# STATE SECTION 619 COORDINATOR SURVEY

March 20, 2015

#### Paperwork Reduction Act of 1995

#### **Notice of Confidentiality**

Information collected for this study comes under the confidentiality and data protection requirements of the Institute of Education Sciences (The Education Sciences Reform Act of 2002, Title I, Part E, Section 183). Responses to this data collection will be used only for statistical purposes. Personally identifiable information about individual respondents will not be released. Please note that data on state policies and practices may be reported by state.

#### Introduction

The U.S. Department of Education would like to thank you for your willingness to participate in this survey being conducted as part of the Evaluation of Preschool Special Education Practices. The purpose of this evaluation is to examine curricula and interventions that are used with preschool children with disabilities to promote their learning of language, literacy, and social-emotional skills. We are requesting you complete this survey because you and your staff are most knowledgeable about special education policies and programs in your state. This survey, sponsored by the U.S. Department of Education, Institute of Education Sciences, will provide additional descriptive information to the Department about how, by whom, and in what settings preschool children with disabilities are served.

#### **Directions:**

Throughout this survey we will be asking about programs and services for children ages 3 through 5 with disabilities. Please think only about programs and services provided by district or local education agencies (LEA) in your state. Please do not include other locations where preschool children with disabilities may be served.

Please share this survey with other staff who can help address any questions you are unable to answer.

If you have any questions, contact [XXXXX telephone and email]. Once you have completed the survey, please email it to [CONTACT INFO] by [DATE].

We will start by explaining what we mean by some terms that appear both in this section and throughout the survey.

- By <u>children ages 3 through 5 with disabilities</u>, we always mean those who are served under Part B, Section 619 of the Individuals with Disabilities Education Act (IDEA).
- By <u>curricula</u>, we mean sets of written materials or directions that provide an integrated framework to guide instruction. Curricula define the scope and sequence of activities and are generally designed to be used with all children in a classroom.
- By <u>interventions</u>, we mean sets of teaching or instructional practices that are more intensive for children who need additional supports to learn or develop. Interventions can occur in the context of a curriculum and target one or more domains of learning and development.
- By <u>adopted for use</u>, we mean curricula or interventions that are required, recommended, supported, or in some way available for staff to use with children.
- By general education classrooms, we mean classrooms that are designed to serve most children, including children with disabilities. These may also be called "inclusive classrooms."
- By <u>special education classrooms</u>, we mean classrooms that are designed to primarily serve children with disabilities.
- By <u>core or primary curriculum</u>, we mean a single curriculum that is predominantly used on a regular basis for all children ages 3 through 5 or is required to be used when instructing all children ages 3 through 5.

#### Section 1: How Decisions to Adopt Curricula and Interventions are Made

#### INTRODUCTION:

The following questions are about the curricula and interventions that the state has adopted for use with children ages 3 through 5 with disabilities.

We will ask you about curricula and interventions separately.

First, thinking about curricula...

l.1		cur	ricul	of the following best describes how the state is involved in determining what la districts adopt for use with children ages 3 through 5 with disabilities in the area uage/literacy skills?
	D i s t	No	te:	If the same curricula are adopted for use with <u>all</u> children ages 3 through 5, please describe the general process for selecting these curricula.
		Sel	ect o	ne only
		O	The	state requires all districts and schools to use a specific curriculum1
		O		state creates an approved list of curricula from which districts and/or cols must choose2
		O	and	state identifies guidelines or standards for curricula but gives districts /or schools the flexibility to choose any curriculum meeting those lelines or standards3
		O	The	state is not involved in decisions regarding curricula4
L.2	D i s t	cur	ricul a of te:	of the following best describes how the state is involved in determining what la districts adopts for use with children ages 3 through 5 with disabilities in the social-emotional/behavioral skills?  If the same curricula are adopted for use with all children ages 3 through 5, please
		Col		describe the general process for selecting these curricula.
		_		ne only
		0		state requires all districts and schools to use a specific curriculum
		0		state creates an approved list of curricula from which districts and/or pols must choose2
		0	and	state identifies guidelines or standards for curricula but gives districts /or schools the flexibility to choose any curriculum meeting those lelines or standards3
		O	The	state is not involved in decisions regarding curricula4

	<b>curi</b> ist <b>tibre</b>	riculum for children ages 3 through 5 with disabilities, how easy or difficult would it be for state to adopt it?
1	.8	
	Sele	ect one only
	•	Very easy1
	O	Somewhat easy2
	O	Somewhat difficult3
	O	Very difficult4
	O	Don't knowd
	O	Not applicable – state not involved with adopting curriculan
by int	erven en wh	e focus on interventions for children ages 3 through 5 with disabilities. As a reminder, tions, we mean sets of teaching or instructional practices that are more intensive for need additional supports to learn or develop. Interventions can occur in the context lum and target one or more domains of learning and development.
D i s t	inte	ch of the following best describes how the state is involved in determining what rventions districts adopt for use with children ages 3 through 5 with disabilities in the as of <u>language/literacy</u> and <u>social-emotional/behavioral</u> skills?
	Note	describe the general process for selecting these interventions.
		ect one only
		The state requires all districts and schools to use specific interventions1
		The state creates an approved list of interventions from which districts and/or schools must choose2
		The state identifies guidelines or standards for interventions but gives districts and/or schools the flexibility to choose any intervention meeting those guidelines or standards
	C	The state is not involved in decisions regarding interventions4
	inte	ou discovered a promising new language/literacy or social-emotional/behavioral skills rvention for children ages 3 through 5 with disabilities, how easy or difficult would it be fo state to adopt it?
	Sele	ect one only
		Very easy1
		Somewhat easy2
		Somewhat difficult3
	•	Very difficult4

C		Don't know	
C	)	Not applicable – state not involved with adopting interventions	.n

Thinking about both curricula and interventions... What would be the major obstacles to adopting a new curriculum or intervention for children 1.6. ages 3 through 5 with disabilities in the state? District 1.14 Select all that apply ☐ Legislative or state policy restrictions......1 □ Funding/cost......2 ☐ Alignment with early learning standards/guidelines or other curricula/interventions currently in use......4 Time necessary for professional development and coaching.......5 School district resistance......8
