	Field Name	You cannot update	You should not have to update	You may update
1	Pr/Award Number	X		
2	Batch Year	X		
3	Social Security Number	X		
4	Student’s Last Name	X		
5	Student’s First Name	X		
6	Student’s Middle Initial		X	
7	Student’s Date of Birth	X		
8	Gender			X
9	Ethnicity—Hispanic		X	
10	Race—American Indian/Alaskan Native		X	
11	Race—Asian		X	
12	Race—Black or African American		X	
13	Race—White		X	
14	Race—Native Hawaiian or Other Pacific Islander		X	
15	Eligibility		X	
16	Academic Need		X	
17	First Enrollment Date		X	
18	Date of First Project Service		X	
19	College grade level (<i>entry into project</i>)		X	
20	Enrollment Status (<i>in academic year first served</i>)		X	
21	Student’s Cohort Year	X		
22	Participant Status (<i>during academic year being reported</i>)			X
23	Enrollment Status (<i>at the end of the academic year being reported</i>)			X
24	Academic Standing			X
25	Cumulative GPA			X
26	College Grade Level (<i>at the beginning of the academic year</i>)			X
27	College Grade Level (<i>at the end of the academic year</i>)			X
28	Date of Last Project Service			X
29	Reason for Withdrawal or Not Returning			X
30	Transfers			X

Field	Field Name	You cannot update	You should not have to update	You may update
31	Undergraduate Degree/Certificate completed at grantee Institution			X
32	Date of Undergraduate Degree/Certificate			X
33	Field of Study Degree/Certificate Earned			X
34	Persistence Status (<i>at the beginning of the 2014-15 academic year</i>)			X
35	Amount of Financial Aid Received			X
36	Amount of SSS Grant Aid Awarded			X
37	Participant Name Change			X
38	Student Case Number	X		

You cannot update means *once the information has been provided you cannot change the response in subsequent reporting years.*

You should not have to update means *that once you provide a response, you should not need to update the field unless the response was incorrect or the response in a previous reporting period was “Unknown” but you now have new information.*

You may update means *that you may have to update the information if the status of the participant has changed. For example, if in a previous reporting period you indicated the participant was “1=Full-time (at least 24 credit hours or 36 clock hours in an academic year (i.e., field 23, option 1) but in this reporting period the participant is no longer enrolled, you would need to update the response from “1=Full-time (at least 24 credit hours or 36 clock hours in an academic year to “9=Not applicable (prior year participants no longer enrolled).*

Instructions for Participant Data File

II.A. Project Identifiers

Field 1—PR/Award Number (Pre-populated)

Field 2—Batch Year (Pre-populated)

II.B. Participant’s Personal Data, Demographic Information, Eligibility and Cohort Status, and Project Entry Information

Field 3—Enter the student’s Social Security Number (SSN). If a project does not know a student’s SSN, leave it blank or enter zeros, “000000000.” **Once you provide the SSN, you cannot change nor update it in subsequent reporting years.**

Field 4—Enter the Student’s Last Name. **Once you provide the student’s last name, you cannot change nor update it in subsequent reporting years.**

Field 5—Enter the Student’s First Name. **Once you provide the student’s first name, you cannot change nor update it in subsequent reporting years.**

Field 6—Enter the Student’s Middle Initial.

Field 7—Enter the Student’s Date of Birth. **Once you provide the student’s date of birth, you cannot change nor update it in subsequent reporting years.**

Field 8—Select the Student’s Gender. **This field may be updated.**

Field 9—Select whether or not the participant is identified/self-identifies as Hispanic/Latino.

Field 10—Select whether or not the participant is identified/self-identifies as American Indian/Alaskan Native.

Field 11—Select whether or not the participant is identified/self-identifies as Asian.

Field 12—Select whether or not the participant is identified/self-identifies as Black or African American.

Field 13—Select whether or not the participant is identified/self-identifies as White.

Field 14—Select whether or not the participant is identified/self-identifies as Native Hawaiian or Pacific Islander.

Field 15—Select the participant’s eligibility status. (For additional information, please refer to “Definitions That Apply”)

Field 16—Select the participant’s academic need at entry into the project.

Field 17—Enter the participant’s date of first enrollment at the grantee institution. The enrollment date is the date when the participant has completed the registration requirements, paid their tuition and fees and attends first day of classes at the grantee institution. Since a student accepted for enrollment at the grantee institution may receive services from the SSS project, the school enrollment date may be after the project entry date and/or the date of first project service.

Field 18—Enter the participant’s date of first project service.

Field 19—Select the participant’s college grade level at the time of project entry. In determining the student’s postsecondary grade level, use the criteria of the grantee institution regarding grade level classifications and academic standing. Most postsecondary institutions use credits earned and grade point average to determine the college grade level. For students who have earned college credits during high school or through placement testing but have not previously been enrolled in college, use option “1 = 1st year, never attended.” However, in determining these students college grade level at the end of the reporting year (field 27), count the earned credits in determining the end of the reporting year grade level.

HINT: For fields 19, 26 and 27, to ensure uniformity in reporting, two-year institutions should use first-year (freshman) and second-year (sophomores) to designate the college grade levels of their participants

Field 20—Select the participant’s *enrollment status* in academic year first served. **Once you report the enrollment status, do not change it in subsequent reporting years.**

HINT: The purpose of this field is to calculate the performance measures for SSS projects (i.e., the GPRA persistence and graduation rates) for cohorts of full-time, freshman participants who enrolled at the grantee institution in a particular year. Therefore, please enter the enrollment status of the participant in the academic year the participant was first served.—

Field 21—Select the participant’s cohort year that coincides with the academic year the participant was first served by the SSS project.

Note: A “new” participant served only during the 2014 summer session and not previously enrolled in postsecondary education would be in the 2014-15 cohort year (option “16”). Option “16” should only be used for an individual served by the project for the first time in the 2014 summer session preceding the participant’s first academic year (i.e., 2014-15) at the grantee institution. Therefore, if option 8 or 9 was selected in field 22—Participant Status, then you must select option 16 in field 21. A student enrolled at the grantee institution prior to the summer 2014 but who received services from the SSS project for the first time during the summer 2014 would be in the 2013-14 cohort year (option “15”).

All other new participants served for the first time in the 2013-14 reporting period would be in the 2013-14 cohort year (option “15”).

Important: Grantees are not allowed to increase cohorts that have already been verified or have been established based on information provided in their 2012-13 APR reporting period.

- If you served a student whose participant status in the 2013-14 reporting period is “Continuing” and you did not include this student in your 2012-13 APR data file, you must select option 17.
- If you have prior-year participants (field 22, options 3 and 4) who were not in your 2012-13 APR data file, you either must delete the record or select option 17.

Under NO circumstances should you be selecting a cohort (options 1, 7 – 16) if either of the above conditions apply. Keep in mind that the cohort is based on first served; therefore, once served for the first time the student’s cohort cannot change in future reporting periods.

II.C. PARTICIPANT'S STATUS AND ACADEMIC STATUS

Field 22—Select the participant's status.

Field 23—Select the participant's enrollment status at end of the academic year.

This field provides information on a participant's annual progress toward graduation and can also be used to identify groups of full-time and less than full-time students. A grantee should report the enrollment status equivalent for the academic year based on credits or clock hours **enrolled** in for the full academic year (fall through summer terms). For example, a student would be classified as a full-time student if he/she enrolled in 24 semester credits during the academic year being reported even if the student did not earn 12 credits each semester.

To determine a participant's enrollment status, use the sum of the credit or clock hours a student was **enrolled** in at the end of each academic term during the reporting year (i.e., sum of credits or clock hours **enrolled** in at the end of the fall, spring, and summer terms). Do not count the credit or clock hours the student officially dropped during any of the terms in the calculation of enrollment status. Please note that the enrollment status is based on the number of hours a student **ENROLLED** in, not the number of hours the student earned. If a student received an "Incomplete" or failed the course, those hours should be included in the number of hours a student enrolled. Courses that are audited are not counted towards the number of hours enrolled.

Three examples follow:

Scenario 1: A student is enrolled for 9 credit hours (three-quarter time) for 3 semesters enrolling for a total of 27 credit hours for the academic year. Since full-time status is 24 credits for the academic year, the student would be reported as a full-time student (option 1).

Scenario 2: A student is enrolled for 9 credit hours in the fall semester and 15 credits in the spring semester enrolling for a total of 24 credits. Since full-time status is 24 credits for the academic year, the student would be reported as a full-time student (option 1).

Scenario 3: A student is enrolled for 9 credits in both the fall and spring semesters enrolling for a total of 18 credits. Since 18 credits equal three-quarters of the full-time equivalent, the student would be reported as a three-quarter time students for the reporting year (option 2).

If you do not know the enrollment status of a student, use "0-Unknown/No response." If the individual is a prior-year participant no longer enrolled select option 9. Select option 10 only for students whose participant status in field 22 was option 9.

Field 24—Select the participant's academic standing.

Field 25—Enter the participant's Cumulative GPA.

II.D. ACADEMIC PROGRESS AND PERSISTENCE

Field 26—Select the participant’s college grade level at the beginning of the academic year.

Field 27—Select the participant’s current college grade level at the end of the academic year.

Field 28—Enter date of the participant’s last project service.

Field 29—Select the reason the participant withdrew or did not return.

Field 30—Select the participant’s transfer status.

HINT: Use option 8 if the participant is still enrolled at the grantee institution, completed certificate program, or graduated with an associate’s (but did not transfer) or graduated with a bachelor’s degree. Use option 9 if the participant withdrew, did not return, was called for military service, or is deceased.

Field 31—Select the participant’s degree status at grantee institution during the 2013-14 academic year.

HINT: Generally, once you report the degree status, do not change it in subsequent reporting periods as doing so may impact your Prior Experience (PE) points for the completion objective. For additional guidance, refer to the instructions provided in the Record Structure.

Field 32—Enter the date the participant attained the degree or certificate.

For current and prior-year participants who obtained a certificate or degree during the reporting period, provide the date the certificate or degree was awarded. If you do not know the exact date, use 15 for the day and use your best estimate for the month.

Field 33—**Select the Field of Study the participant earned the degree or certificate.**

For a detailed list of the field of study refer to Appendix A at the end of the instructions booklet.

Field 34—Select participant’s persistence status at the beginning of the 2014-15 academic year.

Field 34 provides the data needed to determine, on an annual basis, the extent to which the grantee has met its approved persistence objective (i.e., for prior experience points) for the academic year as well as to determine the performance measures (e.g., GPRA) for cohorts of full-time, freshman participants who enrolled at the grantee institution in a particular year. Since the persistence objective measures the persistence of SSS participants from one academic year to the next at the grantee institution, it is necessary to know whether participants served in the current reporting year (i.e. 2013-14) enrolled at the grantee institution by the fall of the next academic year (i.e., Fall 2014). **Please note that you must update field 34 every year.**

II.E. STUDENT FINANCIAL ASSISTANCE

Field 35- Enter the amount of financial aid received as determined by the financial aid office. Do not include the amount of the expected family contribution or the amount of SSS Grant Aid.

Field 36 – Enter the amount of SSS grant aid awarded for the 2013-14 project year.

II.F. ADDITIONAL PARTICIPANT INFORMATION

Field 37 – Enter the participant’s full name, if the participant changed their name (i.e. first and last name).

This a new field and is optional. If the participant changed their name and you need this information to assist you in further tracking the participant, please enter the participant’s full name (i.e., first and last name). If the participant’s name is the same as provided in fields 4 and 5, you may leave this field blank. The information in this field can be changed in subsequent reporting periods.

Field Number 38 – Student’s Case Number

This new field “Student Case Number” is a TRIO generated number and is one of several “match keys” that assists in tracking participants across reporting periods. TRIO will assign a student case number to each participant record. Grantees may download the EXCEL file with this information from the APR web application for use in matching and tracking their participants.

APPENDIX A

List of Major Fields of Study	
Humanities	
Area/ethnic/cultural/gender studies	Liberal arts, sciences and humanities
Arts--visual and performing	Philosophy and religious studies
English language and literature/letters	Visual and performing arts
Foreign languages/literature/linguistics	Theology and religious vocations
History	
Social/Behavioral Sciences	
Anthropology	Political Science & Government
Criminology	Public Policy
Criminal Justice & Corrections	Psychology
Economics	Social Sciences/General/Other
Geography	Sociology
International Relations & Affairs	Urban Affairs Studies
Linguistics	
Life Sciences	
Agriculture & Related Sciences	Multi-interdisciplinary Studies
Biological & Biomedical Sciences (e.g., Anatomy, Microbiology, Zoology, Ecology, etc.)	Natural Resources & Conservation
Environmental Science	Natural Sciences
Food Science	Parks, Recreation, & Fitness Studies
Forest/Resource & Management	Plant Sciences
Forest Science & Biology	Soil Sciences
Forest Science & Technology	Wild Life/Range Management
Physical Sciences	
Astronomy	
Atmospheric Science & Meteorology	
Chemistry	
Geological & Earth Sciences	
Ocean/Marine Sciences	
Physics	
Mathematics	
Algebra	Logic
Applied Mathematics	Statistics
Geometry/Geometric Analysis	Topology/Foundations
Computer/Information Sciences	
Computer Science	
Information Science & Systems	
Engineering	

Aerospace, Aeronautical & Astronautical	Environmental/Health
Agricultural Engineering	Industrial/Manufacturing
Bioengineering/Biomedical	Mechanical
Chemical	Metallurgical
Civil	Mining & Mineral
Computer	Nuclear
Electrical, Electronics, & Communications	Ocean
Engineering Management & Administration	Petroleum & Natural Gas
Engineering Physics	Polymer & Plastics
Engineering Science	Systems Engineering
Teacher Education (Teacher Prep)	
Adult & Continuing Tech Ed	
Elementary & Secondary Education	
Pre-elementary & Early Childhood	
Special Education	
Education--Research & Administration	
Counseling/Guidance	Educational Statistics/Research Methods
Curriculum & Instruction	Higher Education/Evaluation & Research
Educational Administration/Supervision	Special Education Research
Educational Assessment/Testing/Measurement	
Educational Instruction/Media Design	
Business Management	
Accounting	International Business/Trade/Commerce
Banking/Financial Support Services	Marketing, Management, & Research
Business Administration & Management	Management Information Systems/Business Statistics
Managerial Economics	
Finance	
Human Resources	
Health Professions and Related Sciences	
Environmental Health	Epidemiology
Environmental Toxicology	Health Systems/Services Administration
Medical/Pharmaceutical	Kinesiology/Exercise Science
Nursing	Public Health
Speech-Language, Pathology & Audiology	Rehabilitative/Therapeutic Sciences
Veterinary Sciences	Medical Technology
Vocational/Technical	
Science technologies/technicians	Precision production
Security and protective services	Transportation and materials moving
Construction trades	

Mechanic and repair technologies

Communication/Journalism/Technologies

Communication Theory

Mass Communication/Media Studies

Film, Radio, TV & Digital Communication

General Communication

Other Technical/Professional

Architecture and related services

Library science

Personal and culinary services

Military technologies

Family and consumer/human sciences

Public administration and social service

Legal professions and studies
